A FAMILY MATTER

It is a family matter when the problem of buying groceries is under consideration. The wife knows what brand of goods has the flavor that suits the taste, and she knows from experience just how much the best should cost. Your part of the matrimonial contract in this respect is to let her choose her groceries—she can do it much better than you—and her mind will tell her to buy her provisions here.

Crockery is something we make a specialty of. Good quality and low prices are jammed together in each article.

Chinaware for use and ornamental purposes in large varieties at prices that cannot help but tempt your pocket-book and the quality is in every piece.

Woodenware Wash tubs, bowls, baskets, etc., in an almost wholesale variety. The prices on these articles are low while the quality is high.
