PERSONAL MENTION.

Bay Martyn of Humphrey spent Sunday in the city.

Mr. and Mrs. M. Whitmoyer went to Omaha Monday.

Miss Lizzie Sheehan was down from Humphrey over Sunday.

Mrs. C. J. Garlow returned last week from her visit to Kansas.

Mr. and Mrs. E. G. Brown and family of Humphrey spent Sunday with friends and relatives in the city.

Mrs. A. M. Post and Mrs. C. Kramer attended the Federation of Women's clubs in Omaha last week.

Mrs. T. Craig and son Johnson, of Craig, Neb., arrived in the city Thursday on a visit to the Turner family.

Mrs. J. D. Stires returned Tuesday from an extended trip east, attending the National meeting of the Eastern Star in Washington.

Mrs. A. L. Besty, of near Monroe, accompanied by her little son Guy, are spending a week with her parents, Mr. and Mrs. S. P. Curtis.

Mr. and Mrs. Josiah McFarland returned Thursday from their trip to Minnesota, well pleased with their visit, and both of them with added weight.

The train on the Albia branch was late Monday night, arriving here at 12:30 a. m. Tuesday morning. Frank Galbraith was one of the passengers, who stepped off the car, slipping on the ground, after he stepped down, and catching his right arm under a wheel, crushing it all to pieces. By 4 o'clock, Dr. Martyn, Geer and Arnold had completed the work of amputating the arm just below the elbow, and as we write, Tuesday, he is resting easy in his room, No. 12, at the Meridian hotel. Mr. Galbraith is well known to many JOURNAL readers as a resident of Albia, and a federal office-holder, having been a revenue officer, a marshal and also a land receiver at different times. His acquaintance will sympathize with him in his trouble.

John Sturgeon, every time he comes back from a trip into the far west, is more thoroughly imbued with the notion that Nebraska is as near an earthly paradise as humanity is likely to see. This last trip he has been as far west as Stockton, California, and he tells some marvelous things about the wonderfully dry weather they have been subjected to there the past season. One man walked two miles and a half every day so as to be able to sleep in a tunnel at night where it would be comfortably cool, the thermometer registering 128 degrees above zero during the day. Grapes and figs dried up. In the Merced valley, the dry weather has been truly distressing—the streams nearly gone dry, and stock suffering for water, and nothing but oak leaves on which to live. At one place where he was buying cattle, out of a bunch of fifteen hundred, he couldn't find a single car load of twenty-two that were strong enough to bear shipment. Mr. Sturgeon says whether in Montana or Nevada or California, he didn't feel anything like at home. In Colorado it is somewhat different, but give him Nebraska every time for enterprise, life, business, stir and progress. In California, it seemed that everybody was simply waiting for death, and he says he'd "rather be dead in Nebraska, than a live corpse in California."

Andreas Robbery. Last Sunday evening, between 7:30 and 8:30, while the household were at church one door south, some thief or thieves entered the Methodist parsonage, and took therefrom a silver set, sugar bowl, cream pitcher, spoon-holder, and top of better dish, decorated with a lady's monogram; gold spectacles, straight bow and black case inside with pearl, gold and silver buttons, pair of gold brooches and two pocket-books containing about \$50.00.

The goods were the property of Rev. and Mrs. Mickel, and of Mrs. M's mother, Mrs. King.

A reward of \$25 is offered for the conviction of the thief and return of the goods.

Entrance was made through the front door by a key of some sort, it being but an ordinary lock. The window blinds which had been left up, were pulled down. Matches had been used from the match box in the kitchen, and were left scattered around on the carpet. Apparently, the up-stairs part of the house was undisturbed.

Soldiers' Monument. Baker Post No. 9, G. A. R. will erect a soldier's monument in Columbus, which is to be not less than twenty feet high, and to be surrounded by a cast iron cannon (Columbian) eleven feet long, weighing four and a half tons.

The base of the monument will be 10 feet square, and 10 feet high, smooth-faced, and on which the names of the soldiers will be chiseled.

We will give a premium of \$5 to any pupil of any school within this county, sending us the best design for a monument as described herein and which will be adopted, or nearest in design to the one which we may adopt and that is furnished outside of our county schools.

This offer is made to encourage drawing and drafting in our schools. Design to be accompanied with dimensions and description of the same.

The monument will be of stone.

Design must be received by me on or before Dec. 17th.

By order of Baker Post.

J. R. MEAGHERS, Adjutant.

Omaha World-Herald.

