SPECIAL SESSION OF THE SEN-ATE AT AN END.

Senator Hear Gives Notice of Two Radical Changes in the Rules Which He will Propose in a Short Time in the Senate-Miscellaneous Washington Notes.

WASHINGTON, March 11.-There was 21 Brilliant Blooming Plants .... \$1.00 an unusually large attendance of John A. Salzer Seed Co., La Crosse, members when Vice President Hobart called the Senate to order at noon to-day. The first business was the Mr. Dasch-And now you have reading of a letter from Governor Bradley of Kentucky aunouncing the appointment of Andrew T. Wood as senator, to succeed Mr. Blackburn. Mr. Hoar moved that the senator-elect be sworn in and Mr. Gorman that the credentials be referred to the committee on privileges and elections. Mr. Hoar said that he would not object

to that motion, and the credentials Then Mr. Hoar presented written notice of two proposed radical amend-ments to the rules. The most important was, according to Mr. Hobart's written notice, "to enable the Senate to act upon legislation when it desires, after a reasonable debate." It provides that when any bill or resolution shall have been under consideration more than one day, any senator may demand that debate be closed, and, if a majority of the senators so decide. there shall be a vote without further delay and no motion shall be in order pending the vote but one to adjourn or take a recess. The other amendment proposed that when a senator shall make the point of no quorum there shall be a roll call, and if the pres-ence of a quorum be disclosed, business shall be proceeded with. On motion of Aldrich the Senate

Monday till 11 o'clock and agreed to adjourn sine die. A memorial was presented by Mr. Shoup from the Idaho legislature asking for the annexation of a part of Wyoming. It was referred, but Mr. Warren said that if the Wyoming legislature had been informed of the memorial it would have taken action. The nomination of W. R. Jewett as postmaster at Danville, Ill., was received and he was confirmed. This is the first postmaster appointed and is to fill a vacancy. During the adminis-tration of Mr. Cleveland the name of John Beard was sent to the senate at every session, but he was not confirmed. At 12:40 o'clock the special session

went into executive session and recon-

sidered its action to adjourn until

was ended. M'KINLEY'S PLAN.

WASHINGTON, March 11.—It is underd that the President will n point members of an international pirants who have been unable to resteps toward calling a conference until after the expiration of the special session of Congress. The President has very few changes in office, save where turn from Australia he stopped for 2 ment printing office at \$3.20 per diem. in mind a very comprehensive plan for dealing with the whole monetary question. It is understood that he at first confine negotiations with foreign governments to the usual diplomatic agencies. All the ambassadors and ministers to foreign governments appointed by Mr. Mc-Kinley will be given special instructions to devote particular attention to bringing about a friendly understanding on the monetary question. They are expected to assume an attitude friendly to bimetallism. and to exert what influence they can toward inducing the countries to which they are accredited to give the matter serious

CIVIL SERVICE RULES.

Decided to Continue Past Extensions. WASHINGTON, March 11.-It is said that the members of the cabinet, at their meeting yesterday, discussed in a general manner the subject of patronage and civil service. It was decided to allow the civil service orders to stand in their present form and to appoint a number of assistant secretaryships, heads of bureaus and leading ministers, to be sent in at one time, the remaining patronage to wait until the tariff bill should be disposed of. Postoffices and other offices becoming vacant are to be filled from

time to time, regardless of this rule. DEMOCRATS IN CAUCUS.

The meeting resulted in nothing beyond a general exchange of views and the authorization of Senator Gorman, chairman of the caucus, to appoint a new steering committee to consider the situation in all its bearings and report to a future conference.

BRASS, West Coast of Africa, March 11.-A French force numbering 400 men under white officers has occupied the town of Boussa. ENEW DUTIES ON SUGAR. A CALL ON M'KINLEY

With Refined Differentials. Washington, March 11.—The Republican members of the House ways and means committee nearly disposed of the sugar schedule yesterday. They agreed unanimously to impose specific duties, and made the duty on sugar testing 96 degrees saccharine strength. polariscopic test, 1.65 cents a pound, and above 96 degrees 3-100 of a cent more, and below 96 degrees 3-100 of a cent less for each degree. This will make the duty about 1 cent for sugar of .75 degrees or less. It was that the discriminating duty against sugar from export bounty-paying countries should be the net amount of the export bounty. For purposes of reciprocity the president was authorized to reduce the duty 1/2 pounds, when coming from the countries which, in his opinion give reciprocal advantages. The differential between raw and refined sugar was will bring the revenue from sugar up to \$50,000,000 a year. Under the Wilson law it is \$30,000,000.

MAY COMPROMISE.

the Senate Complications.

WASHINGTON, March 11.—There is a prospect that the two leading parties in the Senate—the straight Republicans and the straight Democrats-will come to an agreement as to the organization of that body which will leave the silver Republicans, Prohibitionists and Populists in the cold. It is understood that one compromise plan which will be offered in this neighborhood, while having a to both caucuses will be to give well drilled on a piece of land about of the finance committee by appoint- oil. As a part of this committees as individual merit, rank and experience will command. How far this scheme can be carried into effect without endangering the tariff law remains to be seen, but if it should be adopted the free silver Republican senators whose votes are needed for the tariff bill will fare well,

This may be an overestimate of the conservatism displayed by the administration, but it is recalled that Mr. McKinley, before his inauguration, held to the view that the changes in office, with all its accompanying confusion and derangement of business, should not be undertaken until the tariff bill is enacted. This view is brought freshly to mind by the state-ment made yesterday that a prominent assistant secretary in one of the executive departments has been asked to remain in his place for five months.

