Miss Olive Hiscox at Oakland, Nebr., has been held for the murder of F. L. Sellers, who was found shot to death in the woman's residence Tuesday morning of last week. They had been criminally intimate for several years, the wife of the victim knowing of the intimacy.

THE terrible disaster at Moscow where over 3,000 persons were trampled to death in their eagerness to partake of the free feast provided by order of the czar, was, after all, a fitting sequence to the costly splendors of the coronation in a land where so many thousands of suffer the pangs of hunger want, while millions of dollars are lavished upon those glittering pageants which serve to symbolize the power of the throne.- [Kansas City Star.

A MAN named Early, on a jury in the district court at Omaha Wednesday, became violently insane and insisted that all parties to the suit should be sent to the penitentiary. The case was that of Chris Bullenheimer against the Omaha Brewing association for \$15,000 damages for injuries alleged to have been received by falling through a hole in the cellar in the old brewery of the company. It seems that the juryman had formerly kept a saloon in Elkhorn, and had lately been drinking very heavily. He had never before shown signs of insanity.

McKINLEY is quoted by some republicans as a goldbug, some as a silverbug, and the general public has made up its mind that he is a straddlebug.- [Quill.

The general public as the Quill means it consists of populists but the rank and file of republicans have no cause to consider McKinley as a "straddlebug." when they read what he said in his joint debate with Governor Campbell:

"I voted for the restoration of the silver dollar. When I did it, we had but eight million of siver dollars in circula-tion. When I did it, silver was more valuable than today. We have four hundred and five million of silver dollars today, and that is as much as we can maintain at par with gold, with the price of silver that prevails throughout the world. I am opposed to free unlimited coinage, because it means that we will be put upon a silver basis and do business with silver alone, instead of with gold, silver and paper money, with which we do the busin try today, every one of them as good as gold."—[Schuyler Sun.

Grover as an Autocrat. Mr. Pettigrew, republican, of South Dakota, in expressing the belief that the time had come for the constitutional limiting of the veto power, made this attack on the president Wednesday. "The present occupant of the White house," said Mr. Pettigrew, "is not content with the violation of the constitution by the exercise of veto power alone, but with an utter disregard of his sacred oath of office, as well as of the constitution, he overrides the laws, influences congressmen with patronage, enriches his favorites at the public expense-in fact, permits no restraint but his imperial will. > UNANIMOUS FOR FREE SILVER. One Pervading Idea at the Arizona De cratic Convention.

PHOENIX. June 9.—The Democrati erritorial convention which assembled here yesterday had one pervading idea and that was free silver. W. A. Rowe of Yavapai, for 30 years a silver miner in Arizona, was elected chairman. His speech expressed dissatisfaction with the policy of the national Democratic administration and called upon the convention to express its principles without hesitation. The money plank adopted is as follows:

We favor the immediate restoration the free and unlimited coinage of gold and silver at the present legal ratio of 16 to 1 as such coinage existed prior to 1873 without waiting for the aid or consent of and private. We are opposed to the retrement of the greenbacks and demand that the secretary of the treasury, instead of issuing interest bearing bonds for the right to redeem greenbacks, treasury notes and all other coin obligations in gilver where silver is more convenient.

The delegates to the national convention were instructed to vote as a unit and to vote only for a free coinage candidate for the nomination of president and vice president. The platform also demands the immediate admission of Arizona to statehood. A resolution pledging the Chicago delegates to Bland was voted down, as instructions were not deemed advisable. The following were elected delegates to the national convention: J. B. Alexander, I. F. Wilson, W. H. Barns, Hugh Campbell, Wiley H. Jones and W. H. Burbage.

Dynamiters Terrorizing Spaniards. BARCELONA, June 9.—The person who threw the bomb into the crowd before the church of Santa Maria del Mar vesterday has not yet been apprehended The impression is general that anarchists did the work, as the result of a widespread anarchistic plot. The police are working on this theory and have arrested 22 men known to entertain an archistic sympathies. In connection with these arrests they have seized number of documents which furnish some clue to the plot of which the bomb throwing was a manifestation. These documents indicate that the center of the terrorist agitation is directed with the purpose of precipitating a number of anarchistic demonstrations, accompanied by acts of violence at different points simultaneously, or follow closely upon each other, so as to create a reign of terror in the different European governments.

the Hotelkeepers-Arisona Des Unanimous For Free Silver-Che Arbuckle Abandons His Plan - Ot News of a Political Nature St. Louis, June 9.—What shall

done with the colored delegates and alternates to the national Republican convention? This is the question which i puzzling the members of the national committee who have arrived in the cit and the Business Men's League which secured the convention to St. Louis as well. Every hotel and boarding house and cafe came out flatfooted yesterday and declared it would entertain no negro as a guest or customer. Money is no object. Threats of prosecution have no effect and from the present outlook it would seem that unless tents are secured the black men will have to go hungry and unhoused. "I am thoroughly disgusted and dis-

couraged,"said National Committeema Long of Florida in speaking of the matter. "I have been looking all day long for a hotel, boarding house or cafe that would admit the negroes, but it has been a fruitless search. I even went so far as to try to charter a steamboat, but when the owners learned for what purpose I wanted it they found an excuse for refusing me the use of the vessel. It is the only time in the history of the Republican party where such an em-

barrassing predicament has arisen. When asked what the national com mittee would do, Mr. Long replied: have consulted the members who are here and we have decided to offer a resolution as soon as the committee meets, condemning the hotelkeepers and for setting aside of a fund for renting a hall in which cots shall be placed for the accommodation of the negroes who may come to the convention. We will also require the employment of a corps of cooks to supply them food."

The boom for General Allison of Iow as the candidate for the coming Repub lican convention will be opened in force today. J. S. Clarkson will arrive as will also G. B. Mr. Bartels selected the wood-a hickory log taken from the log cabin occupied by President Lincoln at New Salem, Ills., in 1889. It was manifest from the drift of the direct examination that the purpose of the defense was to throw the whole guilt of the murder on Scott Jackson, and, if possible, establish an alibi for Walling himself. He said both in direct and cross examination Scott Jackson first mentioned Pear Bryan to him early in January. THINK of it! It is now estimated that the damage to property at St. Louis by the storm of May 27 will exceed \$30,-000,000. Four hundred and ninety deaths is the latest record. It is calculated that, twenty thousand masons, carpenters and laborers working for a year, cannot make the repairs and re-

build what was destroyed in a few minutes.
