—For some reason or other the nine of Aurora did not make their appearance here Sunday, and the "kid" nine of Bellwood played against the Columbus "kid" nine, with a score of 21 to 17 in favor of Columbus.  
—Julius Ernst says that the storm on the Fourth at his place near Duncean came close to being a twister. A barn filled full of alfalfa hay was moved on the foundation, and a granary forty feet long was blown over.

—The national convention of the Epworth League in San Francisco will draw great crowds there within the next week. Some thirteen or fourteen extra trains will pass through Columbus today, carrying from 3,000 to 4,000 people.  
—Chris. Grossnicklaus, 44 years old, after a sickness of five months, died at St. Mary's hospital this city July 3, of consumption. The burial took place at Oceola, Neb. Friday afternoon. He leaves a mother, five brothers and five sisters.  
—Charles Taylor says that the storm of Thursday in the vicinity of Duncean was quite severe. In a strip about a half mile wide it was especially so; large trees were blown down, small grain was lodged, and the hail did some damage to small grain.  
—Al. Bieder of Council Bluffs divided his two weeks' lay-off between visits with Grand Island and Columbus friends. He is looking in his usual good health, and says there is quite a large amount of work in the way of improvements going on in Council Bluffs.  
—A Union Pacific train on the first siding south of the Elevator Boiler Mill, Saturday night left the west-end limit of the siding near the mill and rolled along across the street, stopping near the curbing, by Schapach's store. No damage that we learned of.  
—On the evening of the Fourth a dynamite crater was exploded at the north end of the stand at the park, where the band were playing, putting out two of the electric lights, and causing the temporary deafness of Burr Galley, one of the members of the band.  
—Little Esther, daughter of Mr. and Mrs. D. M. Newman, suffered a painful accident Monday last week. A window fell on the closed fingers of the left hand, and the nail was so fastened down that the window had to be broken and nail pried out before the hand was released.  
—There is no longer an excuse for anyone to endure the torture inflicted by piles when TABLET'S BUCKEYE FILE OINTMENT will cure them, a remedy so moderate in price and so effective. Price 50 cents in bottles. Tables, 75 cents. A. Heintz and Pollock & Co.  
—Wednesday last a fire at J. H. Oren's, five miles north of the city, destroyed sheds amounting in value to \$200. Cattle and horses were taken out only ten minutes before the fire. The fire alarm to neighbors was given by means of the farm-bell, and brought some thirty to the rescue.  
—William Green, who has recently made a trip in northern Kansas and southern Nebraska, says that wheat, especially winter wheat, looks very fine. One man mentioned had threshed the crop on 230 acres, giving 25 bushels to the acre, the wheat testing 65 pounds to the measured bushel.

—Dr. L. C. Voss, Homoeopathic physician, Columbus, Neb.  
—Bring us your job work. We will endeavor to please you.  
—Go to Hage's bowling-alley for the best of amusement combined with scientific exercises.

—You can buy blank farm leases at THE JOURNAL office, good form, two for 5 cents; five for 10 cents.  
—Envelopes with your return card printed on them, for 50 cents a single hundred; for larger quantities, and different grades, call at THE JOURNAL office for prices.  
—Henry Green of Shell creek has invested in a fine survey, at Louis Schreiber's establishment. Mr. Schreiber has always been noted for having the best of everything in his line, and at very reasonable prices. Be sure to see him when you wish to buy buggies, carriages, wagons, carts, farm machinery, etc.  
—Fred Rollins is doing well in the Philippines. He has been in the custom house in Manila since March, getting the salary of \$75 a month. He says the sanitary condition has improved there so much that people who saw the country a few years ago would not know the place, and danger to the health is not so great as formerly.  
—Abraham Scott, after being almost deprived of his hearing for several years, has recently recovered so that his hearing is as good as that of people generally, although he is 75 years old. The use of the syringe in washing and the heat end of a hair pin accomplished the work for him, and those who have not been similarly deprived cannot appreciate how much it means.  
—Besides W. M. Cornelius, who will represent the interests of the city, J. D. Sturtevant and J. G. Becher have been employed to represent Eleventh street property owners for the opening of M street, which the Union Pacific has sought permanently to acquire. It was supposed that the hearing in the U. S. court at Omaha cannot be reached before September.  
—If the stomach, liver and bowels fail to perform their functions regularly and naturally, the blood becomes contaminated with impurities, and the whole system is consequently debilitated. HERBINE is remarkable for its efficacy in curing the ailments of summer, and the disorders prevalent during hot weather. Price 50 cents. A. Heintz and Pollock & Co.  
—The firm of Howard & Coles recently managed some important land transfers in this county. The farm of John Bahman of 400 acres to William McNally, for \$15,000. This is one of the finest improved farms in the county, located in Creston precinct in Platte county. The farm of James McGuire in Stanton precinct, of 300 acres to Donald McLeod, for \$7,000.—Schuyler Sun.  
—Mike Savage of Valley, accompanied by his son, was in the city Thursday. The lad had a taste of gunpowder, suffering a small hole in the palm of his hand from the discharge of a toy pistol—nothing serious. Mr. Savage's pleasure was not unmingled with business, and we wouldn't be surprised to hear of his moving back to Columbus, where he lived for so many years.  
—Mr. J. L. Brown is to leave the first of the week for Hot Springs, S. D., to take a month's treatment for his rheumatism. Tuesday evening as Hubie Nichols was on his way home, he took three aim, and Hubie came in contact with the ground a little more severe than he expected. His face is badly bruised, and his left wrist sprained. He had to stay home from Fremont.—Creston Statesman.  
—During the rain storm Monday week at Garrison, lightning struck the home of Elwood Harvey, tore down the chimney, wrecked the roof, followed the chimney to the ceiling of the lower story and apparently scattered. A little daughter was rendered insensible for a few minutes, and afterwards suffered somewhat from her eyes and face being burned by the lightning.—Bellwood Gazette.  
—The rural, south-side sprinkler has been provided with a new pump, which will doubtless give better satisfaction than the one in use the past week. The tank holds 500 gallons of water, and the most perplexing part of the practical problem of keeping the river from the city to the Platte river bridge in good shape is the pumping by hand of the water from the river into the tank of the sprinkler.  
—O. L. Baker has inclosed his ice, exposed to the weather since the burning of the ice house. We learn that about one-third of the ice was saved. The plant, (house and contents), was raised at \$2,500, and was insured for \$1,000. We have not learned the amount of the claim to be made against the Union Pacific company for damages by the burning. The plant is only a few feet from the track.  
—Hend & Rollin have lately received from New York City a \$2,500 steam riding gallery, which, after using here a week or so, they expect to travel with. The merry-go-round has become quite a favorite throughout the country, the great exhilaration being welcome alike to old as well as young, judging from the occupants, who go "clear around the world twenty-five times for the small sum of five cents."  
—Herman Stenzel lost his life near St. Edward in a rather singular way. In loading lumber on his wagon, there were four boards laid over, after the remainder of the load had been fastened to the wagon, good and solid, and it was the slipping of these loose boards, in going down a hill, and their striking against the horses, that caused them to run away, throwing Mr. Stenzel under the horses, the load passing over him and crushing him to death.  
—Peter Larson, one of the old settlers of Platte county who has lived near Platte Center, was in the city Monday and was the guest of John Easden. He had just returned from Chase county, where for years he has had a section of school land, which he had not before seen, but which pleases him well, being good grazing land. Mr. Larson has sold his quarter section here for \$40 an acre, and expects to improve his place in Chase county and make it his future home.
