One man can buy as cheap as another, and a child as cheap as a man. GOOD GOODS for good money, which means our Uncle Samuel's dollars, whether paper, silver or gold—they are equal, too, with us.

Mr. Depew's 'discovery' of California. After a long life of activity, with countless trips to Europe and elsewhere, it is only within the last three or four years that he has penetrated farther west than Chicago, and only this year that he has ventured beyond Denver, which is itself but a trifle further than half-way across the continent. Mr. Depew is an example of a large class.

Whatever dollars we have must all be gold dollars, equal in purchasing power, whether they be paper dollars, or gold dollars, or silver or treasury notes. This is the declaration of William McKinley, in the house of representatives, June 25, 1890, and it is today the platform policy of the republican party...

Forty-three people were killed and eighty wounded in a railroad wreck near Atlantic City, N. J., Thursday evening. One train, a special excursion of Red Men and their friends of Bridgeton, N. J., and Seaboard, had reached the crossing of the Reading railroad, when it was struck by a down express from Philadelphia, demolishing two cars and telescoping the two following. William Thauler, the operator at the block tower situated at the crossing, was placed under arrest by order of the coroner.

At Steubenville, Ohio, Thursday, a cloud burst did damage which cannot be repaired for \$100,000. It was in the western part of the city. No lives were lost. There had been a warning of the danger from water coming down a valley. Houses went down before the angry waters like paper buildings. At Wheeling the same day heavy rain caused immense damage. Eaton's tunnel on the Baltimore & Ohio caved in at both ends while a passenger train was going through, but the mishap caused no loss of life.

TOM WATSON, the populist nominee for vice-president, says that "in the event that Sewall does not retire, the populists will put out a full electoral ticket. There can be no fusion unless Sewall withdraws. I give you this merely as my opinion." Touching the same subject, Chairman Jones of the democratic national executive committee, says he will not consider any proposition for the withdrawal of Sewall, but will entertain as far as he has the power and promote to the best of his ability any just and fair proposition for fusion on electoral ticket.

A RECENT cartoon in the Chicago Herald represents the St. Louis, populist convention hall, and on the Washington road are two pedaling cyclists, the foremost one being a full-grown populist. Bryan, with his smiling face, sits on the baby seat in front. Behind them, barbed, on the rear seat of a two-seated tandem labeled Democracy, rides Sewall, solitary and alone. The cartoon is called "The Abduction of Little Willie Bryan." A picture is so comprehensive, and while this hits off neatly the fact that a kite cannot walk, carry its tail and at the same time signal boards at the side of the road significantly points "To Washington," in the very opposite direction from that in which the cyclists are traveling.

CHARLES S. GLENN in the August Forum gives an illustration of a truth, palpable to most western people. He states it thus: "It is unquestionably true that the average stay-at-home citizen of the east has entirely failed to measure the muscle of the west—or, better yet, the muscle of the country. We have all been recently amused by
