City Council. All the councilmen were present at Council hall Friday evening last, the stated meetings being on the first Friday of each month. Mayor Spiece presided with his usual promptness and dispatch. Those answering to roll call were Ernst, Gray, Held, Lehman, Newman—Echols putting in an appearance immediately after the adjournment.

A petition for a sidewalk signed by Rothelmer, Burns and others was referred to committee on streets and grades. The election of officers for fire department was confirmed.

The usual references were made to committee of the reports of police judge and chief of police, and the usual adoption of reports of the committee on former business.

The committee on claims recommended the payment of the claim of N. H. Parks for \$15 except \$2.75 ordered by Carl Schubert, late water commissioner, for printing his individual letter heads.

Chairman Newman read the report of the committee on finance to whom had been referred the petition of citizens asking that arc lights be placed in the residence parts of the city the same as in the business portions. The report was to the effect that the committee had given to the subject the consideration that its importance demanded, but that, owing to the present condition of the city finances, they did not deem it now advisable to grant the prayer of the petitioners.

Lehman joyously remarked that a vote of thanks should be tendered Chairman Newman for letting the petitioners down so easy.

The treasurer's report for January shows the following summary of the different funds: General.....\$ 301 68 Waterworks, maintaining..... 722 02 " int. on bonds..... 1586 40 Street sidewalk..... 65 13 Street, alley and hydrants..... 125 97 Platte river bridge..... 200 25 Occupation tax..... 60 07 Firemen's..... 120 00 Water meter..... 26 07

Total.....\$3,207 57 Less overdraft Loup river bridge fund..... 268 29 Balance in city funds.....\$2,939 35 " license fund(school) 47 00

The reports of the sales of intoxicating liquors of Druggists Heintz, Stillman and Wilson were referred to the committee on police.

The report of Police Judge Fuller for December showed two fines of \$5 and costs each "for running houses of ill fame," and of three of \$2 each "for being inmates of same," and two fines of \$1 and costs each "for being drunk and disorderly." The judge's report for January showed: one fine of a woman for being drunk and disorderly, \$12; three for disturbing the peace; one for resisting an officer; two for running houses of ill fame, \$5 each; and five for being inmates of same, \$2 each. Councilman Lehman suggested whether it wouldn't be well to increase the fines on these cases. Clark Becker remarked that the amount for January was \$36.

The ordinance concerning the West End Sewer company was put through its course, and adopted, Messrs. Reeder and Garlow appearing for the proposed company. There was some discussion as to whether, in case the city should ever wish to purchase the sewer to be constructed, the consideration should be the "actual cost," or the "actual value." The ordinance concerning the telephone was passed by a vote of five to one, the one being Councilman Newman, who seemed to shoot at it all along the line wherever he found a hole in the wall.

It seems that there is some \$430 delinquent from users of city water and that not to exceed half of this amount can be collected, much of it being of long standing. The present management are insisting upon prompt payment, as due.

The city attorney has been directed to draft an ordinance, concerning granting of license to wholesale liquor dealers, making it a condition that the city shall be a distributing point.

If we wait for the city to build it, we'll never get the sewer.—Echols. This city does not want something for nothing, and if she did, so far as the sewer is concerned, the laws provide ample remedies in either direction.—Reeder.

The general session of the Woman's club met with Mrs. A. M. Post Saturday afternoon with a large attendance. The weather was a typical Nebraska day, warm and beautiful as spring, and nearly all the members were present. Mrs. Garlow and Mrs. Geer opened the program with a piano duet, which was played in their usual bright style. Mrs. Ballou then gave most interesting talk on "Influence of Christianity on Art," and gave a description of several celebrated paintings she had seen in Alaska, especially of "Madonna's," of which she had some photographs. Mrs. Goodale read a delightful description of a trip they had made through Europe. Her paper, or rather diary, had been written more especially for her own family, and contained many little personal memoranda that would probably have been omitted had she written it for the club, but which had all the more interest for the listeners. The musical department then gave a chorus, which closed the program, after which coffee, ice and cake were served. The afternoon was pleasantly and profitably spent by all.

The February number of The Art Interchange is rendered notable by two special features; one, that the entire exhibition of masterpieces shown at the London Club, is illustrated in its pages; the other, that it carries a reproduction of a sculptured Decorative Panel of great beauty and novelty. This sculpture is the work of Albert Lenz, a talented American artist, who has not hitherto been known to fame, but who shows himself a genius in his special field. The pages of The Art Interchange show examples of Corot, Daubigny, Troyon, Van Marcke, Decamps, Fromentin, etc., as well as a number of paintings by early English painters, such as Cromie, Reynolds, Lely, Beechey, Lawrence, Mytens and others, making a remarkable showing. For sale by all newslenders, 35 cts. The Art Interchange Co., New York.

—The Young Men's orchestra give a dance Saturday evening, this week, at the Maennerchor hall. They understand how to please a Columbus crowd of people, and well deserve the liberal patronage of the public. Due appreciation of talent makes it all the more responsive to the proper demands of the public upon it, and, in any other case, so in this, they will grow by what they are fed on. Well patronized as an organization, they can then get what music they need, and make still greater improvement in their art.

—This is what Bert Harke would call "puttin' on airs." Last week the Nebraska Telephone Co. placed in the office of the Thurston hotel in this city one of the late improved long-distance telephones, and now when the occasion requires any of the subscribers of the local exchange here may transmit the human voice direct without any repeating to New York, Washington or any of the important cities on the Atlantic seaboard. The instrument has been tested through to Buffalo and the voice was as clear and distinct as though they were talking with the court house here. While this is nothing new for large cities, it is quite a novelty for a town like Columbus.

—The Y. P. S. C. E. of the Congregational church celebrated the Twelfth anniversary of their organization in this city Sunday. Devotional services were held at 7 a. m., 3:30 p. m., 6:30 and 7:30 p. m. Members of the other young people's societies of the different churches were invited to the services and responded by attending in large numbers. At the evening service Miss Bessie Sheldon presided over the meeting. Letters of congratulation were read from former pastors who had been here during the past twelve years. Miss Jennie Weaver read a letter from Rev. O. V. Rice, now of Los Angeles, California; Miss Zoe Schrock a letter from Rev. Crawford Whit-crover a letter from Rev. Cole, now in Kansas. An address of welcome was given to the other young folks, societies of the city by Miss Alice Lath, and responded to by Mr. Clyde Franz of the Baptist, Miss Jessie Williams from the Presbyterian, and Prof. Britell of the Methodist societies. Mrs. Warren sang "Bath and Naomi," which was greatly appreciated by all. Mr. Clarence Sheldon gave a sketch of what the society had done in the past. Emily Borer told what it was doing now, and Mr. Chenoweth, who was introduced as the prophet of the society, told what they might do in the future. The program was interesting throughout, and a crowded house greeted the young people.
