A VERY important item for the legislature to consider would be an amendu to the depository laws of the state. They should be so amended as to prevent the deposit of public funds in any one bank of more than twenty per cent of the institution's capital stock. If such an amendment is made it will take banks out of politics so far as the nomination and election of county treasurer goes, and will place a stronger safeguard around the funds.- David City Banner.

VANKTON, S. D., Jan. 5.—The blissard which began Saturday night raged with unabated frry last night. Only one railroad is reported to have moved a train in South Dakota, and this was the local on the Chicago, Milwaukee and St. Paul between Yankton and Sioux City. All other trains were abandoned. The storm is the worst that has ever been known for drifting snow, but is not so blinding or cold as the great storm of 1888, when more than 100 people were frozen to death. No casua' ties of this nature have yet been reported, although a great deal of stock is known to have perished. The state legislature, which was to convene at Pierre today and the banquet to Governor Lee which was to have followed were of necessity postponed, as about 80 of the 126 members are snowbound and some of them will not reach the capital for several days.
