In company with Postmaster Kramer, S. C. Gray and J. C. Echols, Mr. Haynes drove about the city, but did not express himself in regard to what his report would be, and nothing has been done about the matter since that the public is advised of.  
—Andrew Mostek, near Duncan, has in his possession sixty-two head of cattle which he claims had broken pasture and strayed to his fields, for which he asked damages in Justice Hudson's court. When the appraisers reported the cattle to be worth about \$1,250 the man was found to be beyond the jurisdiction of the justice and the case was taken to the district court. The cattle belong to Frank A. Dickinson.

—A very pleasant day was spent at Stevens' lake by the Methodist Sunday school Thursday. The first of the scholars with teachers started from the church at an early hour and by noon there was a good sized crowd on the grounds. A fine basket dinner was served between 12 and 1 o'clock and a barrel of lemonade was provided for the thirsty during the afternoon. Field sports of different kinds were indulged in, such as foot races, potato races, ball playing, etc. besides boating and bathing. Many of the picnickers stayed until the cool of the evening, taking supper on the grounds before returning home.  
—Fred Marolt, living about twelve miles northwest of town, died Wednesday, after a week's illness, having suffered a stroke of paralysis affecting the right side, the 23d of July. Mr. Marolt was born February 1, 1830, in Canton Bern, Switzerland, coming to America in 1869 and settling first in Iowa. In 1882 he was married to Miss Rosina Frieden, who died about a year ago. They had six children born to them, Frederick, John, Alexander, Rosina, Anna and Mina, the oldest son, Frederick, passed to the spirit land in 1890. —We understand that I. Gluck of Columbus has sold his half section of land south of here for a consideration of ten thousand dollars. He purchased this same farm a little over a year ago for fifty-eight hundred dollars. The figures speak for themselves.—Fullerton News-Journal.  
—Rev. J. S. R. Ramman of Columbus, formerly pastor of the Baptist church in this city, preached to a large congregation at Bellwood last Sunday. Arrangements may be made for Rev. Ramman to serve the people of Bellwood of his denomination, in connection with his work at Columbus.—David City Banner.  
—George Lehman, the well-known landlord of the Thurston hotel at Columbus, is in the city at the Murray. Mr. Lehman, after twenty-six years in the hotel business in Nebraska, will retire August 1. He will be succeeded by his son and Mr. Ean, who hails from Seward. Mr. Lehman and his wife will go to the Pacific coast for a long season of recreation.—Omaha World-Herald.  
—John Berringer of Bates, Mo. Maxico, is visiting his sisters, Mrs. E. M. Eismann and Mrs. Charles Hudson. Herman Berringer and wife of Washington, D. C., who have been visiting the same relatives, have gone to Nebraska City to visit Mrs. Loeb before returning home. Mr. John Berringer will also stop there prior to his return to New Mexico.  
—John J. McCarthy, republican candidate for congress for the Third district was in the city several days last week. He is a genial, wide-awake gentleman and made many friends during his short stay in the city; his chances of election are growing brighter every day and we believe no mistake will be made in sending him to represent the interests of the big Third at Washington.  
—Saturday last Jake Brock, chief engineer at the Oldenbush creamery, had a narrow escape from being hurt. In coming to town one of the horses fell to the ground up-setting the buggy, leaving Mr. Brock underneath for awhile and dragging him in that position about a hundred yards. He, however, crawled out of the mix-up without a scratch and considers it a wonder which he will never forget.  
—Miss Murphy of Seward, who is visiting her brothers, Mort and Henry of this city, has been given a position in the Ulysses city schools. The last Seward Blade contained the following item: "Miss Katherine Murphy has been elected to teach the first intermediate department in the Ulysses schools. Miss Murphy was re-elected in the district four miles south of Seward, where she taught successfully the past term, but will accept the position at Ulysses."  
—The Sunday ball game with the David City team was one of the best seen at the park this season, and to many of our "fans" looked like the visitors from Butler county might go across the noble Platte with victory written on their banner, but as a game of ball is never out until played out, and as our team are shiners in the ninth inning, the team from David found that doubtful things are quite uncertain. With the score standing 2 to 1 in their favor at the commencement of the last half of the ninth Columbus spat on their hands, got two men on bases and a nice little tigger by Kavanagh did the business, with none out, leaving the score 3 to 2 for the locals. David should try again.  
—During his recent visit to the Pacific coast Henry C. Bean met several different parties who used to live in Columbus. At Santa Monica, Cal., he saw James Jones at the soldiers' home; at Olvera, same state, he had an interview with Dr. T. R. Clark; at Salt Lake City, Utah, he met Ernest Freston, who favored him by pointing out the many places of interest in that beautiful city; at Cheyenne, Wyo., he chatted with the ever-accommodating, affable John Keating. Mr. Bean tells us that a great change has taken place in that western country since he left it some forty years ago—"wild and woolly" then, now well settled by an enterprising, law-abiding people.  
—The following formula is given by the Nebraska Experiment Station to protect animals against flies: Soap water, oil of tar, and either chloronaphtholene, zanolene or Lee's dip, equal parts. The soap water is made as follows: One bar of soap is chipped into one gallon of water, which is then brought to the boiling point and boiled until the soap is dissolved. To this soap water add equal parts of oil of tar and either of the above disinfectants, and shake until thoroughly mixed. Just before using, this mixture should be diluted with an equal amount of water. This can very easily be applied by means of either a brush, sponge, or small sprayer. This is a very effective and cheap solution.  
—William Mack, brother of Mrs. Carl Rohde and a former resident here who lately became a saloon keeper in North Bend, was stricken with paralysis of the right side a week ago Sunday. For a few days friends had little hope of his recovery, but he is now much improved. Mr. Mack was to have been married in a few days to a Miss Joie Kortge of Seward. A peculiar incident of his affliction was the fact that L. H. Diederich, a friend of Mr. Mack, who went to the saloon in his absence, sat down in the chair which Mr. Mack had occupied before his sickness, and he also received a stroke of paralysis which affected both his lower limbs. Mr. Diederich and Mr. Mack are both improving. The latter was brought here Monday from North Bend to be cared for by his sister.  
—That we have an inventive genius in the neighborhood of Humphrey, says the Democrat, few people know, but such is a fact just the same, and he bids fair to become an inventor of world wide note. The person referred to is August Baumgartner who lives about five miles west of Humphrey, and he has just secured a patent on a life boat which means certain will make him a very wealthy man in a short time. We have not had the pleasure of viewing the model as yet, but the idea we have gained of the boat from printed matter furnished us by Mr. Baumgartner is that the boat is something after the style of a torpedo boat, but the inside is constructed in such a way that no matter what position the boat is placed in the inside remains in the same position. As soon as we are able to see the model we will give our readers a more extended description of the boat. Mr. Baumgartner informs us that he has refused \$25,000 for his patent.
