Tur term of Frank E. White as United States marshal for the district of Nebracks will expire March 28, and this fact is attracting the attention of quite a number of republicans who are conacious of the fact that they could fill the position in a becoming manner.

Ir will be a sample of poetic justice if plucky little Greece should, after all, settle the "anspeakable Turk." All along, the decent people of this country have been thinking, "Some nation ought to discipline Turkey or allow some other to do so." Now that Greece has stopped in, let England and Germany and the rest stand back.

VIBOINIA, after all, leads in wonders. A telegram in Sunday's dailies reads: "Joseph Murdock of Scott county, Virginia, who was supposed to have been murdered twenty-five years ago and for which crime Bud Lindsay served twentyone years in the Virginia penitentiary, has returned to his former home. Lindsay died recently."

THERE is no doubt but some republican aspirants for the place will be disappointed because the appointment of ing was in fact the real convention and W. H. Munger to be United States dis- there was nothing to justify delay.

W. J. Bryan's Silver Theory. Mr. Bryan still professes to believe in the theory of the free and unlimited coinage of silver, 16 to 1, and that as long as it is delayed, so long will the stagnation of business and hard times continue. Whether his professed convictions are honest or not, is a question that is doubted by many and quite many who voted for him at the late election. Still he urges the people to keep up the organizations and agitation of the question. It was reported some time ago that the Kansas populists debated among themselves the feasibility of in-troducing a bill in their legislature to enact a state law making the Mexican dollar a legal tender for all purposes throughout the state. But the idea has never materialized, for the reason I suppose that it was not constitutional and that no state had the power to coin money or to declare the value thereof. The writer of this article has frequently thought that it was a pity that laws and constitutions stood in the way of letting some brilliant populistic propositions be experimented upon at least for a few ana and Illinois.