Every eye is turned to Senator Thurston, who is looked upon as the Moses to lead them The presence of Hon. Church How

in town for a week or so past has caused the gossips to speculate upon his chances for securing somethin under this administration. Just what he has his eye upon is not certain, but it is believed that he came to Washington cocked and primed with an aplication for appointment as third assistant postmaster general. Senator Thurston, it is understood, has Mr. Howe's claims for recognition under advisement. Nominations for office have not yet

begun to come into the senate in force. When they do several holdover post-J. Bilis of Fairbury, L. L. Lindsey of offices in Nebraska are likely to be Lincoln, and W. E. All of them occur in counties that will be represented in the next house by populists and it will consequently fall to the lot of Senator Thurston to recommend appointees for these positions. As the vacancies the offices have now been waiting for some time the nominations will doubtless be among the first that President McKinley will send into the senate. A. D. We appeal also that such contributions as are made, be made promptly. The ravages of the India famine bring hundreds every day, men women and children, to the untimel death of hunger and disease; the needare present and fearfully imperative: what is done should be done quickly to silence the cry of hunger among the famishing myraids of India. A WONDERFUL SHRUB.

Cures Many Bodily Ille.
One of the latest botanical discuseries of interest to seekers for health is called Alkavis, from the Kava-Kava shrub of India. It is being imported by the Church Kidney Cure company of New York, and is a certain cure for several bodily disorders. The Kava-Kava shrub, or, as botanists call it, "Piper Methysticum," grows on the banks of the Ganges river, and probably was used for centuries by the natives before its extraordinary properties became known to civilization through Christian missionaries. In this respect it resembles the discovery of quinine from the peruvian bark, made known by the Indians to the early missionaries in South America, and by them brought to civilized man. It is a wonderful discovery, with a record of 1,200 hospital cures in thirty days. It acts directly upon the blood and kidneys, and is a true specific, just as quiine is in malaria. We have the strongest testimony of many ministers of the gospel, well known doctors and business men cured by Alkavis. So far the Church company, No. 422 Fourth avenue. New York, are the only importers of this new remedy, and they are so anxious to prove its value that for the sake of introduction they will send a free treatment of Alkavis prepaid by mail to every reader of this paper who is a sufferer from any form disease, rheumatism, dropsy, gravel, pain in back, female complaints or othand address to the company, and receive the Alkavis free. It is sent to ful curative powers.

A ROGUE ELEPHANT.

and Was's Terror to Everybody. From the Madras Standard.

During a recent religious festival at ambramini, a terribly tragedy was enacted by an elephant. Like most large temples this has its periodical festivals, one of which has just been celebrated. Certain elephants were brought down from Nunguneri and Tinnevelly for the festivities of the occasion. All went smoothly till, unfortunately, the large elephant of Nunguneri, being in a rut. run amuck. The mahout unwittingly took up a little child (son of the Temple Darmakartha) and placed it in front of him on the neck of the elephant. Alarmed at the state of the elephant, the mahout endeavored to quietly pass the child out of danger by handing it to somebody behind. He was not quick enough to elude the sagacity of the elephant, which snatched up the child, put it into his mouth, and began munching it. The mahout, horrified at the sight, jumped down and tried to extricate the child, which he succeeded in doing, but not before the child was well nigh dead. Indeed, it only breathed for a few minutes afterward. and then expired. Enraged beyond all bounds, the animal became furious, and in its mad rage seized the mahout, dashed him to the ground, and then trampled out any little breath that of kidney or bladder disorder, Bright's | might have still remained in the body. And here comes a strange and touching incident. Repenting seemingly of his Washington has been completed within er afflictions due to improper action of the kidneys or urinary organs. The elephant wildly rushed along the streets and came to the temple, the door of which, too, had been closed. It thereupon battered the door, and passing into the enclosure, furiously attacked the little elephant of Tinnevelly, which it pierced with its tusks and soon killed. Emerging thence, the elephant rushed madly along the river close by, where it began throwing mud and sand all over itself. In the meantime, the police con-

stables had got their muskets loaded, and, climbing out of danger, took potshots at the furious animal, which they eventually succeeded in disabling and ultimately killing 1667 BUS. time I have tried various remedies and was treated by several able physicians, but without result. I passed many a long, weary night without closing my eves in alcep, so great was the pain in my arms and hands. Last spring Rev. J. B. Wiles advised me to try Pink Pills, as he said they had cured a bad case of rheumatism for him and some of his relatives. I was so impressed with Mr. Wiles' enthusiastic praise of Pink Pills that I decided to try a box, and the result is all that the mest exacting could wish, for before I had taken two boxes of the pills I was completely cured, and I feel better now than I have for several years.

"My wife," continued Mr. Baird, "was badly afflicted with neuralgia in the breast with frequent smothering spells. One box of Dr. Williams' Pink Pills effected a complete cure in her case. I attribute my cure
