The first service will be held the 20th in the Methodist church. John Umland, the U. P. machinist, wishes us to correct a statement made in last week's issue in regard to wages paid him by the company. Mr. Umland says when he works ten hours a day for thirty days he receives \$90; he gets over-pay above this when he labors over ten hours. In other words, he does not get \$100 to \$120 per month for eight hours' work. County Clerk Phillips reports the following mortgages filed and released during the month of June: Real estate filed 17, amounting to \$22,633.31; same released 25, amounting to \$22,907.65. On city property 16 filed, amounting to \$11,951.21; same released 9, amounting to \$6,975. Chattel mortgages filed 63, amounting to \$67,122.33; same released 24, amounting to \$11,466.79. Otto Kummer gives an interesting account of the organization of the county of Polk, how that a meeting was called at a school house in a certain section of the county, and how R. Kummer, now of this city, with one of his sons found the place by following the directions of a compass which they carried. This was in 1871. Among the few who attended the meeting were Sam Frowest, George Grant, J. G. Mickey and John H. Mickey. The latter is the present republican candidate for governor. Mickey was elected first treasurer and continued to serve in the same office for ten years with perfect satisfaction to all the people of the county.

H. E. Babcock and W. L. Chomowick of this city, Prof. R. M. Campbell of Humphrey and E. L. Long of David City are here Monday for a trip up the lake and down the Hudson river to New York City, talking about two weeks' sightseeing. Mr. Babcock and child go as far as Saddle Creek, Michigan, where they will visit for some time. The Genes Leader published with their last week's issue, a very neat twelve-page souvenir edition in magazine form containing many half-tone illustrations and descriptions of the leading business men, their occupations and their homes, the broadest circulation of which will prove a splendid advertisement and bring good results to the thriving neighbor town up the valley. At a recent meeting of the Humphrey school board, \$100 was appropriated for the use of the county teachers' institute for the next year, provided the same shall be held at that town. The Democrat says: "This is done to afford the people of this part of the county an opportunity to derive the benefit in an educational way which usually comes from a gathering of this kind." Sunday last about sixty people went with the Columbus ball team to Grand Island where a game was played in the afternoon in which the Islanders were victors by the score of 16 to 7. The home team was somewhat handicapped as the pitcher they expected failed to put in an appearance, and the regular twirler, Harry Lohr, was suffering from a lame arm. Next time they will probably be in better shape. The two Becker brothers of Grand Island were in town a few hours one day last week on their return home from David City Chautauque where they had been filling a musical engagement. Henry, who some ten years ago made good music with the Columbus band, also a composer on the Biene under J. N. Kilian's regime, looked natural and seemed pleased to meet old-time acquaintances. The brothers are now conducting a music store in the Island. At the combination sale of Polled Durham and Shorthorn cattle held in South Omaha on June 26, Albert Stenger bought the yearling bull "Young Perfection," weight 900 pounds. The sale was well attended and the 42 head of cattle sold brought an average of \$141.20. Mr. Stenger is one of our most progressive farmers and believes that the best that can be procured is none too good in adding to his herds or in making improvements on his valuable premises just east of this city. William Graves returned Monday last week from a business trip of over two months in northwestern Iowa. During the storm at Blando a few days ago he saw three cars standing on the railroad tracks overturned by a small "twister," falling on a man who when released was found to be crushed to death. Mr. Graves tells us that his son George, who has been at Sheridan, Wyoming for some time, has gone to the Thunder Mountain country. A citizen of Polk county called at JOURNAL headquarters Saturday. When asked what he and his neighbors generally thought of John H. Mickey, his answer was, "He is one of the best men in the state." He further stated that "Mickey was Polk county's first treasurer, holding the position for ten years, or five terms, and upon turning his stewardship of the county funds over to his successor every cent was accounted for, besides every man in the county was his friend." That kind of a man will make a good governor.

Rev. and Mrs. Elliott and son Paul visited the families of W. A. McAllister and C. J. Garlow several days, going Monday to Coleridge where Rev. Elliott takes the pastorate of the Presbyterian church. They have been in California all winter where Rev. Elliott has had charge of a church. Friends, who know the family while they were here a few years ago, will be glad to know that the two older boys, Alfred and Newell, are among the highest in their classes at school. Alfred, after graduating from the State University, is now at Princeton. Newell is still a State University student, and the past few weeks has been filling his father's place as pastor in Coleridge. Until recently the family have been making their home in Beatrice for about two years. Coming home from the convention last week we stayed over night in Columbus. For the first time in our life we wandered out to the court house and as we journeyed we wondered why they didn't locate it in the business portion of Fremont instead of the suburbs. Arriving at the seat of justice, or injustice, we were almost filled with envy when we observed the beautiful shady park in which the house is located and remembered the other little fascinating spot where lovers wander in the gloaming, which belongs to the little city that Columbus has two such dreams of Paradise and Albion has not even the picture of one is enough to make one weep over the frail shortighted humanity of Loren Clark, John Peters and others that they did not make this provision twenty-five years ago. Can't some one suggest how it might yet be done? We must have a park and that right soon.—Albion Argus. The following from the Platte Center Signal may concern a good many of our readers and if heeded may save them trouble and expense: "Numerous complaints have been made by farmers living along lower Shell creek about the dangerous and innumerable instances of throwing dead animals into the creek. A petition has been circulated among the prominent farmers of lower Shell creek and business men of Columbus, which petition sets forth that unless the practice of throwing dead animals into the creek is abated the malefactors will be arrested and punished according to law. We extend this warning to the farmers living along Shell creek in this part of the country for the reason that the petitioners have a stringent law on their side and they are determined to enforce it. The habit of throwing dead animals into streams is a criminal offense and should not be tolerated in a civilized community. It spreads contagion of disease to man and beast, and the quicker an example is made of a wrong-doer in this direction the better it will be for the community."

A FAMILY MATTER

It is a family matter when the problem of buying groceries is under consideration. The wife knows what brand of goods has the flavor that suits the taste, and she knows from experience just how much the best should cost. Your part of the matrimonial contract in this respect is to let her choose her grocer—she can do it much better than you—and her mind will tell her to buy her provisions here.

Chinaware for use and ornamentation in large varieties at prices that cannot help but tempt your pocket-book and the quality is in every piece.
