Of Course - Why Not?

Inasmuch as the Three Tailors Pooley street resolved certain important thinks in the name of "we, the people of England." there is no earthly reason why the "anti-imperialists" of the United States should not extend their protecting influence over the destinies of the Nation on a somewhat similar plan. that they are about to form a brand new political party, with all the modern improvements, is not at all alarming. They should go ahead by all means. Their performances would brighten up the gloom very decidedly. Plan of Enlisting Islanders in Regular Army is a Success.

According to recent advices received at the War department the experiment of enlisting natives of the West Indies into the American army has proved quite successful in the case of the Porto Rican battalion of United States volunteers, which body completed its organization a few weeks ago. The democratic county convention yesterday did the customary hurling of a few columbiads and wads of words at trusts and commended Attorney General Smyth for putting up a fight against them by bringing action against the Standard Oil company. And the funny part of the situation was that the chairman of the convention was the local manager for the Standard Oil company. Of course he doesn't need to surrender any deep-seated convictions for a moderate salary, but if Mr. Rockefeller calls for a report on the matter and asks why his employee are denouncing him it will be nothing more than fair for the democrats to furnish the chairman of the

SELFISHNESS.

We Nearly Always Discover It In Others but Never In Ourselves. Probably the most insidious of all the faults is that upon the absence of which we most pride ourselves, and that at the same time we notice most readily in others. In some of us it is pride, in others gossiping. The list is long, and we know it without going into details, but that which we do not seem to realize is that the very most common fault of us all as a mass is selfishness.

We do know that nearly every one we meet is selfish, but we seldom discover bow selfish we are ourselves unless shown by a sudden touch of deep regret. Most of us discover, for in stance, that we were selfish in reference to some dear friend dead, but we stop right there, and while we regret the past and shed useless tears over the Philippines will bring the people of discoveries-namely, that we are selfish to our living friends-and while we think that they are being unfair, unkind, to us we forget to be generous ourselves, to look beyond the frown, the hard word, the selfish act or neglect. of islands, is at peace and will remain so.
