Our price marks are not the lowest, but every commodity we sell is worth the money we ask, and you actually save money in the long run by purchasing from us. If there is any desirable thing in the grocery line we haven't in stock, we will get it for you.

The advantage of trading at Hulst & Adams is quite evident when you stop to think that their assortment of Staple and Fancy Groceries, Queensware, etc., is the largest in the city. Every article that leaves this store is guaranteed in every respect to be the best goods obtainable for the money. Our well-known and long and favorably tried line of Chase & Sanborn Coffees speak for themselves.

They Are The Best

MONARCH PURE-FOOD EXHIBIT.....

In the selection of staples it is most essential to know that what we buy for table use is pure and wholesome. Especially is this true when it comes to buying canned goods, of which there are so many different brands many of them being put up as cheaply as possible without any regard as to quality or purity. It is therefore quite important that every housekeeper should be familiar with brands of unquestionable merit and absolute purity, put up with great cleanliness and always reliable. Such a brand we have in the MONARCH goods. They have been on the market for over thirty years, every item of which is fully guaranteed. It is a most comprehensive line, in that it embraces more items than any other line on the market.

In order that you may see what degree of perfection has been attained in their preparation we will have an opening at our store on Wednesday, June 19th, 1901, when we will cut and serve Monarch goods all day (beginning at 10 a. m.) and cordially invite your self and your friends to call on us on that date, assuring you that no pains will be spared to make your visit both profitable and enjoyable.

Yours very truly,
