**JOHN TANNHILL** was born May 12th, 1845, in Washington, Canada East. Before coming to his present farm just east of Columbus, he lived in Butler county ten years, taking a homestead there in 1863. For a number of years he made a specialty of raising vegetable seed for the large seed-houses of the country. It is not too much to say, probably, that he has planted most of the shade and a good many of the fruit trees of Columbus. He has been a quiet but persistent toiler for the best interests of the agricultural workers ever since he came here. He is now president of the Northeast Nebraska Horticultural association, which honor he has held for the past four years. He has also been the president of the old settlers' association for two years, and is captain of the Sons of Veterans, and a prominent member of the G. A. R. In 1890 and 1891, Mr. Tannahill was industrial teacher of the Genoa Indian school, his duty being to oversee the farm particularly, and to go to the different agencies to get pupils for the school. Mr. Tannahill lives on his farm, but for the past five years has had the gardening place rented. He still assists in many ways helping in the management of the place. Mr. Tannahill was married in Chickasaw county, Iowa, Jan. 8, 1870, to Miss Bowlsby who died several years ago. To them were born three children: Mrs. William Meays, Mrs. Brimblecom and Miss Minnie. He was married again to Miss Emma Wise of Dubuque, Iowa, for several years a teacher in the schools there, and by this union they have one daughter, Elouise. Mr. Tannahill enlisted January 13th, 1865, in company C, One Hundred and Fifty-sixth Regiment Illinois Infantry, and was mustered out at Springfield Illinois.

—William Mason and David Thomas had been in the city about a week, serving on the jury, and were discharged Monday, as juries to get home as school boys after a short time confined in school. —It is about the same in every direction. The Albion News says: Every mechanic of the city is in active demand these days. —We drove through the orchard of Isaiah Lightner yesterday. His trees are in bloom; they are splendid. He has tried the notrimming method. His trees have been allowed to grow as they please, and the results are good; his trees bear well. He has just set out a year orchard. Some of his apple trees have run fifteen years without trimming and have grown many limbs close to the ground. All he says about it is, it succeeds.—Monroe Looking-Glass.

—Mrs. O. E. Green of this city was elected Grand Matron of the Eastern Star, at the meeting of the Grand Lodge at Lincoln the latter part of last week. The election of Mrs. Green to this exalted office is a great honor, not only to one of the highest esteemed ladies in our city, but to our city as well as the local lodge.

—Mrs. Green filled the office of associate matron last year with great credit to herself and the order. The Lodge predicts a successful year for the order under Mrs. Green's administration.—Genoa Leader.

I., occurs the following: "In the fight above Guignard Captain Kilian dodged with the rest of his men out of involuntary respect for successive flights of Maudslow. The captain had just dropped when a bullet struck the dirt in his very face. 'There, by ginity,' shouted the captain, springing to his feet. 'If I had not been dodging that bullet would not have come so near my head—come on, boys, give them a charge, and away went the line, and so did the 'niggers.'"

**MARY HEWICH WILLIAMS.**

—A writer put the matter very aptly when he said: "Corn loaned to hogs is cash at a good investment, safe and at a very large interest. A hog is a condenser; he will put ten bushels of corn into less space than a bushel measure. He has been styled a manufacturer of hams, lard, hair brushes, head cheese, tooth brushes, glue, buttons, fertilizer, lard, bacon, knife handles, whistles, soups, soups, sausage and satisfaction. He converts corn into coin and can buy what he will."

—Enoch M. Johnson, a boyhood acquaintance of the writer, died May 6, at Wilmerding, Pennsylvania, about 60 years of age. He was associated with Mr. Westinghouse, in Pittsburgh, in his first experiments with the air brake, and the acquaintance, says the Cadiz (Ohio) Republican, then formed, when both were young, lasted through life. He was held in high esteem not only by the management, but also by hundreds of men who worked under him, all respecting him as far more than an ordinary friend.
