That which has been

A woman is sick-some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story.

She holds back something, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and this completely mystifies the doctor.

Is it a wonder, therefore, that the doctor fails to cure the disease ? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician. This is the reason why hundreds of thousands of women are now in correspondence with Mrs. Pinkham, at Lynn, Mass. To her they can give every symptom, so that when she is ready to advise them she is in possession of more facts from her correspondence with the patient than the physician can possibly obtain through a personal interview.

Following we publish a letter from a woman showing the result of a correspondence with Mrs. Pinkham. All such letters are considered absolutely confidential by Mrs. Pinkham, and are never published in any way or manner without the consent in writing of the patient ; but hundreds of women are so grateful for the health which Mrs. Pinkham and her medicine have been able to restore to them that they not only consent to publishing their letters, but write asking that this be done in order that other women who suffer may be benefited by their experience. Mrs. Ella Rice, Chelsea, Wis., writes: "DEAR MRS. PINEHAM :- For two years I was troubled with falling and inflammation of the womb. I suffered very much with bearing down pains, headache, backache, and was not able to do anything. What I endured no one knows but those who have suffered as I did. I could hardly drag myself across the floor. I doctored with the physicians of this town for three months and grew worse instead of better. My husband and friends wished me to write to you, but I had no faith in patent medicines. At last I became so bad that I concluded to ask your advice. I received an answer at once advising me to take your Vegetable Compound. and I did so. Before I had taken two bottles I felt better, and after I had taken five bottles there was no happier woman on earth, for I was well again. I know that your Vegetable Compound cured me, and I wish and advise every woman who suffers as I did to try Lydia E. Pinkham's Vegotable Compound. Believe me always grateful for the recovery of my health."-MRS. ELLA RICE, Cheisea, Wis.

In a recent letter to Dr. Hartman, Congressman Botkin, of Winfield, Kan., whose fame is a national one, says of Peruna:
