ises every morning and the last to leave at night. His father held the keys before him, having joined the house of Gillow's in 1801, so that the present year crowns "a century of ser-vice" by father and son. Just a Spite Case. Mrs. M. A. Radcliffe of Denver, Colo.

who was arrested on charge of illegal voting, has been discharged by the court, not a particle of evidence being presented. It was a case of anti-suffrage spite, and the accusers were well raked over for their meanness. So the case of the first woman ever charged with illegal voting turns out a boom-

Charleston Wants the Liberty Bell. The managers of the South Carolina xposition, to be held in Charleston, opening next December, have asked to have the Liberty bell in Independence hall. Philadelphia, loaned to them for exhibition during the continuance of the fair. They plead that it would excite patriotic enthusiasm.

.Who is it that does not wish to be out in the open air or alive in some field of sport, whether it be with the bat, rod or gun; whether we go coasting over the hills and vales on the wheel or sailing over rough waves or into serene coves, it is all sport, and the springing muscles seem to need it. It is bound to happen that some mishap will occur. Thus it is that we have sprains in abundance. Light sprains, sprains that cripple, sprains that give great pain, sprains that rob us of sleep, but sportsmen of all kinds have come to know that there is nothing better than the old reliable St. Jacob's Oil. Have it with you for use; you may rely on its cure of the worst

Greatest Codfish Catch.

sprain and restoration to the com-

forts of life.

What is reputed to be the largest catch of codfish in the Pacific waters is credited to the crew of the barkentine Fremont, which arrived at San Francisco last week with 177,000 of the fish stored away. Most of the catch was in Bering sea.

One size smaller after using Allen's Foot Ease, a powder. It makes tight or new shoes easy. Cures swollen, hot, sweating, aching feet, ingrowing nails, corns and bunions. All druggists and shoe stores, dress Allen 8. Olmsted, Le Boy, N.Y.

Your living speaks louder than all

Don't ache, use Hamlin's Wizard Oil. Rheumatism, neuralgia and all pain banished by it. See your druggist. The value of your life may depend on your estimate of its leisure.

Prevented by Shampoos of CUTICURA SOAP and light dressings of CUTICURA, purest of emollient skin cures. This treatment at once stops falling hair, removes crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails,

Assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTIQUEA SOAP in the form of baths for annoying irritations, inflammations, and exceriations, for too free or effensive perspiration, in the form of washes for ulcerative weaknesses, and for many antiseptic purposes which readily suggest themselves to women and mothers. No amount of persuasion can induce those who have once used these great skin purifiers and beautifiers to use any others. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients, and the most refreshing of flower odours. No other medicated soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the tollet, bath, and nursery. Thus it combines, in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, and the BEST toilet and baby soap in the world.

Complete External and Internal Treatment for Every Humour,
Consisting of CUTICUEA SOAP, to cleanse the skin of crusts and
scales and soften the thickened cuticle; CUTICUEA OINTMENT, to
instantly allay litching, inflammation, and irritation, and soothe
and heal; and CUTICUEA RESOLVENT to cool and cleanse the blood.
A SINGLE SET is often sufficient to cure the most torturing, disfiguring, itching, burning, and scaly skin, scalp, and blood humours,
seales, litchings, and fritatione, with loss of hair, when all else fails. Sold throughout the
world. British Depot: F. NEWBERY & SONS, 27 Charterhouse Sq., London, E. C. POTTER

Later on it will be submitted to the President. Senator Fairbanks of Indiana has consented to introduce the bill on the

opening day of the first session of the Fifty-seventh Congress. He says he has no doubt that it will be passed. General Grosvenor of Ohio will become sponsor for the bill in the House, and he says significantly in discussing its purpose, "I do not believe there

will be much opposition to it."

ACCUSED OF KNOWING PLOT.

Man Arrested Who Offered to Bet Presi-

dent Would Be Killed. On the theory held by United States secret service agents that the city of Camden, N. J., contained one or more persons to whom the plot to assassinate President McKinley was known, Ethelbert Stone, an employe of the New York Shipbulding Company in South Camden, has been arrested by County Detective John Painter. The direct cause of Stone's arrest was a remark he made while engaged in a heated discussion with Oscar Hansen and Andrew Peterson, fellow employes, just previous to the receipt of news from Buffalo. Stone concluded his ar-

"I will bet \$5 that McKinley will be killed before 8 o'clock to-night." When the news of the attempted assassination was received a few hours later the remark was remembered and

gument with these words:

on Monday the employes told General Manager May about the matter. He asked the Camden police to investigate it. When taken before Prosecutor Lloyd after his arrest Stone admitted having

made the offer to bet, but insisted that it was a joke. This story, however, is not believed by the detectives. A search was made of Stone's house

at Ferry road and Seventh street and incriminating evidence, it is said, was PROOF HARD TO FIND.

