—Ellis G. Brown, U. P. agent at Humphrey, returned Saturday from his sojourn in the Oklahoma country. As with all other pilgrims, he gives a graphic description of the crowded trains, the overflowing hotels, restaurants and sleeping places during the rush for the land-lottery. He says that the new part is much like the old, evidently, for quality of soil, and the main products there are winter wheat and kafir corn. The numerous allotments for the Indians would not suit some people, but it is supposed that most of such land will be available to renters at about 25 cents an acre per year.

—J. C. Swartley came up Friday from Lincoln, where he has been the farmer at the State hospital for the insane. He intends visiting his children here and will later make an extended visit in Illinois. Mr. Swartley says the crops are all dried up around Lincoln.

—Among those in this section of the state who drew numbers in Oklahoma, are: Oliver Harris and E. J. Dodd, Adolphson; Robert Sutton, Monroe; Adolphson; Joseph Schmitt, Schuyler. Laers and Schroeder left last week to make their choice.  
—A host of Albion people went to the dedication of the M. E. church at St. Edward Sunday. They report a big time, big crowd and a neat house. Bishop McCabe was there. The collection was nearly \$800, which put the finances in a very satisfactory condition.—Albion Argus.

—The Bradshaw Republican calls attention to the fact that some people are bothering themselves to show that the late rain was not in answer to prayer, and says: "Let that be as they say, no one will be so foolish as to deny what we see, while even good people may differ as to the influence that brought it."  
—Prof. Blackman of Roca was in the city one day last week on his way to Monroe. For the last three weeks he has been engaged in investigating a diat quarry at Nehawka, Cass county, and has made some valuable discoveries that will make an integral part of the records of the State Historical society.

—The Boone County Advance of St. Edward gave an illustrated supplement with their last issue, showing the newly dedicated Methodist church, of which Rev. E. B. King is pastor. In the biography of Rev. King, mention is made of his having received an offer of a pastorate in Monte Video, South America, which he may accept.  
—In candle-making some eggs the other day from Oct. Rapids, Frank Hagel found two that were "off" for commercial use, and laid them one side in a cigar box. The heat was so intense that one of these was hatched out, and the little chick was very chirpy on Wednesday, but the total situation was such that on Thursday it succumbed to the inevitable.

—L. E. Wellman shipped in a carload of colts last week and has been selling them out to the farmers in this vicinity. There were forty-two of them and on Saturday and Monday he sold thirty-two head. The prices ranged all the way from \$3 to \$10 per head. They are pony colts, but they are well bred and will probably make good driving horses.

—On Tuesday afternoon of last week Paul Roen and Gilbert Anderson, lads under 12 years of age, had an altercation of some sort, a company of boys being together. —Nye & Schneider have received sample ears of corn taken from fields near Nickerson, Dodge, Crowell and other places in the northern part of the county. These indicate that the crop throughout the county will be much similar to what it will be in the immediate vicinity of Fremont. All of the ears show a stunted growth and their kernels are in a very poor state of development for the most part.—Fremont Tribune.

—Coming to the rescue with an extra \$1,000 at a critical time, and on general principles, stockholders have given the name of North opera house to the prospective building, which, all told, will cost about \$22,000. C. J. Scott has the contract, his bid, \$15,000, being \$1,500 less than that of his lowest competitor, the building to be completed December 10. The building committee are: J. E. North, Herman Oschrick, Jonas Welch and George Lehman. Excavation will be begun at once.  
—Olof Larsen reports that he received \$5.50 per acre rent for some land which a tenant had in wheat this year. Olof says he thinks he can make a good living in Nebraska without going to Oklahoma... S. T. Battles threshed seventy-five acres of winter wheat last week which yielded forty bushels per acre. He has one hundred and sixty acres more which he thinks will return a yield equally as large. If his prediction proves correct he will raise 3,400 bushels of wheat from 250 acres, which at 50 cents per bushel will bring him over \$4,000.—Geos. Lender.
