

"Cresco."

When next you buy a corset try a "Cresco." You'll thank us for the advice.

Since we advertised the introduction of the justly popular "Cresco" Corset, we have been most agreeably surprised at the results. Scores of our customers have availed themselves of the opportunity offered them to examine and have explained to them the peculiar merits of the only corset made that can not break at the waist line.

-Bert Galley, Columbus' chief of fire department, and O. L. Baker, an old-time fireman, were among the first to hear the alarm of fire, and after routing from sleep everybody about the hotel, and then becoming conscious for the first time that they were away from home, and at the metropolis of the state, quieted down and went back to bed.

-This Wednesday, Sept. 20, is the day fixed for the reception of Co. E, First Nebraska at David City. Chaplain Malley is to deliver one of the addresses. The songs are to be rendered by a chorus of 100 voices, with accompaniment by Hagson's band. An open air concert lasting two hours by the same band is one of the special features.

-Bishop S. M. Merrill, the senior bishop of the Methodist Episcopal church, whose home is in Chicago was in the city Wednesday last, the guest of Rev. Michel and family. He was on his way to West Hill to hold the Swedish conference for the states, Kansas, Iowa and Nebraska. There were some forty representatives present, the conference continuing from Wednesday to Monday.

-Rev. Reichardt of Duncan will shortly remove to Grand Island, having been transferred to that place by the annual conference of the M. E. church. Mr. R. has been a faithful minister during his term of five years at Duncan, and his friends wish him prosperity in his new field of labor. Rev. Sudbrook from Ennville, Nebraska, will succeed him.

-The big fire at Lincoln has fully developed the fact that that city is a great way behind the age in facilities for fighting fire. The chief says that only twenty-six men responded to the alarm. Columbus does much better than that, any time. Their water supply is also lacking. It is now presumed that something radical will now be done by the property holders of Lincoln.

-Joe Schurr returned Saturday from Omaha where he went about a week ago. While in Omaha he enlisted in the Thirty-ninth regiment which is being recruited there. He left Monday to join his regiment. Joe was accompanied by three boys from Creston who went down for the purpose of joining the army. They are John Johnson, Duk Ludwig and Willis Hestman.—Leigh World.

-Chester Clark, who for some months has been a resident of Nebraska, has concluded to take a course at the State University at Lincoln. Electrical engineering will probably be his specialty. Chester was a young soldier in the Spanish-American war, serving in Cuba. He thinks wonderfully like a veteran; is strong, ambitious, independent, and no doubt will be heard from in his chosen line of work.

-An item in the Gazette concerning cholera among hogs in this vicinity, brought Charley Ziegler over from Columbus on Tuesday and now Mr. Ziegler proposes to heal the sick porkers. He offered to buy up all the sick hogs Mr. Meyers had, by paying him for the same half price and when cured would sell them to him again, but must have full price. Mr. Meyers would not accept his offer, but has agreed to use his medicine.—Bellwood Gazette.

-Last Sunday the twin babies of our townsman, Sergeant John H. Brock, were christened at the residence of Mr. John Westrick. The babies were born last November while their father was engaged in the war in the Philippines. Grandpa Brock took special pains in the two new comers in the absence of their father and selected the proper names for the little ones, the boy being called George Dewey and the girl Ida Manila. A number of friends and relatives attended the ceremony.

-One way to make tomato catsup. Slice one peck of ripe tomatoes; pour over them one half cup of salt and let them stand over night. In the morning pour off the salt water and cook the tomatoes until fine. Strain and add two tablespoonfuls each of ground cloves and cinnamon, two grated nutmegs, one-half tablespoonful of whole mustard seed, one pint of vinegar and a small quantity of celery seed; cook until rather thick. So says one who knows.

-Nat. Smalls of the Fremont Herald is one of the oldest newspaper men in Nebraska and generally takes a commonsense view of things, and, barring his politics, is an all-around good man in the harness. Speaking of the many democratic newspapers just now in Platte county, he says: "Yes; it usually works that way! A dozen starvelings that can't afford to creditably represent anybody."

-The Columbus Planning Mill, A. H. Free, proprietor, is ready to take all your orders for general mill work, in whatever shape it may come. Call and see. Sash, doors, screens, tanks, etc., etc., are some of the specialties, but everything in our line, we can do for you, on short notice, and at very reasonable prices. We have employed C. C. Hardy to assist us—a man well known for the thoroughness of his work in our line, 4t.

-This editor and wife drove over to the county seat Tuesday morning and we can truthfully say that during our thirty years residence in Nebraska we have never seen corn fields giving promise of a larger yield. The corn is fast ripening and will soon be out of frost. We also saw several fine fields of clover sown last spring. This has been an exceptionally good year for tame grass of all kinds and many of our farmers have fine fall pastures for their stock.—Hawells Journal.

-W. H. commonly known as "Coin" Harvey, is not meeting with the success that the fanatics thought he would. The public can judge the size of his audiences, but they are not prepared to say so to the amount of money he is gathering into the campaign fund, because everywhere the brethren of the inner circle are requested to tarry for business, after the general audience is dismissed, and the amounts collected are not given to the public. It is safe to say, however, that the money collected with "Coin" Harvey and also his master, W. J. Bryan, is by no means a secondary matter.

-The provident householder is considering the fuel question, and how he may keep himself comfortably warm the coming winter with the least outlay for fuel. We believe that if more commonsense attention was given to the furnace principle with a good first-class central fire-box in which could be burned wood in cord-length pieces, coal, slack, cobs, etc., that people would find more comfort with far less running expense than is usual.

