Ernest Frank was taken to Norfolk Monday night. He is a young man about 29 years old, who has been subject to fits, and became violent Sunday night. He is not regarded as insane, but he certainly needs more attention than can be given here.

Not much wonder it has been cold here when the wind was in the north-west. The seven days' blizzard in the northern hills ended Wednesday last by the coldest spell known for several winters. The Deadwood thermometer registered 31 below zero.

L. F. Whitehead, known by a few JOURNAL readers as the first Methodist minister located here, was in the city Saturday afternoon and gave JOURNAL headquarters a call. He has not been preaching for many years, breaking down while holding revival services on the Blue. When here he preached regularly ten times every two weeks. He is now engaged in life insurance.

Last Wednesday night a stranger who had got too full for navigation, and didn't know where he belonged, ran up against a sober citizen on the street and, after much ado, managed to make the situation somewhat intelligible. He was advised to go to the fire bell and tap it once, which he did, bringing a policeman to wait on him. He was helped to his hotel.

Mrs. Nitz committed suicide at her home in Wilson precinct about nine o'clock last Friday evening by taking strychnine. She was 44 years old, leaves a husband and seven children and gave no reason for her ruthless shuffling off of the mortal coil more than to say in a note left behind that people need not think she did not know that they were talking about her.—Schuyler Quill.

Martin, one of the captured men engaged in the shooting of Policeman Brock some weeks ago, was sentenced Wednesday to a twenty months' term in the penitentiary, and was taken down Thursday by Sheriff Byrnes. He was very glad to get the comparatively light sentence that he did, and much gayer after the sentence was pronounced than before, evidently expecting to be sent up for a long term.

Hagel & Stevenson drew checks upon the First National Bank of this city during the year 1898, to the amount of \$170,330.84 in their business of manufacturers of separator creamery butter and wholesale buyers and shippers of butter and eggs. As THE JOURNAL has many a time remarked, the country at large does not really know how much is due to the hen and the cow for the measure of prosperity which this nation enjoys. Make the best of them. Make the very best of them!

On Wednesday Dr. Hansen, assisted by Dr. Walker of Lindsay, granted seventy more pieces of skin on John Sheridan's arm. Jas. Haney, Chas. Flynn and Wm. Adams, soldiers of Company K and Manila fame, took in our busy burg Monday. We have not learned whether they had to undergo the Hobsonian ordeal or not. Be that as it may, they spent a very pleasant time here, did justice to an oyster supper at C. J. Carriag's Tuesday evening, and returned to Columbus Wednesday.—Platte Center Signal.

The 1,200 acres of fall wheat on the Allerton ranch is looking well as is also the more than 1,000 acres of rye. J. John Seiver, when on his way from F. J. Morton's last Monday, let his loaded gun fall from his arm, to the ground and the fall caused the weapon to go off and to discharge its contents in such a manner as to strike one of Mr. Seiver's feet.

The result was that the great toe was ruined, two others were shot off, and all the upper part of the foot fearfully torn. It is hoped, however, that what is left of the foot can be saved and still be of use to him.—Cedar Rapids Outlook.

It is the duty of THE JOURNAL to make note of anything political that is taking place around the horizon in these parts. As for instance, the following from the last Creston Statesman, one of the tripartite reform papers:

"Walter Phillips has opened his campaign already for this year. Walter's little game is the same as it was two years ago. He will make a tie up with some six or seven candidates for treasurer, promising to support each of them for treasurer. At present he has four on his string, Hon. O. S. Moran from this township being one of them."

Is it not a little strange that the Statesman should thus accuse one of its own party with double-dealing of this sort?

Congressman Maxwell of this district has sent us copies of three bills introduced by him, one to construct and maintain postal telegraph and telephone lines, and to authorize the purchase of telegraph and telephone lines now in existence, and to fix reasonable rates for the use of the same; another, to create post-office districts and to permit the legal voters of each district to express their choice for postmaster therein; the third making an appropriation for the purchase of a site for a post-office in the western part of Nebraska.

In the latter, Columbus is included with sixteen other county seats in the district, in an appropriation of \$50,000 for the purchase of a site for post-office and offices connected therewith.

