We understand Hans Elliott is contemplating building a fine residence on his newly purchased lots north of G. G. Becker's. Wm. Schilz makes boots and shoes in the best styles, and uses only the very best stock that can be procured in the market. Underwear. Underwear. Do not forget that at E. D. The Columbus township board of election are: Judges, J. J. Galley, Fred Schofield, H. L. Johnson; Clerks, A. W. Clark, H. B. Reed. There was a surprise party on Miss Alma Segelke Saturday night, at which a number of her young friends were present, and passed an enjoyable evening. Miss Ida Martin, who left here to teach in Trinidad, Colo., last year, has been very sick for two months past, but expects to begin teaching again this week. The Columbus Brewery has been making improvements in their plant, in fact they are always adding something in the way of facilities for doing business. Friday morning, smoke ascended nearly perpendicularly about 150 feet, then spread out, indicating the dividing line between the lower and the upper layers. All other business was laid aside in Omaha Monday for people to attend the fair, which is now a thing of the past. The work of tearing down began yesterday. There was some \$800 difference in the bids on Mr. Sibbernson's new business house on Thirteenth street. E. O. Hamilton's bid being the lowest, he got the job. Dr. Baker, physician and surgeon, Residence, Seventeenth and Quincy. Office, Olive st., first door north of Broadway. Telephone: Office 30; residence 46. Dress Goods, double fold, from 10c up. Corn on stalks in the field is down, the moisture prevents husking and rots the ears in spots. Charles Wilson, late of the regular army, and who has seen service at Santiago, returned here Thursday. He went to Omaha to look at the Exposition through the last days. The way to defeat Mr. Foster for assessor is to vote for Mr. Shannon. There is absolutely no reason why Foster should be elected—the good reasons are all against him. George Engel had such good success last year with winter wheat (twenty-five bushels to the acre on twenty acres), that he has this fall put in forty acres, which he says is looking fine.

The judges and clerks of the city for the coming election are: First ward, H. G. Cross, J. S. Freeman, F. A. Hagel; Second, R. E. Wiley, O. L. Baker, I. Gluck; Third, S. F. Mills, C. H. Raymond, C. F. Gleason. Clerks, First, C. E. Early, John Graf; Second, Jacob Behram, E. H. Jenkins; Third, Dennis O'Brien, J. M. Curtis. The only way you can vote against Senator Allen's re-election is to cast your ballot for TANNER, OLSON, and MURPHY. Remember these names. They are all republicans who will, when they get to Lincoln, vote for some able man to represent Nebraska in the United States senate, and sustain our good president in the work he has done. One who has lately been out through the country says that between Columbus and Creston is one of the very best sections in Nebraska or in the west anywhere for that matter. Good farms, dwelling houses, good barns, good shelter for stock, orchards, fences, pastures, land under cultivation, forest and shade trees, and every evidence of industry, thrift and prosperity. A surplus in the pockets of the people is just the same kind of "goodness" for those people individually, as a surplus in the national treasury is for the nation. In either case, the surplus is much more convenient, agreeable, satisfactory and useful than a deficit. Vote for the republican ticket. Send Norris to congress, who will help see that the surplus situation is continued. E. S. Wyatt has been promoted by the Singer Sewing Machine company and will remove to Grand Island, which will be his headquarters. He will hereafter have charge of all territory in Nebraska, north of the Platte river except Douglas and Sarpy counties. Mr. Wyatt is to be congratulated, as the promotion means a nice increase in salary. Mr. and Mrs. Wyatt have made many friends during their stay here, who will regret their departure. —Nortfolk Journal. The Presbyterian and Congregational congregations united in services Sunday evening at the Presbyterian church. The 300 prayer meeting was led by Mrs. E. R. Rieky. Miss Minnie Becker and Benjie Sheldon gave splendid reports of the annual state convention held in Hastings. Special music was given by the Congregational and Presbyterian choirs and a beautiful solo by Miss Ethel Galley. Miss Blanch Patrick assisted by Miss Rosa Wiggins, Benjie Sheldon, Minnie Becker, Anna Becker and Alice Luth entertained friends to a Halloween party Monday evening. A gypsy and her assistants told fortunes and the whole evening was suggestive of ghosts. The gentlemen present were Messrs. Hayes, Campbell, Weaver, Chenoweth and Sheldon. At a meeting of butter-makers, creamery men and others interested in butter manufacture, Wednesday last at Omaha, an association was formed, George Haskell of Lincoln being elected president, E. Lytle of Omaha secretary, and Paul Hagel