-One of the industries, properly conducted, that might flourish in Columbus, is a canning establishment. The one at Nebraska City has a capacity of 100,000 cans a day, of fifteen hours—seven car loads of canned goods. The plant, when in operation, gives employment to 200 persons, with a pay roll of about \$1,000 a week. Corn, tomatoes, apples, jellies, preserves are among the products.

-One of our truthful citizens tells of a special train of seven cars going east the other day loaded down with Chinamen. The query is what they were, and where they were being taken. Is it possible that in this country there are syndicates of Chinamen who are engaged in trafficking in human beings? Some of these men left the car to get a drink of water, and the boss got after them with a good-sized stick and driving them back into the cars.

-AGENTS WANTED.—For Helic Wilman's new book "A Conquest of Polynesia." There is magic in its title. The book tells itself its tale in gripping like wild-fire. Agents everywhere are reaping large returns. Most favorable terms to agents. The sale of this book opens the road to splendid business opportunities. Send for terms and designate territory wanted, at once. Address INTERNATIONAL SCIENTIFIC ASSOCIATION, Sea Breeze, Florida, 1t.

The house being moved to the bottom from Twelfth street was one originally built as a law office for Leader Gerrard, and a real estate office for Sam'l Smith. It first stood one door west of the Hammond house (now the Meridian hotel) the upper story being occupied by Mr. Gerrard, the lower by Mr. Smith. Two gentlemen had a question whether this was that building, but it was soon settled when they got close in front—plainly deciphering the old signs which the storms of all these years had not succeeded in obliterating.

-Mr. Corbin of Grand Island called at JOURNAL headquarters Monday when in town. He was in attendance at the reunion last week and says it was probably the best ever held in the state, there being 2,800 veterans who registered, and doubtless there were many who did not register. There were 140 Nebrascans from New York state alone, and Mr. Corbin met his Capt. Rogers, of B. lat. N. Y. Light Artillery, whom he had not seen since they were mustered out at Elmira, 34 years ago. They recounted their last firing at Gettysburg, where they put in four charges of canister, the enemy being close to the muzzles of the gun.

-It is nearly time for companies of farmers to go on their annual journey for a supply of winter apples. We understand that they are abundant in Saunders county. It makes a very pleasant outing for half a dozen farmer lads, going together, camping out, picking the apples, helping make cider, seeing the country, making new acquaintances, discussing farm topics (if not politics and religion), and having a profitable time generally—the end in view being a good lot of winter apples with a very reasonable outlay of money. Plenty of fruit is wholesome.

-Wednesday last, there was a team of mules, a wagon and Thomas Jaworsky, directly, the swirl of the neckyoke broke, then in a little while (too short for estimate), the tongue broke off close to the double-tree. In a short time thereafter one of the lines broke, the team ran under a tree, Jaworsky jumped out, fell out and was knocked off, he don't rightly know which. The team, starting at this side Duncan, ran about five miles, keeping near the middle of the road, and finally stopped, Mrs. Jaworsky got out and trying them up, Jaworsky had some blood on the side of his face, but seemed none the worse for what might have been a very serious matter to him.

-A man named John Moravec was found in a pasture near Schuyler Tuesday morning of last week with a cheap bull dog revolver in his right hand, with five of six chambers empty. He had been shot in the head five times. At a place near North Bend where he had been working seven weeks ago, he had been paid \$80, and received \$25 from another source. Coroner Clements thought it was a clear case of suicide and so held no inquest, but this would seem incredible. Two bullets were fired in the forehead less than an inch and a half apart, one at the top of the right cheek bone about even with the eye, and one at the side of the head. So says the Schuyler Sun.

-Bark's Pavilion Uncle Tom's Cabin Co. 30 artists and musicians, will exhibit here Monday evening Sept. 25th, under their pavilion seated with opera chairs and having all the conveniences of a modern theater. In connection with their fine acting company, they give a musical program consisting of overtures, selections and popular airs. Their fine pavilion opera house with their appropriate scenery and stage effects enable them to produce the ever popular drama in its entirety. Do not miss their open air concert in front of their pavilion east of Thurston hotel, at 7 o'clock p. m. Admission: Adults, 25c; children 15c.

-The one thing that has been commented upon more than anything else in the city of Lincoln in the last two days is the bright, clean and handsome appearance of nearly all of the veterans of the Spanish and Filipino wars. The boys of the First Nebraska have naturally received the most attention, and it is a very common thing for men as well as women to comment upon their intelligent faces and their manly bearing. Military men say that the three regiments sent out by Nebraska last year were composed of the finest material that ever wore uniform. After seeing the boys on the streets of Lincoln for a couple of days, one can believe that statement to be literally true.—Lincoln Journal.

-Mrs. A. Heintz and Miss M. Pohl entertained about sixty ladies at the country home of Mrs. Heintz Friday afternoon, when a most informal pleasant afternoon was passed. Among the amusements were hunting peanuts all over the house and yard, then a contest in climbing a stack of hay; for the first game a live spring chicken was won by Miss Mand Parker, and a young live pig was won by Miss Lydia McMahon for climbing the hay stack. After an elegant supper on the lawn, a fire was built in a cauldron and potatoes roasted in the coals, while four ward gnomes dressed up in what appeared very much like bed quilts, told the future happiness and sorrows of an excited audience. It was quite late before the crowd returned home, and all will remember the occasion as one of the pleasantest gatherings of the summer.

-Mrs. A. Heintz and Miss M. Pohl as one of the pleasantest gatherings of the summer.