A most interesting feature of THE COLUMBUS JOURNAL is the printing of excellent, life-like sketches of pioneers of Platte county and public buildings and private residences, giving with each illustration a carefully written history, thus making this feature of more than ordinary value to THE JOURNAL's large number of readers. This new feature is the work of Miss Martha Turner, daughter of W. M. Turner, who has been identified for several years with THE JOURNAL as local writer, accountant and to some extent business manager. The highest praise one can give Miss Turner is that the intimate friends of those having their pictures printed recognize instantly their well-known features. THE JOURNAL deserves the most liberal patronage of its enterprise.—Kearney New Era-Standard.

Frequently accidents occur in the house, which cause burns, cuts, sprains and bruises. For us in such cases BALLARD'S SNOW LINIMENT has for many years been the constant favorite remedy. Price 25 cts. and 50 cts. Dr. A. Heintz and Pollock & Co.

For the month of January in Platte county, there were thirty farm mortgages filed, amounting to \$35,024.65; seventy-three released, worth \$89,522.15; town and city mortgages filed, nine, aggregating \$4,925; the same number released, worth \$10,698. The chattel record shows sixty-one mortgages filed, worth \$30,549.08, and fifty-six released, worth \$22,992.25. There was only one deed in foreclosure filed during the month. The releases of real estate exceed the filings by \$39,000, the best showing for a long time, and it is to be hoped that this state of affairs may continue until there will be no longer be any filings at all, or any more mortgages to release. If there is one thing more than another that is written all over everything in this world, it is "KEEP OUT OF DEBT."

The persistent advertiser always succeeds. His efforts may sometimes be misdirected, but his persistence will eventually lead him into right channels and help him overcome all obstacles. There is no day in the year when advertising may not be profitably done. It is not like any other sewing. The more out of season an advertisement is, the more noticeable it is, and the deeper it burns itself into one's memory. An advertisement to sell heavy overcoats and woollen blankets in July might be quite unseasonable, but you would never forget the fellow who did it. No more would you the man who would candidly advertise ice when the thermometer was 20 degrees below zero. When business is quiet and people have much leisure they scan advertisements much more closely than when they are rushing. At such times mediums are crowded with advertisements, and the persistent man has the double advantage of having his advertisement more prominent and more closely studied.—Printers' Auxiliary.

Children who are troubled with Worms are pale in the face, fretful by spells, restless in sleep, have blue rings around their eyes, bad dreams, variable appetite, and pick the nose. WHITE'S CREAM VERMIFUGE will kill and expel these parasites. Price 25 cents. Dr. A. Heintz and Pollock & Co.

Last week two fellows were around town, claiming to be makers of wire baskets and paper files. The sheriff thought they were not what they seemed so arrested them. They had in their possession a new suit of clothes. In order to hold them over Sunday, they were charged with vagrancy. Monday, C. W. Balson, of Cedar Rapids, was in the city and identified the clothes as stolen from his store. He swore out a warrant for them and the trial was set for Tuesday, Feb. 2nd. Meanwhile Sheriff Patterson discovered a likeness between his prisoner and a picture of a fellow named Duffy, for whose arrest a reward of \$300 is offered. County Clerk Lehr brought his Kodak to bear on the fellow and his picture will be sent to Illinois for identification.—Albion Argus.

The monthly general meeting of the woman's club was held at the residence of Mrs. Dr. Martyn Saturday afternoon, with a good attendance present. The Art department gave the program and one of the interesting features was the presenting in answer to roll call something in the line of art with a short talk. Several brought some noted picture and gave a talk about the artist or picture, while Mrs. Rev. Weed had several souvenirs, her brother, Mr. De Long had brought from Manila and Japan, on his late trip with the soldiers. Mrs. Martyn had a large piece of Mexican pottery something that is always of much interest to womankind. A report of the stereopticon art entertainment given last Tuesday was read and to the surprise of all found to bring a neat profit of \$17.05 to the treasury. Besides buying some art reference books for the public library, the club voted to buy two pictures for the new high school building. The matter of the furnace at the high school building was discussed and the ladies decided to investigate and insist on the building being properly heated.