of this city treasurer. Arrangements will be made at once to make a creditable association exhibit at the annual convention of national butter-makers to be held at Sioux Falls in January. A. M. Jennings received a letter Monday from Wm. J. Thurston of Fitzgerald, Georgia, under date of Oct. 27, in which he tells of setting out strawberry plants that day. That morning they had the first frost of the season, blackening tender tomato vines and the like. \* \* \* The city is to get artesian water for their water works, or the contractor is not to have anything for the wells. The electric light and waterworks plant belongs to the city. Thurston is well. Roy Jennings had been home on a furlough and was all right. Don't make a mistake. Vote for Shannon for assessor, Wiggins for supervisor, Drake for county attorney, Tannahill and Olson for representatives, Murphy for senator, McAllister for district judge, and the entire republican state ticket as found under the eagle on page two of THE JOURNAL. Don't make a mistake, and don't be deceived by mere talk. Do your own thinking, and vote what you believe, what you know to be right. Quite a number of pranks were played Monday night by the Halloweeners. It would, of course, take a small army of police to keep down the greater army of mischief-makers, but the city, all the same, will have to pay some-thing disturbed. As usual, we suppose the property of citizens that has been disturbed will be cared for by the disturbed citizens at their own expense. The three Guilds of the Grace Episcopal church, will give a supper and sale at Murdoch's old store, Saturday afternoon and evening, Nov. 5, for the benefit of the church. The tables will fairly groan under their load of good things for the inner man. Many fancy articles will be displayed. One entire table containing the children's work. Especial attention has been given to our approaching Christmas time wants. Mexican darning work will form an important feature at very low prices. Charley Riley is home on a thirty days furlough. Charley is one of the regulars and says he is not sorry he enlisted. He sees visions of visiting Manila and thinks before he is done with it he will be pretty far traveled. When you see him on the street in his uniform you mustn't take him for a street car conductor because he don't like it, and then besides you will show how green you are. Charley isn't very fat either but then he says he is fatter than he was. Anyhow the boys all congratulate him on getting home alive after his severe sickness.—Albion Argus. Mr. Smythe must have struck pretty hard lines the evening he was in this city. The audience was by no means numerous—from one-sixth to one-fourth as many as turned out to hear Senator Thurston in the opera house, in the next block from where Smythe spoke.—Maennerchor hall. Mr. Smythe confessed to a republican at Humphrey that he had never had so little encouragement in conducting a meeting since he had been in politics, as he had in Columbus. At Humphrey the hall was about half full, and a good proportion of them were republicans, who attended out of curiosity to see what Smythe had to offer in excess for his dilatoriousness as attorney.

No man should fail to vote, and cast your ballot the same as you would if the entire result depended upon your one vote. The state of the country depends upon the state of the people, and their will should be clearly and strongly expressed at the ballot, so that those who are elected will know just exactly what is expected of them, and then they can be held to that expectation. The Schuyler Sun editor makes this brief comparison between the two candidates for congress. Of Robison he says: "He sat down with the look of a man who had been trying hard to create something out of nothing, and didn't know whether he had been successful or not. He is no such a speaker as Judge Norris, and he has not the breadth of thought nor the knowledge of public affairs." The assessor for Columbus is about as important a local officer as we are called upon to elect this fall. He should be a man of good judgment, well acquainted with the value of your property, which forms the basis of the tax; he should be at all times qualified for business; he should be level-headed, and capable of working on lines radiating from good general principles. Vote for SHANNON, and be sure that you do, so that there will be no possibility or probability of electing Foster. The east-bound train wrecked on the U. P. west of Fremont Sunday night was in three sections. The special and orders to meet the first section at Valley and the second at Fremont. The west-bound train met the second section of No. 20 at Fremont, but evidently didn't notice that it carried signals for another section, and the engineer on the second section of No. 20, it is stated, did not give the whistle signal calling attention of the west-bound train that another section was following. We are told that Supervisor