BRYAN'S INDIA FAKE.

His Repeated Assertions Concerning India Wheat Proven False.

HON. JAMES BRYCE SPEAKS.

Denials by Members of the English Parliament and a Prominent London Merchant.

In the speech delivered by William Jennings Bryan to the farmers of the New York assembly at Chautauque, the India wheat fake was revamped by the silver candidate for president. The assertion made by Mr. Bryan in his Omaha debate last May that the English speculators could drive great bargains in buying silver and trading it for India wheat to the detriment of the American farmer was reiterated and embellished by his ferocious imagination so as to create the impression that the decline of silver has made India the most formidable competitor of the American wheat and cotton growers.

As usual, Mr. Bryan talked at random without taking the trouble to acquaint himself with the actual facts.

The Bee now has the facts and the figures that effectually explode Mr. Bryan's India fake. Over two months ago the editor of the Bee directed a personal inquiry on this subject to Edward James Bryce, who is now and has for many years been a member of Parliament and was a member of the British board of trade. Responding to this letter, under date of August 1, Mr. Bryce says:

"You are quite right in thinking that British merchants gain nothing at all from the closing of the Indian mint. The sharp competition, especially of the Hindoo native merchant, drives down their profits and they lose heavily on the exchange between India and England in turning into English gold the silver pieces they receive for the goods they export to India. The export of food stuffs from India has not, I gather, increased during the last year. In 1895 the closing of the mints has not increased it. Manchester and our manufacturers generally count on the exports of India as unprofitable. Our cotton industry is at present greatly depressed. So Britain at least gains nothing. You will therefore, be safe in saying that there has been, or is, any bonus or benefit to British merchants or manufacturers."

This letter has been supplemented by Prof. Bryce with an article prepared by his brother, J. Anson Bryce, a very prominent London merchant, who was for many years a resident of India. Mr. J. Anson Bryce says:

"For Mr. Rosewater's guidance I have made up the annexed statement, which parallels the columns of the exports of wheat from the United States to Russia, India and other countries. In 1873 the exports from India to 1873 before the fall in silver and rupee exchange were estimated at 1,028,417 tons.
