American City Government. In the great towns of the United States there has been of late much to study and to observe. The path of municipal progress in America is not without its impediments and difficulties; but

progress, nevertheless, is real and striking, as of course it must be if the nation cities are so large and have become so important relatively to the States in which they are situated that to abandon them to bad government and evil social conditions would be to poison the whole life, public and private, of our common wealths and our republic. Henceforth,

government and social organization exwet season. cept for failure to manage our cities well. The time has arrived when an exception of such magnitude would overthrow the general rule. Henceforth the government of our cities must be

looked upon as a typical and representative matter; and if our democracies life, they will not be adjudged successful in anything else.-From "The Progress of the World." in the American Monthly Review of Reviews for May.
