with her warblings carly and late. Miss Braddon is still, at the age of 62, as industrious as ever, and a new novel, "The Infidel," which has been promised for publication soon, makes It sure that 1899 will not go by without a novel from her pen. Since 1862, when she began to publish in book

form, she has skipped only two years. The socialist vote in New Haven shows a heavy gain. In 1896, that party polled in the city 405, and last November 606. Last week the socialist vote jumped up to 920, a gain of over 300 in five months. The spring election in Bridgeport, Conn., recorded about the same socialist increase. New ave socialist councilmen.

and pocketbook down on the seat. the noticed a man singing vigorously in of the hymn pushed past the people church. Looking for her pocketbook, the owner found that it had disap-

Superintendent John Stuart, of the Northwestern railway, leading from Chicago north, was formerly a tele graph operator at Hokendauqua, Pa. At the time of the great strike some years ago he voluntecered to take charge of the locomotive of an important train on the Northwestern road, which he did successfully. This service attracted the attention of the Vanderbilts, who advanced Mr. Stuart rapidly, until he was finally appointed superintendent of the railway at \$15,000 salary per annum.

A St. Petersburg corespondent of the London Times shows that the great Siberian railway, which will in four years' time connect St. Petersburg with Port Arthur will pay from the very first. It is producing trade wherever it goes. The supply of corn has already increased to a surplus of 65,000 tons in the steppe just opened up, where only five years ago it was cessary to import 96,000 tons a year. The yearly transport of coal is already estimated at 260,000 tons, and it is officially estimated "that the commercial traffic of the Siberian railway within the next five years will reach 1,532,255 tons a year, and this is estimate is made irrespective of any consideration of the probable through traffic when the line is completed ':> the Pacfic," while the time expended in traveling from London to Shanghai by this railway will be fourteen days, instead of thirty-five days by sea.

cupy the stage of life, but they furish a multitude of variety shows.

All the e seat behind her, who at the end women had been ordered to leave the river bank, but Mrs. Eversol refused in the end of the pew and left the to go away, and prepared to signal the approaching vessel. She took a position close to the landing and waved her handkerchief in warning to the boat as it steamed up toward the concealed enemy. The signal was not understood, and the boat continued to approach the landing. The steamer had rounded to, and the deck hands were getting ready to throw out the gangway, when Mrs. Eversol shouted at the top of her voice, "Don't land! The rebels have captured the town!" Then the captain of the vessel saw the danger, and began to back away from the landing. The rebels opened fire on the boat and riddled the pilot house with bullets. No one on the vessel was hit by the fire of the rebels, and the City

of Alton steamed back to Cairo. deed spread among the rivermen and regiment are among the applicants for a pasture that is worth something, and The story of Mrs. Eversols' loyal Federal officers, and soon she had more pensions. than local fame. After the capture of Buckner was brought up the river a prisoner, Mrs. Eversol went on to the boat at Commerce to see the distinguished captive. The rebel general showed her particular attention.

Several years ago Mrs. Eversol, who had become a widow, made an application for a pension, basing her claim on in saving the boat from capture. The in the Spanish war is very remarkable, treatment is given customers and wise the service rendered the government proof of the war incident was made out and placed in the hands of the congressman from this district. Before the matter could be introduced in congress all the papers were lost. The preparation of the proof had cost the widow much time and considerable neys are largely responsible for the 1. Never sell any except fresh berries. money, and she was very unhappy on large number of pension applications 2. Give honest measure. 3. Use care account of the misfortune. Mrs. Eversol has just passed her 75th birthday. She is poor, and an effort has been started to revive her pension claims. Many of the witnesses whose evidence the story of the saving of the steamboat from the rebels are now dead, to establish her claims.

I shall take great pleasure in telling them of cities built upon to twenty stories high, and of the ma-

New Varieties of Corn.

We believe the ordinary farmer

should give a good deal of thought to

the varieties of corn he grows, and

that it will pay him to experiment in

a small way with new varieties, says

Wallace's Farmer. After some experi-

ence he will be able to cross intelli-

gently for a special purpose from year

to year and get about what he wants.

Corn originally was a semi-tropical

product, coming, we believe, from Mex-

ico. It has been growing in a wide

range of climate, and has developed a

great number of varieties. In fact, it

is more variable than any other grain,

varying not merely with the climate,

but with the soil, and in selecting seed

corn it is not safe to reach over a wide

range of latitude. If you do, the corn

will be confused, so to speak, and not

know how long to grow nor when to

ripen and get in out of the way of

seed corn with the idea of grain pro-

duction should select the variety that

grain, large ears, and as many of them

chines which talk." A parrot escaped from a drug store in a Georgia village, flew into a church where the colored brethren were holding a meeting, perched on the pulpit and, surveying the congregation, observed in a sharp voice: "It's hot as hell!" Some of the brethren jumped out of the windows, while many of the sisters fell fainting. The preacher sought refuge in the steeple, and was so firmly wedged in it that they had to saw him out.—Atlanta Constitution. Practical Puzzie.

Our readers who are interested in puzzles should secure one of the map usules sent out by the Chicago Great Western railway. It is a map of the United States on heavy cardboard and cut up into states, each state and territory being on a separate piece. They are nicely colored and show the capitals of the different states, as well as the large rivers. The puzzle consists in putting the different pieces together so as to form the map of the United States. It makes more of a puzzle than would at first be supposed and will be found interesting as well as instructive to the older people as well as the young ones. Incidentally it is quite valuable as showing the comparative size of different states, and this will be a mat-
