The postoffice department has been in the express business in a small way or many years. This is a good time to enlarge the postoffice express facilities, with a view to ultimately doing all of it.

The work of tearing out the tunnel has been pushed night and day by a force of 200 men. Much blasting has been done and, although it is said every pre caution had been taken to preven casualities, from the reports received it seems that by using too large a quantity of explosive an unexpected amount of earth and rock was loosened, which caved in on the workmen. The first report was that 15 men had met death, but it was later learned that but seven of those engulfed by the fall of a mass of rock received that injuries.

Although McLean was prominently before the last Democratic convention for the presidential nomination and would have been elected senator in place of Hanna, if the Democrats had carried the legislature last November, and although his paper, the Cincinnati Enquirer, was considered a leading advocate of Bryan and free silver, the story about McLean probably becoming the successor of Alger was believed by many of the delegates.