Lisco is especially anxious for the defeat of Supervisor Wiggins. If so there must be some special reason, personal to Mr. Lisco. The public are not especially concerned in falling in with the schemes of officials who are especially at work for their own individual personal ends. What Columbus and Platte county need always on the county board is men that you cannot "pass the hand through"; men who will do what they think is right, and who will do their best to ascertain what is the right; men who have special deals on hand; men who neither dominate over others, nor are dominated by others, and such is John Wiggins. The leading features of the American Monthly Review of reviews for November are: The editorial comment on the State and Congressional campaigns (illustrated); an illustrated account of the work of the "Y. M. C. A." in connection with the army and navy during the war with Spain, by Albert Shaw, an article on "The Newspaper Correspondents in the War," with numerous portraits; Mr. Creelman's own story of his Santiago adventures; "Ouida's" "Impeachment of Modern Italy," with Signor Vecchia's reply; "The Nicaragua Canal in the Light of Present Politics," by Prof. L. M. Keasbey; and the Nicaragua Canal and Our Commercial Interests," by Dr. Emory R. Johnson. The democrats and populists are distributing a campaign dodger headed "To the Nebraska Voter," purporting to come from "Committee," and to be "a statement of importance from the republican association," whatever that may be. But there is about the whole two-page circular an air of scandal and slander, without the name of the author anywhere, or even a hint of where or by whom it is written. Whether or not there is the least foundation in truth of the charges made (which, by the way, are all against George A. Murphy, republican candidate for lieutenant governor), the manner of the thing is that of the athlete, a stab by a fend, in the dark. Look out for frauds and cheap devices of all kinds. A copy of this campaign dodger can be seen at this office. Gus G. Becher, as guardian of Willie Sauer, has sent him to Chicago, where he can live with his brothers Gus and Max, and attend school. He had been attending commercial school at Omaha, and has shown considerable aptitude for telegraphy, to which he will devote himself. Mr. Becher accompanied him to Omaha Saturday. Willie will be remembered by JOURNAL readers as the boy who lost the four fingers of his left hand about ten years ago at a railroad crossing in this city. He is now sixteen years of age, and will doubtless be able to make good use of his \$2,000 obtained from the railroad company, when he becomes of age. His brothers are in good positions at Chicago, and Willie will have a better opportunity for progress than the great multitude of lads generally. JOURNAL readers who are Platte county voters are mostly acquainted with John Tannahill, either personally or by general repute. In his quiet, unobtrusive way he has done more in the way of developing this section of Nebraska than any other man in this county. He has been a public man of great ability and high character. When the government needed men in the War of the Rebellion, and also in the Spanish-American conflict, Mr. Tannahill's services were proffered. Whenever his services were accepted he was found true to his trust, and a good, loyal soldier of his state and nation. He is a long-time resident of the state, and knows thoroughly the interests of his constituency. He will support the administration of President McKinley by voting for a man for U. S. senator, who will justly represent the people of this state at the national capital. Among those who visited the Fair last week were: Mrs. J. A. Pearnall, Mrs. C. H. Sheldon, Miss Benjie Sheldon, Mrs. Wm. Dawson, Mr. and Mrs. John Dawson, Mr. and Mrs. W. K. Lay and family, M. K. Turner, Miss Martha Turner, Mr. and Mrs. Thos. Boyd, David Boyd, H. L. Murdoch, Mrs. Harry Newman, Miss Della Newman, Mrs. J. S. Sieder, J. A. Turner, G. W. Turner, Sam Gass, Miss Mary Hoehn, Gus Hoehn, Henry Gass, Emil Hoehn, Con. Thurston's Speech. Senator Thurston was greeted Thursday evening at the opera house by a splendid audience, whom he entertained with one of his characteristic speeches, to which no report can do justice. He completely vindicated the course of the republican party in the conduct of the war against Spain, and denounced those who have been finding fault simply and only for the sake of finding fault. He gave a few of the undoubted and unchallenged evidences of the better times that had been promised by the republicans in the event of McKinley's election. He denounced Senator Allen for his general course in the senate on war measures, after the first providing of money to begin war operations. He severely denounced the opposition for defeating a measure introduced by the republicans, providing a method for allowing the soldiers away from home to vote. Also for defeating another measure