As events and circumstances begin to shape themselves the police of Buffalo and the men of the United States secret service who are there are being forced to the conclusion that Czolgosz acted without prearrangement with any living person when he shot President McKinley in the Temple of Music on the exposition grounds last Friday, says a Buffalo telegram.

This, too, is the opinion of Secretary Root and Attorney General Knox, who have heard accurate accounts of what Czolgosz has said to the police and the district attorney in the several interviews he has had with those officials. While they believe that he was encouraged to attempt the President's life by incendiary writings and utter- advocate and street speaker, whose de- we are upstairs. has thus far been on a small scale. Plants capable of irrigating 6 to 8 acres are the rule. They have, however, clearly demonstrated two points first, an irrigation plant is a desirable adjunct to a farm; and second, that it pays. In most cases the water has been applied by pumping, either from a stream or from wells. The cost of these small plants is relatively large per acre, yet in all cases they have proved profitable, because the water has been used for such crops as are liable to suffer seriously in case of short drouths. Of the eight small plants of which full data have been obtained, the initial cost per acre for them ranges from \$25 to \$100, and, with the exception of one case, the water is applied by pumping; in four cases it is obtained from streams, and in the others from wells, and the returns thus far have in all cases paid a large rate of interest on the invest-

anarchists were concerned in the attempted assassination of the President. The question of small plants and their erection and equipment has been The police have utterly failed in their well worked out, and one capable of search for evidence of a plot and are furnishing water for from 6 to 8 acres convinced that none existed, at least can be erected and equipped for from \$400 to \$500, depending on the location of the land in reference to situation of the water-that is, whether the point plot existed, says a dispatch from that to which the water is to be raised be high or low. This does seem a relative-Residents of the Newburg district, ly high initial cost as compared with particularly the workmen who are that of canals and ditches or even of rought into daily con act with the storage, but as used in intensive pracforeign element of the population, are tice and for crops of a high commerunanimous in the opinion that the recial value these plants do return a large profit on the investment. The information thus far gathered indicates that irrigation is desirable in the humid districts, and that small plants, while relatively expensive, are pracuncommunicative people and it is little ticable and result in greatly reducing wonder that the city police have been the effects of a deficiency in rainfall.

Care of Trees from the Nursery. Whether purchased direct from the growers, or ordered through agents, care should be taken that the roots of the trees are not exposed to the action of the sun and dry winds. The practice of many farmers of placing the bundles in their wagons and driving home without taking any pains to cover them to prevent the drying of the roots has undoubtedly caused the loss of thousands of nursery trees. Wet straw and blankets should always be provided when notice has been received that the agent from whom the

in. When received in the fall, unless one has a cellar, where the temperature can be kept just above the freezing point, in which they may be placed with their roots in the soil, it will be desirable to heel in the trees in some well-drained spot, where there will be depth and about three feet wide, in which the trees should be placed with the tops inclined toward the south at an angle of about twenty-five or thirty degrees from the horizontal. The bundles should be opened and the soil thoroughly worked among the roots and pressed about them. It is always advisable to have the trunk and greater part of the branches covered, especially in the case of peach and other tender fruits, and whenever fruits have not been thoroughly ripened. Care out of shape the muscles of the back. should be taken to have no straw or | This is commonly known as backache, rubbish about the trees, but it is a a crick in the back, but by whatever good plan to use evergreen boughs to name it may be known, and however break the sun's rays and prevent the as the rapid thawing of the trees after | flicted part will drive out the trouble a severe cold spell. The Hawall Experiment Station. A United States Experiment Station is in process of being establihed on the Island of Oahu, one of the Hawaiian group. The piece of land to be used begins in the suburbs of Honolulu, and is at that end only 100 feet above the sea. It rises gradually for a distance of two miles, and is at that distance 1,400 feet above sea level. The lower slope is densely covered with thickets of native growth, but the upper third is covered with a planted forest of Australian Eucalyptus, Acacia and Grevilla species. The buildings are now being erected. One of the important lines to be taken up is that of the production of hay-making grasses. All hay is now imported and retails at \$27 per ton in Honolulu. Another line to be followed will be an attempt to ensilo the tops of the sugar cane. At the present time all of this material is dried and burned. The cultivation of citrus fruits will also begin, in an attempt to give the natives some product they can export at a profit. Poultry culture will also be when she went to St. Louis and at- home I left a nickle prominently dis- investigated and stimulated. At prestended several conferences with an- played on my desk.
