Coming Events.
State Fair, at Lincoln, August 30—Sept. 6.
Central Nebraska Assembly, Fullerton, August 14-23.
Pan-American Exposition, Buffalo, New York, May 1 to November 1, 1901.

KNOX county, Nebraska, warrants are above par, the county being practically out of debt.

THERE were many sunstrokes, prostrations and faintings in the streets of London, England, Friday.

JOHN PETERSON, a Burt county pioneer, died at Oakland, Nebraska, Friday, from cancer, after a protracted illness.

SPONTANEOUS combustion is given as the cause of a fire at Ottumwa, Iowa, which destroyed four thousand tons of ice.

CHURCH HOWE, U. S. consul at Sheffield, England, is expected home, Auburn, Nebraska, July 30. A royal reception is in preparation.

By rousing himself, by reflection, by restraint and control, the wise man may make for himself an island which no flood can overwhelm.—Buddha.

THE state department has received the amount of the indemnity claim against Turkey, \$85,000, through the American legation at Constantinople.

THE national educational association has reaffirmed its declaration in favor of a national university at Washington to be maintained by the national government.

GOVERNOR HERRICK of South Dakota on Friday announced the appointment of Alfred B. Kittredge of Sioux Falls as senator to fill the vacancy caused by the death of Senator Kyle.

GRANT heat was reported last week as extending throughout western Europe from Spain to Sweden. Violent hail storms have ruined the crops in the province of Salamanca, Spain.

In the vicinity of St. Paul, Neb., a great deal of damage to spring wheat has been done by chinch bugs. Many fields in the northern part of the county have been ruined by the pests.

TREASURY is said to be a deficit of \$225,267 in the endowment rank of the Knights of Pythias. Misappropriation of funds is charged, also reckless financing, juggling of accounts, etc.

Mrs. ZABIESKIE and daughter of Brooklyn, N. Y., are reported as probably fatally burned by the boiling coze of the "pint pots" geyser in Yellowstone park, into which they fell recently to their deaths.

It was estimated Thursday that Kansas will suffer crop losses from the protracted heated spell to the extent of \$100,000,000. This figure will be even larger if the heat continues a few days longer, as then there will be absolutely no help for the corn.

Who ever heard of a brood of sun-hatched chickens before this year? A Fort Dodge, Iowa, hen, doubtless discouraged completely by the excessive heat and her uncomfortable position, abandoned her nest, and the sun did the rest in due time, hatching a fine brood.

The Burlington depot at St. Paul, Nebraska, was totally destroyed by fire Thursday morning, with all its contents. The station agent, J. W. Johnson occupied the upper story as living apartments, and while Mrs. Johnson was preparing breakfast a gasoline stove exploded.

A new industry for this country is to be established at Sioux Falls, S. D.—powdered milk, a product which has been in use for the past two years on shipboard and for army purposes. It is claimed that it will add 7 cents to every pound of butter sold in that vicinity by farmers.

WEDNESDAY was the hottest day ever recorded in Chicago, the thermometer in the weather bureau tower registering 100°, while thermometers on the street were from two to four degrees hotter. Up to 2 o'clock there were no prostrations, a dry southwest wind keeping the humidity at a low point.

W. J. McATEEN and Clayton A. Gates have applied to the state board of irrigation for permission to use water enough from Cedar creek to run a power plant of 270 horse power and to fill a lake covering thirty-nine acres on the shores of which a pleasure resort is to be built near the town of Fullerton.

THE South African locust disease is about to be tried at various points in Nebraska against the grasshoppers which are doing some damage. Lawrence Bruner, State entomologist, at Lincoln, is ready to furnish a few hundred lots of this to those who are willing to experiment. It will be sent in glass tubes along with full directions for use.

A FAITHFUL Scotch collie dog that had in his time saved at least twelve careless bathers who had ventured too far into the lake at Chicago, was killed by a policeman the other day at the suggestion of the mother of a 10-year-old boy who had told his mother the truth about his torn clothes, and made up a lie that a vicious dog had bit him, saying nothing of having been rescued from drowning by the dog. The mother, after she learned the history of the faithful beast, and the ignoble action of her boy, probably felt as Bob Ingersoll once expressed his sentiments, viz: "The more I see of man, the better I like dogs."

Elements of Party Success.

A political party, after all is said, is but an agency for the accomplishment of certain things which its members consider desirable. Unless it has some prospect of attaining the ends in view it will fail to command support. A party to be successful must be intensely practical. It must know its own mind, must be sure it is right and must understand what it may attempt that is beyond its powers. It must adopt the best means for the attainment of good ends. If that be counted expediency, as it is in the highest sense, then expediency is always a duty.—Louisville Courier-Journal (dem.)

