A certain young man of our city after coveting two young ladies home a few evenings ago, gaily attempted to jump the picnic race, physically demonstrating that he carried light heels as well as a heavy heart, when he fell flat on the top of the fence breaking boards, and gracefully lit on his back on the sidewalk.

The Women's Board of Lady Managers of the Trans-Mississippi Exposition are taking steps to secure several important associations to meet in Omaha during 1898, which would be of great benefit to the state. Among these are, the International Educational Association, National Educational Association, National Music Teachers' association, and the Western Drawing Teachers' association.

Miss Pearl Hanson sees the city of York for \$10,000 damages and \$3,076.00 doctor's bill for an injured hip caused by a defective sidewalk. The village of Table Rock also has a suit for \$3,000 damages caused by a boy catching his foot in a defective curb, from which he received serious injuries. Columbus needs to look after her sidewalks pretty closely and had better not delay until some such case comes up.

Complete returns from the city election point to the fact that Warwick Saunders, nominated by the populists, was fourth in the race, in fact he was distanced by both Goding and Scott. Scott's majority over Saunders on the face of the returns is sixty-seven, but on deducting the entire vote cast by the ladies from Scott's total vote, he would still have thirty-seven votes more than Saunders. So it is plain that the women's votes did not change the result.

John B. Freeman is in receipt of a letter from Commander A. L. Love of Galveston, Texas, who is contemplating chartering a vessel for a cruise to the ports of Venezuela, Costa Rica, Guatemala, Honduras and Mexico, to occupy six months time, and to start some time this summer. The commander thinks some good Nebraska milk might make the trip along with other manufacturers, and find a new market for Nebraska wheat, corn, flour, meal, packing-house products, etc.

Dr. Talmage, speaking of the country newspaper, says: "A newspaper whose columns overflow with advertisements of business men has more influence in attracting attention to and building up its city or town than any other agency this side of heaven. Capital and labor will locate where there is an enterprising newspaper. No power on earth is so strong to build up a town as a newspaper well patronized and its power should be appreciated."

The city council convened yesterday (Tuesday) morning at 10 o'clock, in adjourned session, with a large number of interested citizens in listen to the case of remonstrance of I. Gluck against the allowance of a license to sell intoxicating liquor by L. J. Lee. When the council was called, Duffy, Gluck's attorney, read the remonstrance, and Leo's attorney, Albert, asked and obtained leave to withdraw the application for license, and the money was also refunded. Council adjourned to April 16.

Schuyler was one of the first, if not the first, towns in the state to operate an electric light plant and system of water-works of her own, says the Herald. By running her own plant she has saved many dollars to her citizens and at the same time given them a better service than they would have had otherwise. Cities many times the size of Schuyler could profit by following her example. Corporations should not be allowed to control the water supply of any city nor furnish the light for the same.

The chief business of an editor is to keep his list of his paper—and James Farley, and the remark is applicable to the Argus more times than we like to see it. Mr. Galley has reason to complain. It is bad enough to lie in the ordinary way, but to say that a business man had declared, or that it "had been rumored" that he declared that if Mr. Bryan was elected president that he, Mr. Galley, would not accept silver in exchange for goods," is putting it on a little too thick. Mr. Galley's goods were bought to sell, and whatever the money of the country is, undoubtedly Mr. Galley will get his share.

Many who read the following from the Albion Blade will remember the lady who had a class in this city, about three years ago: "Miss L. A. Mint of Sturgis, S. D., director of the National Art and Science League, is giving the high school class of Albion a course of instructions in art work. The valuable services of this eminent instructor were obtained through the efforts of Prof. Ostien, and it is anticipated that results will be very gratifying to the school and all interested. Miss Mint is also teaching a private class composed of the ladies of our city who have natural talents in this direction and time to improve them."

Friday afternoon Mrs. J. W. Coolidge gave her mother, Mrs. Bremer, a genuine surprise, it being the 60th anniversary of her birthday. The following were present: Grandsons North, Bradley, Green, Conley, Foster, Echols, Ehlers, Hanson, Latham, Benson, Rogers, Coolidge, Spauls, Bremer.

Madame Spear, of Norfolk, Schrodler, Gibbons, G. E. Spauls, Hochberger.

The visitors did ample justice to a nice lunch which had been prepared by the hostess. Mrs. Bremer received many presents.
