

sinister and will amount to a rejection of the proposition. Mr. Goodnow's dispatch contains some further faformation bearing on the question of responsibility for Pekin conditions, in the statement that the commander of the Chinese troops, by inference answerable to the Chinese government, ordered the Pao Ting massacre. It is learned here that Li Ping Hong. the commander referred to, is a civil official and well known to all the Chinese officials abroad as one of the most rabid anti-foreign leaders in China. He is a close friend of Prince Tuan, and the association of these two in Pekin affairs, with power enough behind them to cause the ignominious death of two high officials, is regarded here as a bad sign.

Simultaneously with Mr. Goodnow's dispatch came a characteristically diplomatic message from Yuan Shih Aai. the governor of Shan Tung, repeating the story of two days ago that the Chinese government was arranging to deliver the ministers in safety at Tien Tsin. No effort is made to reconcile that statement with Earl Li's refusal to allow communication with the ministers.

General Chaffee's message as to the unexpected resistance of Chinese reconnaissance is regarded by military men here as forecasting a greater degree of resistance to military movements than had been expected and they are now satisfied that Chinese troops will furnish material for at least one severe battle before the way is clear to Pekin.

The Navy department today issued an order for the co-operation of its officers abroad with the officers of the army in landing and transporting troops destined for Chinese service. This revives the situation that exwired the viceroy of his intended visit isted in Cuba when Shafter's army was and Liu-Kun-Yi reclied: "I am unwell landed largely through the efforts of the navy.

WASHINGTON, Aug. 4.-The ab sence of the Chinese minister from the state department yesterday, despite the fact that it was diplomatic day, taken in conjunction with the exceeding sharp note of Secretary Hay, was the subject of speculation. Minister Wu explained his absence on the ground that he had no news to communicate and his appearance at the department this morning was awaited with considerable interest. The minister came in the course of the moraing, imperturbable as usual. He announced that he had absolutely no news from China.