BITTER WORDS AGAINST BRYAN.
A portion of the proceedings at the Democratic State convention of Ohio last Wednesday appears below:
"In an alleged stampede for principles rather than men" the most striking turn of the convention was on Bryan. The most bitter things were said of his leadership in the committee on resolutions this morning. It was insisted that his name should not be mentioned, and that there should be no reference to either of the national platforms on which he made his campaign. After this plan had been agreed upon, one of the twenty-one members of that committee offered a minority report, reaffirming the Kansas City platform and expressing confidence in Bryan, and he received only six votes out of 960 delegates on his substitute for the platform preamble.

A few moments after the platform was adopted, one of these six delegates called attention to the fact that pictures of other democrats were displayed in the hall and none of Bryan, as heretofore. He started to carry a small banner with Bryan's name on it to the platform. The aides were ordered cleared and the picture did not reach its destination. It was trampled under foot and spoiled during the wild demonstrations when Kilbourne was escorted into the hall. While it is generally believed that the marching clubs did not know they were walking over Bryan's picture yet there was much comment after the convention that the picture was not treated worse than had been the old standard bearer himself by the committee on resolutions and the convention."

THE Chicago Tribune has revised reports from all parts of the country and makes the following summary of the casualties directly due to our way of celebrating the Fourth in this year of grace:
Dead..... 25
Injured..... 1,813
Fire loss..... \$129,185
Those who were injured suffered through the following agencies:
Fireworks..... 750
Toy pistols..... 225
Toy cannons..... 244
Firearms..... 240
Loose gunpowder..... 256
Injured in runaways..... 38

LEWIS SOLDAN, secretary of schools of St. Louis, at the National Educational Association meeting at Detroit made a very sensible remark when he said: "The good sense of the teachers and of the American people is the best safeguard against the prevalence of fads in public school instruction. They both demand that education should constantly adjust itself to the requirements of life and to the development of the best faculties of the child and that the necessary and useful in education shall ever be placed above the merely ornamental."

NAT. SMALLS of the Fremont Herald, in a great many ways has evidenced his peculiar abilities, but as a suggester to his political opponents, he has outdone himself. Listen to him: "Oh! By all means, annex Hawaii to California as a congressional district. To do so would later furnish a splendid precedent for distributing the Philippines among various states where it is desired to bring about or maintain the ascendancy of the republican party."

AT Albany, Missouri, three children of a contractor, George McCurry, found some pieces of dynamite in the cellar of their home and thinking it was putty led it to their pet frog, which ate them. A large lot chest fell on the frog, exploding the osten dynamite; a chisel pierced the temple of the youngest child and killed him; another child and Mrs. McCurry, in the kitchen above, were seriously hurt and that part of the house was wrecked.

THE commissioners of Douglas county, though representatives of the Suburban Railway and Traction company were present at the last meeting of the board, do not seem to be in any hurry to expedite the matters of the company. The thought of people generally these times is to get an equivalent for what they give, and the very first question in granting franchises, or voting bonds is, Is it right? Will we get value received?

NORRIS, the defaulting treasurer of Kearney county, who confessed to stealing money from the county, concealing it, and representing that he had been sand-lagged and robbed, when he had struck himself, and had himself set the office on fire, has been taken to the penitentiary to serve out a six years' sentence. The shortage was about \$3,000, after turning over the amount he had concealed.

AND now Arbuckle of New York has put two large sailing vessels into commission as hotels, the idea being to leave the city each evening returning the next morning at six, except that the sailing will be all of Saturday nights, Sunday and Sunday nights. The rates being moderate, will give the city people an opportunity to enjoy a sleep on "the briny deep."

Another improvement.
The contract has been let to C. J. Scott of this city for the Gluck brick business houses at the southwest corner of M and Eleventh streets. The building next to Mr. Leavy's will be 22x90 feet, one story; the one adjoining it on the east will be 4x90 feet, two story, the front north on Eleventh street.

THE structures are to be first-class in all particulars.
J. W. Fumble has the brick work to do. Mr. Scott's bid was several hundred dollars below that of his nearest competitor.
The buildings are to be completed ready for occupancy by October 15. It is understood that Messrs. Hulst & Adams are to occupy the double-store; that C. S. Easton is to have the store; and that the new national bank to be organized will occupy where Easton's hardware store now is.

Additional local.
—Mrs. Henry Folts returned from Columbus Wednesday evening where she was to see her son who is confined in the hospital there with inflammation of the bowels. David Thomas is visiting his son-in-law, Arthur Wolf and family for a few days, until his departure for Wales. Mr. Thomas expects to take a trip to Wales and the scenes of his boyhood days in about three weeks.

