COLORADO has been a state twenty-five years.

TOTAL deposits of the Omaha National bank was \$25,749,069, at the last call.

It is positively asserted that Mr. Kruger will visit the United States in September.

A SHIP load of cigars is the first recognition that Porto Rico is like unto the other portions of the United States.

O. A. GADEKA, near Osceola, riding on a wheel passing over him and breaking his neck.

DURING the last five months the South Omaha firms have slaughtered over 1,025,000 hogs, and salted them in the packing houses.

A WOMAN'S college of matrimony is to be instituted at Chelsea, England, the course of study to include cooking, sewing and laundry work, physiology and medicine.

It is thought that Jere M. Wilson, the most distinguished lawyer in Washington, will represent Admiral Schley in the coming inquiry.

FRIDAY Theodore Roosevelt, vice president of the United States, at Colorado Springs, Colorado, spoke to 10,000 people on the growth of the west during the last quarter of a century.

JOHN KIMBLE, aged 76, and Miss Jessie Vrodney of 16 were married at Omaha Thursday. Two years ago the marriage was interfered with by the children of the aged groom.

Six hundred acres belonging to the Eberly estate, eight miles northeast of David City, was sold Thursday by the executor to the highest bidder for cash, and brought \$53,500 an acre, or \$32,100.

FIFTY carloads of Russian hard wheat have been received at Kansas City, at a cost of \$2.33 a bushel, and is to be used for seed in Kansas and Oklahoma. The purpose is to improve the quality of hard wheat for export flour.

A STUDENT named Galbraith who had been rooming at the Normal territory was discovered Tuesday last week to have smaller in a mild form, and was removed to the county hospital. The Fremont Tribune does not speak of any other case.

JAMES WILSON, secretary of agriculture, visited the state last week, to see for himself the condition of affairs, especially as to injury inflicted by the hot weather. Among other suggestions made was one that the cultivation of cannae be tried in Nebraska. It is a sort of dock, is grown in North and South Carolina, also in Texas; the root is used for tanning, for which purpose it is better than oak bark, and the market price is generally about \$50 a ton.

During the first twenty days in July, in spite of the reduction of war taxes, the revenue of the government has been \$1,000,000 greater than in the same season last year. The surplus is always an interesting subject under a republican administration.—St. Louis Globe-Democrat.

We notice that when mayors desire to enforce laws they can pretty generally find a way to do so. A number of dilapidated buildings in Omaha are to be torn down, or else the authorities must have better reason for letting them stand than they see in sight.

"RAINMAKER WRIGHT" continued his desultory bombardment of the atmosphere last week in East Lincoln, Nebr., not being discouraged at all. The intense condition of the air, he claimed, required more force than usual to dislodge the moisture. He used twenty-five mortars.

THE Wahoo News Era says: "We are in favor of 'hoisting high the populist banner,' because therein lies the key to the situation. Let the impression become general, in the populist ranks, that we are going to be absorbed by the democratic party and fully one-third of the rank and file of the populists will return to the republican fold."

ALL reports from Porto Rico show that the island has never been as prosperous as at present and that industry of every kind is gaining ground. This has been brought about, not by the investment of foreign capital from any source, but simply from the more favorable conditions under American rule.

The island is phenomenally rich and all that is needed is an opportunity to develop its resources.—Omaha Bee.

OVER 50,000 acres of unoccupied lands in Nebraska, Wyoming and Kansas were disposed of during one week recently, the largest amount in any one week in the history of the land department. The majority of sales were to Danmarks, who attended the conference of that sect at Lincoln, Nebraska. Large numbers were induced to give up their eastern homes—most of them in Pennsylvania—and settle in the west.—Exchange.

It seems that there is no provision made for homeless children that are diseased and crippled. An effort made last winter to that end, but it was unsuccessful. The Homeless Children's Advocate says: "Certainly it is a sad comment on our state that no provision is made for homeless children that are diseased and crippled and cannot be placed in private homes. I trust the time may soon come when our law makers will make suitable provisions for this class of unfortunate, for they are certainly entitled to consideration before the children of an eastern state and society."

THE eastern boys sometimes get a little cute, as witness an old time saying that we heard before coming west:—"God has not crossed the Missouri river." This is a reflection on the Almighty and intended as a joke or slur on the people who ought to be his lawful and dutiful subjects. The Detroit Journal's "joke" is not quite so broad, but it is after the same manner: "The drought has not been an unmitigated evil. It has at least introduced prayer into Nebraska." Perhaps the Detroit editor's prayer is not up to the standard—"Prayer is the soul's sincere desire, expressed or understood." For true, unadulterated good-will Nebraska is probably not excelled anywhere on earth, but even Nebraskans are not perfect.

Hicks on August Weather.

