For Congress Third District: BOSS L. HAMMOND.

PLAINT OF WOOL GROWERS.

Sheep and wool of Colorado have been demoralized. A wool grower in Colorado writes as follows:

"We of Colorado have much to complain of. Not only has silver been demoralized, but last and worst the sheep and wool of Colorado have been demoralized."

"We have got along with the demoralization of silver for more than twenty-three years, and we still produce \$15,000,000 worth of silver annually."

"The demoralization of sheep and wool has hurt us worse than that. In 1882 our wool clip sold for nearly \$6,000,000. This year it will scarcely sell for \$1,500,000."

Free Trade Benefits.

No branch of manufacture has made progress—Dan's Review, Jan. 18.

What's the matter? We still have free wool. We still have the German tariff.

It is the policy of the Republican party to not only extend ample protection to the manufacturers of the New England states, but it is the policy of the Republican party, as evinced by all the legislation it has enacted in the past to liberate entire protection to every article in which the southern people are interested.

It is a revolution, and no Republican can ever hope to see his party again in power for a long time again—New York Times, Nov. 10, 1892.

Not so very long, neighbor. There have been other "revolutions" since 1892. Another one is predicted for 1894.

The way we captured the cheese market of the world last year is represented by a decrease of 30,000,000 pounds in our shipments as compared with 1894, and a money loss of \$9,104,000.

3RD DISTRICT NOMINEE.

Sketch of the Republican Congressional Candidate.

THE CAREER OF BOSS L. HAMMOND.

Never Before a Candidate For Any Other Term and Held a Quarter—Went From the Farm Into the Printing Business.

The names of few men in Nebraska are more familiar to the public than that of Boss L. Hammond, the Republican nominee for congress in this, the Third District.

Mr. Hammond should, perhaps, not be designated as a politician, yet he has been identified in some degree of prominence with the fortunes and political warfare of his party.

Mr. Hammond was born in the village of Le Grand, Ia., May 13, 1861. He comes of Quaker parentage, was reared in a Quaker neighborhood, surrounded by Quaker influences and educated in the public and Quaker schools.

BOSS L. HAMMOND, a large degree of such success as he has attained. In 1878 he graduated from Friends' academy, Le Grand, afterwards attending school at Penn college, Oshkosh, Wis.

Increased Indebtedness the Height of Business Prosperity—Bennett Starts a School, First Lesson a Laughing School of Students.

Paradoxical as it may seem to those imbued with the false mercantile theory, there can be no real prosperity in any nation's foreign commerce except in years when the imports exceed in value or productivity the exports—L. A. when there is an "adverse balance of trade" (so called).—New York Herald.

To Chicago and the East.

Passengers going east for business, will naturally gravitate to Chicago as the great commercial center.

Returning friends or relatives in the eastern states always desire to "take in" Chicago on their way.

All classes of passengers will find the "Short Line" of the Chicago, Milwaukee & St. Paul Railway, via Omaha and Council Bluffs, very excellent facilities to reach their destinations in a manner that will be sure to give the utmost satisfaction.

A reference to the time tables will indicate the route to be chosen, and, by taking any principal agent west of the Missouri river for a ticket over the Chicago, Council Bluffs & Omaha Short Line of the Chicago, Milwaukee & St. Paul Railway, you will be cheerfully furnished with the proper passport via Omaha and Council Bluffs.

Please note that all of the "Short Line" trains arrive in Chicago in ample time to connect with the express trains of all the great through lines to the principal eastern cities.

For additional particulars, time tables, maps, etc., please call on or address F. A. Nash, General Agent, Omaha, Neb.
