That an Army Corps Is to be Mobilized at Once-The Outlook in General.

LONDON, Oct. 7.-There has been almost a complete dearth of news from South Africa today. The few dispatches received recording military movements at various points all tend to confirm the belief that President Kruger will restrain any forward movement by the Boers unless they are fired upon or war is actually declared. It is now practically certain that parliament will meet on October

Reserves will be summoned tomorrow in sufficient number to bring up to war strength the regiments warned to hold themselves in readiness for service in South Africa, or about onesixteenth of the total reserves. The Daily News asserts that an army corps will be mobilized tomor-

A dispatch from Mafeking announces that Commandant Cronje of the Boer forces has been promoted to the rank of general and is massing 6,000 Boers, with artillery, near Ramathlabah, north of Mafeking. London-The Capetown correspondent of the Dany Mail says: A sensation has been caused here by the statement that the Free State government has seized 800 tons of coal belonging to the Cape colony, which had to traverse the state. J. W. Sauer, commissioner of public works, when questioned in the assembly regarding the matter professed ignorance, but I learn that the report was telegraphed to the cape ministry early in the day. I learn that the Transvaal's threat to put British subjects over the border would necessitate the withdrawal of Convugham

Some surprise is fanifested over the report that a large number of British troops are to be landed here instead of Durban. This is to signify that the Transvaal will be invaded from the Johannesburg-Thousands of na-

tives have invaded the town, and the authorities decided to march them under escort out of the country. Last night two natives entered a clothing store kept by a Jew and stabbed the proprietor in the neck, severing his windpipe. Two Jewish storekeepers have been murdered by natives and the Kaffirs are rading all the places where they think liquor is stored. The war commission, acting under the government's instruction, will today issue advice to shopkeepers to remove the barricades they have erected on the ground that the government's guarantee of protection ought to be sufficient.

MANILA. Oct. 7 .- Genral Fred Grant, with three companies of the Fourth infantry, two companies of the Fourteenth infantry and a band of scouts, attached to the former regiment, advanced from Imus this morning, driving the insurgents from the entire west bank of the Imus river. The military authorities apparently no longer fear the massing of the Boers along the border and in fact it has been provided that the Boers shall not make a sudden rush into the country. WASHINGTON, Cet. 5 .- The prestdent today directed the immediate dispatch to the Philippines of a number of vessels of the navy including the cruiser Brooklyn and the gunboats Marietta and Machias. The action is the result of Admiral Dawey's interview today, in which he went over the Philippine situation with the president

The vessels ordered are in line with the president's determination to furnish the army and navy every resource for stamping out the insurrection at

the earliest possible date. At Admiral Dewey's extended interview with the president the former went into the Philippine situation at great length, explaining the exact condition and his views of the outlook. concluding with an earnest recommendation that the Brooklyn and some other vessels be sent at once to the Philippines. This reinforcement of the present fleet of the Asiatic squadron he urged as necessary and said their dispatch should be directed as

early as possible. The president immediately communicated with the Navy department and instructed the secretary of the navy to issue an order carrying out the admiral's recommendation and to see that they be got in readiness at once. The Marietta and Machias, besides the Brooklyn, will be designated by the Navy department, along with several other vessels which have not yet been selected. The Brooklyn is now | timate. with the other vessels of the North Staten Islanu.

The Machias and Marietta are at present lying at the wharves in this city on waiting orders, having been brought here to participate in this week's celebration in honor of Admiral Dewey. These reinforcements will add considerable strength to the Asiatic squadron and the administration believes their presence will have a material effect in expediting the

ending of hostilities. MANILA, Oct. 5.-Several hundred insurgents have reoccupied Porac, which was captured by General Mac-Arthur on September 28 and evacuated by the Americans on the following day.