The moon at full July 31, and near the equator, reactionary storms are due in the eastern part of the country. Threatening stormy weather on August 1st. From the 6th to 9th look for a very warm wave, culminating in thunder storms with hail and high winds. Following these storms a very marked fall in temperature. The temperature will rise very high about the 14th, with storms until July 15th. We know of no reason why we should expect a decided change from very dry weather generally in August, but save starting downpour of rain and hail are quite probable in narrow localities on the central storm days during the Venus period which continues until after the middle of August, or until after the effects of the equinox begin to make themselves felt. Intense local storms will be preceded by very high temperature, and phenomenal drops of temperature will follow the sections which have storms. From 17th to 20th very severe summer storms may be looked for in the interior and on the coast. On the 24th and 25th there will be reactionary storms. The regular Vulcan storm period is central on the 28th. The probability is that generous rains will visit many localities during the closing storm period of August.

[From the Leader.]

Tom Finch of St. Edward met with a serious accident last week. He got his thumb tangled up with a halter strap and lost his thumb as a result. Tom is rather unfortunate as he has suffered from both a broken leg and a broken arm within the last year.

An alarm of fire about 2 p. m. called our citizens out in the sweltering heat on Friday last. The fire was found to be in P. L. McFadden's coal house which was nearly consumed before the flames were extinguished. The fire is supposed to have been caused by spontaneous combustion.

The bids for erecting the new buildings at the Indian school were opened at Washington on Monday. Andrew Hewitt of Omaha was the lowest bidder for the two buildings combined. His bid on the school building was \$22,900; and on the hospital \$35,300, total \$58,200.

John Paton of Fullerton died on Sunday last after a long illness caused by the hot weather. Mr. Paton was an old resident of Nance county and well known throughout the county. He leaves a widow and two children. Mrs. Paton, who was formerly a resident of Genoa, has the deep sympathy of her host of Genoa friends in her hour of sorrow and affliction.

Richland and Vicinity.

CIRQUE DAY COMING.

Public Expectation Aroused by Ringling Bros' Famous Big Show.

Enthusiastic expectation has been aroused by the anticipated engagement of Ringling Brothers' famous big show in Columbus and no one need be informed that next Saturday, August 10, is circus day. The fact is stated to all, for the date of the big show starts one in the face from every point of vantage, while the entire city has assumed the appearance of an open-air picture gallery. Stylized riders, pirouetting upon the backs of madly-dashing steeds; human meteors, whirling through space; acrobats, performing the most incredible feats of strength and daring; elephants, imitating the comical or the human actor; the fierce beasts of the jungle and the strange and curious things of foreign lands—these are the things that have been pictured in brilliancy of coloring and perfection of detail—on paper. Now comes the reality. The new big parade, the great canvas exhibition pavilions, the managerie and the augmented circus company are all indicative of this resolute spirit of expansion. The elaboration and growth of the great street pageant are especially notable. The parade, which will inaugurate circus day in a blaze of splendor, will leave the exhibition grounds between 9 and 10 o'clock, and the route will be the usual one over the principal downtown streets. The parade is an immense affair. It is over two miles in length, and divided into thirty distinct sections, each illustrating some historical period or the characteristics of some far off nationality. Reentered numbered seats and admission show day at Pollock & Co.'s drug store at exactly the same price as charged at the regular ticket wagons on the show grounds.

UTAH

AN IDEAL CLIMATE

The first white man to set foot on Utah soil, the brave Silvestre Velez de Escalante, who reached the GREAT SALT LAKE on the 23rd day of September, 1776, wrote in his diary: "Here the climate is so delicious, the air so balmy, that it is a pleasure to breathe by day and by night." The climate of Utah is one of the richest endowments of nature. On the shores of the Great Salt Lake especially—and for fifty miles therefrom in every direction—the climate of climate is found. To enable persons to participate in these scenic and climatic attractions and to reach the famous HEALTH, BATHING AND PLEASURE RESORTS of Utah, the UNION PACIFIC has made a rate to OGDEN and SALT LAKE CITY of one fare for the round trip, plus \$2.00, from Missouri River, to be in effect June 18th to 30th inclusive, July 10th to Aug. 31st inclusive. Osteopathy, the Druggists Science.

It is a means of curing diseases, without the use of drugs or the knife, by using the hands to remove any pressure on the nerves, arteries and veins, so that the circulation of the fluids and gases of the body will be restored to a normal condition. It is based on a knowledge of the anatomy, physiology and chemistry of the human body. Osteopathy cures all curable diseases.

The suspensory treatment cures curvatures and all abnormalities of the spine, when all other methods fail. This device is something new, and we would be glad to have those who have spinal troubles call and investigate this new treatment. Consultation and examination free.