—Quite a delegation of Humphreites will leave about the 20th of this month for Oklahoma with a view of securing some of the government land which will be opened up to settlement on August 6. E. G. Brown, Martin Bloodorn and Tom Selt are going and several others will probably go.—Humphrey Democrat.

Many Years Ago.

Our notes this week begin with THE JOURNAL of June 16, 1880, and close with that of June 30, 1880.
Madison, Neb., had 430 inhabitants. Lincoln, Nebraska, had a population of 12,000.
Thirty thousand emigrants left Liverpool during May.
Miss Cole of Silver Creek was killed by lightning June 10.
Walker precinct had a population of 448; Woodville, 240.
Father Chapin, nearly 85 years old, had been in poor health.
Wm. Heitsman finished plastering Dan Ryan's new dwelling.
George Heugler moved into his new residence on Shell creek June 29.
Webster Eaton started an evening daily paper at Lincoln, the Globe.
Blanche, eldest daughter of Gas. G. Beecher, died June 10, of diphtheria.
A. Anderson of Iowa was in the city June 11, "taking a look at Nebraska."

John Albert, the last and only son of Jonas Hedman, died June 13, of brain fever.
I. Gluck advertised that he wanted to buy \$10,000 worth of county and school warrants.
The first boy born in Platte Center was the son of Mrs. John Scheidel, and birthday June 22.
Miss Rose North of this city was awarded the Lacey prize, for vocal music, at Brownell Hall, Omaha.
R. Lange of the Columbus Volkstab, issued the last number of his paper and removed to Burlington, Iowa.
Gus. G. Beecher was in the midst of his work as census enumerator and estimated the population of Columbus at 2,100.
M. Whitmore erected his brick dwelling house, using limestone from the Rock quarries near Lincoln for the basement walls.

At the "Township farm," Stanton county, June 28, of lung fever, William, son of J. P. Aha, died, in the nineteenth year of his age.
June 24, of typhoid fever, at the residence near Shell creek, Mary Louisa, wife of Matthew Burke, died, in the 51st year of her age.
Rev. J. Q. A. Fleharty officiated at the marriage June 14 of Robert McVicker of Peru, Nebraska, and Miss Virgie Shannon of this city.

At a sale in Council Bluffs of fine blooded stock, investments were made by S. O. Raymond, John Wiggins, Dan. Kavanagh and W. E. Walton.
Em. J. Poita, returning from a trip to Denver, reported seeing the Bakers and Frank Burgess at Golden, Colorado. Jo. Baker was constable there and doing well.
Gov. Nance commissioned for Co. I, Neb. State Militia, the following officers: R. H. Henry captain, J. W. Early first lieutenant, Gus. Lockner second lieutenant.
Walter Craig of Cadiz, Ohio, on a short sojourn in this state, sold \$15,000 worth of land of his own, besides a large amount of the "Township farm" in Stanton county.

In sinking a well at the farm of Rev. A. Henrich on Shell creek, at the depth of thirty feet, a piece of wood was bored through, supposed to be cottonwood or willow.
The A. N. to Columbus from Lincoln was recorded in the issue of June 23 in full blast—C. M. Chambers agent, G. W. Reed operator, D. E. Carpenter warehouseman.
The middle of June A. Haight, living on the island, south of Columbus, had forty acres planted to corn by the first of May, the blades of which stretched as high as his chin.
The Albion News spoke of a sample of peat left there, brought from Wheeler county by Mr. Miller. It lay in a bed about two feet thick along the Beaver, under four feet of dirt.

Rev. C. C. Starbuck, the brilliant and learned Congregational minister who often wrote for THE JOURNAL, sent from Clarion, Ohio, congratulations on the nomination of his neighbor Garfield.
Dave Anderson knew the great value of printer's ink and how to use it to advantage. One of his notices read: "One yoke heavy oxen and three good ponies for sale cheap for cash or on time."
Governor Nance commissioned James E. North and other prominent men of the state as delegates to attend the second annual national convention of charities and corrections to be held at Cleveland, Ohio.

Jacob Teuchnid and J. F. Meyer were on the market here with their clips of wool, Jacob having 1,200 pounds. Pat Murray had 3,000 pounds of his own clip. Barker & Newman shipped 18,200 pounds.
The dwelling house, granary, etc., of Dan. Kelly, about two miles east of Gleason's on Shell creek, were torn to pieces in a storm June 11, loss \$400. At Platte Center considerable damage was done in the smashing in of windows.
John C. Henry, of Fremont, youngest son of A. Henry met a tragic death on the cattle range fifty-five miles west of Plum Creek, when he and his brother R. H. of this city were engaged in "cutting out" some cattle from the herd, when his horse stumbled, pitching Mr. Henry off, he striking the solid ground squarely upon his head. He was not conscious afterwards, and died within three hours.

