AGREEMENTS OF ALL KINDS ARE SUSPENDED.

The Memphis, Missouri Pacific and "White" Western Lines All Associations—Chicago, Kansas, and St. Louis to Act—John Traffic Association.

Nearly All Heads Out. St. Louis, Mo., March 25.—At an informal conference of the executive officers, the traffic managers and general solicitors of the St. Louis lines, the conditions which confront the railroads in the light of the United States supreme court decision in the case of the Trans-Missouri association, were discussed at length.

Yesterday afternoon the Kansas City, Fort Scott & Memphis, the Missouri Pacific-Iron Mountain and the St. Louis & San Francisco Railroad companies followed the lead of the St. Louis & San Francisco and gave notice of withdrawal from all traffic associations, both freight and passenger, in the west and southwest.

CHICAGO, March 25.—A mass meeting of Western Transcontinental, Ohio River and Southern passenger associations in session here today, indignantly on an informal discussion of the decision of the supreme court in the Trans-Missouri case it was decided beforehand that there would be no definite concerted action on the part of these associations.

New York, March 25.—The news that Western railroads were withdrawing from the passenger and freight associations as a result of the decision of the United States supreme court against the Trans-Missouri association, caused considerable stir among railroad men of this city, but as a rule they look upon the withdrawal of the Chicago, Burlington & Quincy among the various associations as hasty, holding that it would be better to wait until the associations should be forced to disband. No steps have been taken by the Joint Traffic Association in reference to disbanding. In fact the opinions of leading trunk line officials indicate that they will remain quiet for the present and await the final decision of the supreme court.

CHICAGO, March 25.—All Kansas City and Missouri lines combinations are shattered and a serious war in rates is expected to break out any day. Nearly every traffic official who is in the employ of a line formerly a member of the Western Freight Association, has received orders not to attend any railroad meetings until further notice. Acting Secretary George Foote of the local passenger association, has announced that there will be no more meetings of that organization.

CHICAGO, March 25.—The bars have been thrown down so far as freight and passenger rates are concerned, and the sharp competition which is at hand will result in lower rates.

CHICAGO, March 25.—Frederick R. Condit, of New York city, one of the receivers of the Union Pacific, who is here attending the meeting of the receivers, said of the supreme court's decision on railroad associations: "I have no doubt but that the effect of the decision of the supreme court declaring the Trans-Missouri Freight Association illegal will be very far-reaching. It may very likely be that all freight and passenger associations in the country will be forced to disband. It looks as though the Union Pacific and all other railroads that are in the hands of receivers will be most keenly affected by the decision. The receivers of a railroad are really a part of the court, and no part of a court can take a position adverse to that of the supreme court. The whole matter is of such great importance that I should not care to give any opinion until I had first read the full text of the decision."

TALK ON TARIFF.

Jerry Simpson Comes in on the Last Day of General Debate.

WASHINGTON, March 25.—Today was the last day for the general tariff debate, but Mr. Talbot of South Carolina had a very scant audience both on the floor and in the galleries when he opened. He talked a great deal about the rubber barons.

Mr. Champ Clark of Missouri said that as a Democratic politician he would rejoice in the passage of the pending bill, because, after it should become a law, every stockholder would be obliged to make a Democratic speech every time he made a sale. The passage of this bill, he said would give the Democrats 100 majority in the next Congress.

After some brief remarks by Mr. McGuire of California and Mr. Gunn of Idaho Mr. Tawney of Minnesota, a member of the committee, spoke for twenty minutes. He defended the lead schedule which had been attacked by Mr. Gunn and asserted that the classification in this schedule was such that the duties could not be evaded. The purpose of the framers of the schedule was to give American labor employment in the smelting of Mexican and Canadian ores and at the same time fully protect the American lead miner.

Mr. Simpson of Kansas entertained the board for five minutes. He said that Mr. McKinley's speech at the Minneapolis convention the declaration that the foreigner paid the tax on the duties was a mistake. The last Congress had increased appropriations \$50,000,000, and now, according to Mr. McKinley's theory, the duties on the foreigner would be increased to pay for the extravagance. The foreigner should be glad that the last Congress had not increased the duties on the foreigner, he observed. The surplus could be distributed among the people, and every day would be Sunday over here. He was himself a farmer who farmed the farms, not the farmers. If the foreigner desired to do something practical for the farmer, why had they left him on the free list? He announced himself a free trader.

COLLAPSE OF POOLS.

SHOWN BY WITHDRAWAL FROM ALL OF THE FREIGHT ASSOCIATIONS.

The Santa Fe Withdraws From All of the Freight Associations. The Santa Fe Freight Association has withdrawn from all of the freight associations of which it had been a member. These are: The Western Freight Association, the Southwestern Traffic Association, the Colorado Freight Association, the Transcontinental Freight Association, the Transmissouri Rate Committee, the Seaboard Rate Committee (general Eastern agents of the Western roads in New York and other seaboard points).

