—There is a well on the farm of Henry Clapp near Plattsmouth which sets very much like the peculiar well on the premises of George Hengeler, several miles northeast of this city. The Plattsmouth well during pleasant weather gives forth strange sounds much like sobe and moans. During this period of activity, if a bucket of water is poured down, the current of air is strong enough to force it out again.

—Humphrey Democrat.

—William Seiff is now in the county jail at David City, under a charge of bigamy. A dispatch says: From the evidence it seems that some time during the summer of 1901 Seiff met Miss Nellie Engardt of Bellwood in Omaha and made love to her, saying he was a single man. Some time later in the season Seiff came to Bellwood and, as he usually, married Miss Engardt, not in the usual way, but each signing an agreement to take each other for better or worse, alleging this to be a common law marriage. Some of Miss Engardt's relatives suspicious that the marriage was crooked and began an investigation. They allege to have learned that Seiff has a wife and two children about 12 and 14 years of age now living in Chicago.

—The question of telephone service is becoming an interesting one in several towns of Nebraska, besides Columbus. The Omaha Bee had the following special: "There has been recently granted two telephone companies franchise permitting operations in York, and at last night's meeting of the city council Messrs. Orson and Clark of this city introduced an ordinance granting them a franchise to put 1,000 telephones in the city of York. These instruments will be operated in a different manner from the Nebraska Telephone company. Customers are to pay as they use the telephone by dropping a penny in a slot. The York County Farmers' Telephone company has put in its poles and is stretching its wire, and York will soon be connected with another large local telephone company."

—The sharp advance in the price of meats is making serious inroad into the treasuries of the hotel and restaurant proprietors. The Omaha World-Herald of Monday says: At the meat markets it is said that the rise in the price of all meats has averaged between 2½ cents and 3½ cents in the last five or six weeks. Many of the smaller markets are just barely struggling along under the burden, and a further increase, it is feared, will cause a number of them to go under. At Lamer's Central markets it is said that beef has not been as high as it is now for about eighteen years, and while it is ten years since pork and mutton were at their present figure. At most of the small shops retail prices run something like this: round steak, 15 cents; sirloin, 18; porterhouse, 25; pork chops, 11; mutton, 15. One or two of the down-town shops that buy their own stock and do their own killing are able to make a slightly better figure, but even these report an advance of about 3 cents all around in the last six weeks.