Referring to the fact that Fremont had organized an association for securing business enterprises for that city, and that a creamery was the first fruits of the association, THE JOURNAL remarked, what is even truer today: "There are in Nebraska opportunities enough for making money every family prosperous, the men with money in bank, the women with some grateful leisure time for social intercourse, the children fat and happy."
In those days Schram Bros. and I. Gluck were the advertisers for dry-goods, etc., in THE JOURNAL; Lubber & Kramer for books, etc.; Daniel Fancette, harness; F. Schack, cigars; Robert Uhlig, farm implements; Louis Schreiber was just where he is now; E. D. Sheehan was one of several business men south of the U. P. freight and passenger depot on Eleventh street; C. B. Stillman was well-known; and Charles Schroeder and A. W. Lawrence, windmills; J. M. Honahan, also Wm. Schilz, boots and shoes; and E. D. Fitzpatrick was making use of THE JOURNAL's cannon and flag to "boom" his own fireworks for the Fourth.

Richland and Vicinity.
Mrs. Elizabeth Bell of Norfolk is here visiting the family of her son, John Bell.
Misses Evelyn and Plessie Drinn visited over Sunday with friends at this place.
Joe Berny and expert were out starting a new Champion binder for Clint Stevenson Sunday.
Mrs. Carl Reinko and Mrs. Emma Bradshaw of Columbus spent Friday with Mrs. Maggie Stevenson.
Misses Jessie, Freda and Hazel Miller of Fremont are enjoying an outing here with relatives, Mr. and Mrs. John Hansen.

Rev. Anderson has recently painted the M. E. church, parsonage and has just completed the school-house with a neat coat of paint, all of which, with the addition to Reich Bros.' elevator, adds much to the appearance of our village.
Presiding Elder Millard preached a fine discourse Sunday evening and held a business meeting after service. New officers were elected and a motion carried that Rev. Anderson be sent here next year from conference and that Rev. Millard be returned to this district as presiding elder.

Sunday about 11 a. m. while the family of Sam Miller, who live on Joe Beecher's section of land, were returning from church services, they discovered a fire coming across their winter wheat field and hastened home, hitched to a plow, and were just in time to save eight wheat stacks with furrows; but the fire spread rapidly and reached the hay meadow destroying twenty tons of hay. Mr. Miller is now hunting a clue to the fire as he pays cash rent for the hay land.

Removed!
DR. DASSLER has removed his office and residence to the SEVERE BLOCK WEST SIDE OF PARK fourth house north of Friedlander's store. All calls in city and country promptly attended to by night or day. 17 April

UTAH AN IDEAL CLIMATE

The first white man to set foot on Utah soil, Father Silvestre Valds de Escalante, who reached the GREAT SALT LAKE on the 23rd day of Sept., 1776, wrote in his diary: "Here the climate is so delicious, the air so balmy, that it is a pleasure to breathe by day and by night." The climate of Utah is one of the richest endowments of nature. On the shores of the Great Salt Lake especially—and for fifty miles therefrom in every direction—the climate of climate is found. To enable persons to participate in these scenic and climatic attractions and to reach the famous HEALTH, BATHING AND PLEASURE RESORTS of Utah, the UNION PACIFIC road made a rate to OGDEN and SALT LAKE CITY of one fare for the round trip, plus \$2.00, from Missouri River, to be in effect June 18th to 30th inclusive, July 10th to Aug. 31st inclusive. Return limit Oct. 31, and \$2.00 for the round trip on July 1 to 9 inclusive, Sept. 1 to 10 inclusive.
Proportionately low rates from intermediate points.

Why Not Go to California?
Here's a suggestion for a holiday trip. Buy a round-trip ticket to San Francisco at the reduced rates which will be in effect on account of the Epworth League meeting in that city in July—go west by way of Denver and Salt Lake City, past all the glorious mountain scenery of Colorado and Utah—spend a few weeks in California—come home via Portland, Seattle, Tacoma, Spokane and Billings, Mont.
If you have time, stop off and see Yellowstone Park. A month is sufficient for the entire trip. In that time you will see more than most people do in a lifetime.
And the expense is almost unbelievably small.
Write for a copy of the Burlington's Epworth League folder, which tells all about it—gives you just the information you need about rates, routes, through cars, scenery, stop-overs, etc.