authorizing the enlistment of negro soldiers to send into the regions of the enemy which, by reason of the hot and wet climate were well known to be exceedingly dangerous to men of the north, not cured to the climate, but comparatively safe to the negro, whose delicacy is the warmth of the tropic sun. He said that he hadn't heard the silver issues discussed this year, except in a graveyard, which he thought was a very appropriate place for such discussion. It is really a dead issue. He regarded the dollar march as he did the flag. He wanted it at least as good as the best anywhere, and to be honored and respected at its full value anywhere on earth, just as it is today. The only thing that may properly be called a political issue now is the disposition of the fruits of the war, and they were being garnered all right, if the administration shall be sustained by the people at the coming election in the choice of congressmen who will not throw obstructions in the way, and senators who will do duty as patriots in furthering the good work done by our army and navy until peace shall be assured beyond a doubt. Railroad Men Killed. The worst wreck on the U. P. in years. The three men killed Wednesday morning last week at 5:25 in the wreck at Silver Creek were: Samuel Hindman, engineer, married and aged 52 years. William Bonan, fireman, married and leaves a wife with several children. William B. Shannon, brakeman, married. All were residents of Omaha. John A. Griffing, also of Omaha, is seriously injured. The collision was between regular westbound freight train No. 27, and an extra westbound stock train, the former running into the rear of the latter, those killed riding on the engine of the second train when it plunged into the extra. The two trains were running about five minutes apart and were going at a rate of about forty miles an hour, before the station was reached. At Silver Creek, says the Bee, the extra stopped and the rear brakeman was sent back to signal the second train. The caboose and four freight cars were crumpled into small pieces. Engineer Hindman was thrown back into the tender, crushed by falling coal, and badly scalded. Fireman Bonan was pinned in be-

Miss Luella Tiffany will return with her sister. For the soldiers. James D. Gage, assistant adjutant general, Lincoln, Neb., has been appointed forwarding agent by friends of the soldier boys, to ship donations. Those for the 1st regiment must be prepared at once so as to reach Manila by Christmas, and must be shipped by Nov. 15. That for the 3d by Dec. 1. Friends of the boys at each home station are to organize and communicate. Each soldier is to be sent a box not larger than 18x28 inches, made of pine. These to be put in a strong shipping case large enough to hold 50 individual boxes. Clothing or trinkets of any kind may be sent in safety. Of edibles, fruit cake, preserves, jams or any canned goods may be sent, but no fruit or cooked food of any kind other than that named above should be included. Mr. Gage suggests that each box might contain 2 undershirts, all wool; 2 pairs of drawers, all wool; 6 cotton stockings, 6 colored handkerchiefs, 6 medium sized Turkish towels, hair brush, comb, tooth brush, one dozen needles, one spool of black linen thread, one dozen pants buttons, one dozen pearl shirt buttons, one small pin cushion and pins, one dozen stamped envelopes, six of them directed to the mother or dear friend of the soldier, one quart of homemade pickles, one quart of cherries, one pound of fruit cake, one pint of graded horseradish. The committee at each company station is asked to see that each soldier in the company receives a box, whether he has friends in the community or not. If this is done no soldier will be neglected. This work must be done by the committee at the home station, and attend to it at once. If not, then the boys at that station will be left out in the cold. The members of the G. A. R. are expected to lead a helping hand. Who knows better than they the benefit derived from such work? We give, below, a letter bearing upon this subject, directed to Comrade Broek of this city, all of which, in summary at least, will be well for local papers to make mention of. Everything that bears upon the welfare of the boys away from home, in their country's service is especially worthy of close and prompt attention, so as to reach them: WASHINGTON, Oct. 26, 1908. J. R. BROEK, Columbus, Neb., P. O. Box 61. Sir: In reply to your letter of the 24th instant, I am directed by the Quartermaster General to inform you that boxes weighing not to exceed twenty-five pounds for each soldier, will be forwarded to Manila from San Francisco, FREE. The boxes should be carefully addressed, care of Depot Quartermaster, San Francisco, California, and sent charges prepaid to that point. The last steamer is expected to sail from San Francisco for Manila about Nov. 15, 1908. Respectfully, Col. & Quartermaster U. S. Vol. LET US REMEMBER OUR BOYS.