All of these associations have been practically abandoned because besides the Santa Fe, the Burlington, Minneapolis & St. Louis, the Wisconsin Central, the Chicago & North Western and other general offices said to have already forwarded notices of withdrawal.

No notice of withdrawal from the Western passenger association or other passenger organizations of the West have yet been given, but it is expected that these also will have to go by the board. Chairman Morrison of the interstate commerce commission having rendered an opinion that the Transmissouri association case applies to passenger as well as the freight associations of every character.

The board of trade of this city has decided to begin a crusade against violators of the interstate commerce law, not only those who discriminate in the giving of rates, but also those who accept them. At a meeting the transportation board was authorized to begin this work and instructed to prosecute it diligently.

RATE CUTTINGS LOOKED FOR. The lives of the various western associations were dependent on the unity of action of all members, and the withdrawal of one line may have followed the withdrawal of another. AROUSING DOLLIVER.

THE IRON OREGON POOL DEBATE.

WASHINGTON, March 25.—Although several sharp passages at arms somewhat enlivened the tariff debate in the House yesterday, the brilliant speech of Mr. Dolliver of Iowa was distinctly the show piece of the day. Mr. Dolliver is a finished orator, and his speech was a masterpiece of forensic eloquence. Replete with wit and glowing periods, it alternately aroused his Republican colleagues to unbridled enthusiasm and convulsed the House with laughter.

Mr. Dolliver concluded as follows: "If the American people ever get their property back, it will come by their own individual enterprise and courage, not by edicts and proclamations, but by the honest and careful settlement of conditions favorable to industry and investment. If William McKinley's policy is to be followed, the government in order to distribute prosperity from the east portico of the capitol in new wealth, must be prepared to give to the world of dreams and not to the earth on which we live. No man bears any such relation to the property of the world as to be a man may stand, and I recently have seen William McKinley stand, as the chosen instrument in the hand of the people, to give to the world a States public policy which has never yet failed to enable the American people, by their own honest hard work, to become rich and prosperous. A fair level of prosperity, a reasonable reward for their labor and a reasonable dividend on their investment."

Mr. J. P. Morrison, wife of Mr. Fred Morrison, of Chicago, Kan., who has been a patient of Dr. Williams' Pink Pills for Pale People, said: "I was afflicted with a severe case of stomach trouble. I had no appetite for anything and became so weak and emaciated that I could not attend to my household duties. I was treated by the ablest physicians in Chicago, but received no benefit. A neighbor advised me to take Dr. Williams' Pink Pills. I did so and before half of the third box was taken I felt so much better that I began to eat and to sleep. I feel like a new woman now. I am so strong and healthy that I can do any work I wish to do. I feel like a new woman now. I am so strong and healthy that I can do any work I wish to do."

Among the Cherokees.

THE IRON OREGON POOL DEBATE.

WASHINGTON, March 25.—The Senate was unexpectedly precipitated into a civil service debate yesterday. It proceeded for two hours, the civil service act and the commission being under fire most of the time. The debate assumed added significance owing to the recent change of administration, and the fact that the civil service act was passed by a narrow margin.

Mr. Gorman, of Maryland, called attention to the presence in Washington of the horde of hungry police hunters, and expressed profound sympathy with his Republican associates in their opposition to the civil service system.

The discussion came up on a resolution to investigate federal removals at the South Omaha, Neb., office.

Mr. Gallinger of New Hampshire characterized the civil service system as a humbug, and declared that he would be glad to cast his vote to blot out the system. There was continued applause in the galleries at this statement.

Mr. Allen of Nebraska called attention to the removal of a "humbug" and Mr. Wilson, Republican, of Washington said it was a "humbug, a delusion, a snare, and a fraud."

Mr. Hawley of Connecticut, while defending the principle of civil service, said that he was certainly not in sympathy with glaring incompetency. Mr. Stewart, of Nevada, regarded the civil service commission as an "office brook establishment."

The Massachusetts senators, Messrs. Hoar and Wolcott, defended the law.

THE IRON OREGON POOL DEBATE. Minnesota Producers Give Up Their Efforts to Make a New Agreement. CLEVELAND, Ohio, March 25.—The much talked of meeting of the Bessemer Iron Ore Pool, was held in the city yesterday, but was fruitless of results, for it was decided that no further effort to reach an agreement would avail, and the association was formally dissolved.

It is thought an serious effect of the break up of the ore pool will be a reduction in the wages of labor, which, in some cases, has already taken place, and in others is likely to occur. Strikes and labor riots are anticipated by some.

Washington, March 25.—President McKinley yesterday gave a reception to the newspaper correspondents stationed in Washington for the purpose of reporting on the local press. Although it was a busy day in Congress, at least 150 representatives of the leading newspapers of the country were present in the East room when the President entered at 2 o'clock.

Missouri Normal School Orator. WARRENSBURG, Mo., March 25.—A state oratorical association has been organized composed of the normal schools at Cape Girardeau, Kirksville and Warrensburg.
