GEO. W. TALBITZER,

reasons therefor, that the wave of pros perity, or at least one of the small ones had arrived and was distributing its life-giving vigor so far as it could reach there were certain of the objectors who took us to task over the matter, accusing us wrongfully of stretching the truth for political effect. We believe in using the truth, and not in abusing it. In all events, in all emergencies, in all situa tions, it is the truth that makes free; it is the truth that counts. We need not patronize the truth. It will be here doing business long after you are laid away. We knew that a little wave of prosperity had come to us and we were duly thankful for it. We said so. And we hoped it would come to everybody We could see signs of it here and there. We said so, and we were right. W don't need anybody to convince us that we were right in our declaration, bu there are those who will not believe any

but their own kind of people, and for their benefit we quote the following from the World-Herald of Omaha: "Things that were as if dead have sprung into life. Business that was de lining has begun to experience a re vival. Houses that were empty have been filled. Buildings that were dilap idated have been put in repair. Street that were quiet have become filled with life. Trade that was dull has been aroused to activity. Citizens who were depressed have become hopeful. The
