To Chicago and the East. Passengers going east for business, will naturally gravitate to Chicago as the great commercial center. Passengers re-visiting friends or relatives in the eastern states always desire to "take in" Chicago en route. All classes of passengers will find that the "Short Line" of the Chicago, Milwaukee & St. Paul Railway, via Omaha and Council Bluffs, affords excellent facilities to reach their

destinations in a manner that will be sure to give the utmost satisfaction. A reference to the time tables will in licate the route to be chosen, and, by asking any principal agent west of the Missouri river for a ticket over the Chicago, Council Bluffs & Omaha Short Line of the Chicago, Milwaukee & St. Paul Railway, you will be cheerfully furnished with the proper passport via Omaha and Chicago. Please note that all of the "Short Line" trains arrive in Chicago in ample time to connect with

the express trains of all the great through car lines to the principal eastern cities. For additional particulars, time tables maps, etc., please call on or address I A. Nash, General Agent, Omaha, Neb.

What does it cost to get there? When and how should one go? What should one take? Where are the mines? How much have they produced? Is work

plentiful? What wages are paid? Is iving expensive? What are one's chances of "making a strike?" the above questions will be found in the Burlington Route's "Klondike Folder," pages of practical information and an p-to-date map of Alaska and the Klonlike.