That great five silver family newspaper, the Omaha Weekly World-Herald, is used in semi-weekly sections, will be sent to new subscribers until January 1, 1900, for only One Dollar, the yearly subscription price, and each new subscriber who cuts out this offer and sends it with his dollar will also receive a highly interesting premium book, entitled "Lights and Shadows of Our War with Spain," a series of historical sketches, incidents, anecdotes and personal experiences, by John R. Musick. This book of 224 pages, in paper cover, is one of the most attractive and popular books that can be offered as a premium. No agent's commission allowed. Send for it. Address Weekly World-Herald, Omaha, Neb.

At Manila.

DEAR FOLKS:—I received your letter yesterday and was glad to hear from you. Everything is all right, and all the boys are feeling fine.

We expect to be paid today or tomorrow.

We don't expect to get back to the United States till December, and may be not then.

Gen. Merritt started for Paris yesterday, where he will straighten things up. He will be back in two or three months, if things come up all right.

I suppose the Nebraska regiment will start for the United States right away.

Some of the officers think we will be home in time to vote, but I don't.

Admiral Dewey captured a ship load of clothing, hats, shoes about two weeks ago; and they are going to give us all a suit, hat and a pair of shoes.

Things are cheap here. You can buy a Chinese silk muffler for 50 cents of their money, which is equal to 25 cents of ours. Everything is cheap.

I have a few relics that I would like to get home; two Spanish knives, some shells, and several other things. Most of the boys have something that they want to take home, but I don't think we can take them.

All the boys are getting white clothes; what we have are too hot. We can get a suit of white here for \$1.50.

We go on guard about every other day. We are getting pretty fair food. We have been having a good deal of fresh beef and mutton for the last two weeks.

It rained hard last night and night before, and it is nice and cool today.

Well, it's about time for the mail to go out, so I will have to close, with love to all.

GEORGE BRADFORD.

August 25.

DEAR FOLKS AT HOME:

There are rumors that the Nebraska regiment are liable to go home for the Exposition, but we have no faith in it.

The rainy season is nearly over, and we are glad of it, but they tell us it will be pretty hot here during the months from now to May. We think we can stand the dry weather better than the wet.

The boys are all well, but they are nearly all homesick.

I am sitting where I can look out of the second story window of a custom house across the Pasig river right into the walled city, and on over the bay, can see Dewey's fleet, the English fleet, all the transports, Cavite, eighteen miles—a grand sight, indescribable on paper.

The Fourth expedition is in the bay, but Captain Kilian or the recruits have not yet been heard of.

I am planning to take a trip out into the mountains as soon as the insurgents lay down their arms. I am more afraid of the gorillas than I am of the insurgents—there are great bands of them.

September 3.

I was glad to see your welcome letters of July 23 and 24, with flowers from our own garden, but sorry to know that Mama had been sick.

I suppose before this reaches you, we shall know whether you stay here or return home. The boys are standing the stay well. The nights are cool enough to sleep under a blanket. Business is making here now, but we, I mean the boys, do not have much liberty, going on guard every other day, and cannot go outside of regimental lines. I have lost about twenty pounds since I left "Frisco, but I feel fine.

Well, we are all hoping to get home for the last month of the Exposition, so good-by.

Your loving son and brother,

CHAR. J. MINER.

Over the Boardwalk.

Miss Bell Ellis intends visiting the Exposition this week.

Mrs. Stewart was visiting friends in the neighborhood this week.

Harry Wheeler and George Louis spent Saturday and Sunday in Omaha.

A. A. Bouton and daughter Ina of Bellwood were present callers last Tuesday.

Mr. J. F. Belford, together with Lily and Josie, visited the Exposition last week.

George Engle and Charlie Louis were in Omaha to see President McKinley and the great show last week.

The ditching outfit of the irrigation company have been at work again near here, and have been boarding with Mrs. Young.

Mr. Mort Black of Pittsburg, Penn., is here on a visit with his cousin, Mrs. M. E. Lockhart. This is the first time he has been through here since 1895.

One that viewed Mr. Wilcox last Tuesday as he lay under the willow tree said he looked like a man who was completely exhausted—tired out and had simply hanged to rest.

The program was not carried out at the Farmers' club, which met at Mr. Clark's lately, but postponed until the next regular meeting. The members present enjoyed a regular old-time visit.

The fellows who know not the smell of new-mown hay; who never saw a sheaf of wheat, and who don't know a hill of corn from a bull thistle are telling the farmers how rich they are this fall.

James Jackson, the foreman at the yards, has resigned his position, to take effect November 1. Whom the company will put in charge is not yet known. Mr. Jackson intends going to Washington to engage in farming.

Some of the farmers we understand met at the suburban school house last Friday night for the purpose of forming a stock company to erect and operate a creamery to be located somewhere on the bluffs north of the city. We did not learn what was done.

Weather Report.
