## CHEERS FOR TAFT

### MANILA GIVES CIVIL GOVERNOR A ROUSING WELCOME.

### ONE GLORIOUS GALA DAY

Chaffee Returns, but is Undecided—Not Yet Determined What to Do with Moros—Taft Reports on Negotiations at Rome.

MANILA, Aug. 25.—Civil Governor Taft reached here at daylight on board the gunboat General Alvaro, from the Straits settlement. He was welcomed with an enthusiastic popular demonstration. The day has been made a holiday. Eight arches were erected. Twenty thousand native from adjoining provinces participated in the demonstrations in honor of the governor's arrival. There was a parade of vessels in the bay and thirty decorated craft carrying members of the civil commission, military officers and the reception committee met the gunboat down the beach and escorted it to the entrance of the Pasig river. The governor was escorted by a large procession to the palace in the walled city, where a public reception was held.

Responding to an address of welcome, Governor Taft outlined the negotiations at Rome and said that all church questions were progressing toward a satisfactory settlement. The governor said the action taken by congress concerning the Philippine islands showed that the American people honestly desired to help the Filipinos. The Americans were determined the islands should not be exploited by Americans at the expense of the Filipinos. Governor Taft predicted that eventually the archipelago will have practically free trade and be congratulated the Filipino people on the restoration of peace. He advised the Filipinos to till their soil rather than waste time in senseless political agitation. He asked for their confidence and support. Governor Taft was given an ovation on the streets during his progress to the palace, and he received another ovation at his reception.

General Chaffee returned to Manila today from his tour of the southern islands. He has not taken definite action against the Mindanao Moros. He regards the situation there as uncertain, but not critical. General Chaffee still hopes that moral suasion may prevent a conflict, and has directed Captain John J. Pershing, of the Fifteenth infantry, commander of the American column at Lake Lanao, to open communication with the sultan of Bacolod and ascertain the reason for the repeated attacks by Moros on American soldiers when the latter were not offensive. He will await a reply from the sultan before taking further steps. At one place General Chaffee conferred with a number of Moro chiefs, including some from the Lake Lanao district. The conference was quite friendly and the leading chief agreed to visit Captain Pershing.

### ARMY AND NAVY TO CLASH.

Play at War is to Be Continued by Uncle Sam.

WASHINGTON, D. C., Aug. 25.—The general plan of the joint army and navy maneuvers, which are to begin August 29, as arranged by Major MacArthur and Rear Admiral Higginson, the respective commanders of the land and sea forces at their recent Newport conference, have reached Washington and the instructions which will be issued by the two branches of the service to the opponents in the war game will be prepared here.

These instructions will be of the same character as those which were issued to the commanders of the white and blue squadrons, which now are being fitted with each other off the New England coast. Later on, when the joint maneuvers begin, the character of the problem, as worked out by the war board, together with the instructions and the rules governing the contest, will be made public.

### Charged with Murder.

GUTHRIE, O. T., Aug. 25.—William Smiley, formerly a deputy sheriff at St. Joseph, Mo., and his wife have been arrested in the Wichita mountains and are now being taken overland to Lawton. They are charged together with Charles Dixon, with the murder of Edward Winn and the shooting of Alexander Winn on August 14, near Wildman, O. T., in a dispute over a mineral claim in the mountains.

### Thomas Lipton in Accident.

LONDON, Aug. 25.—Sir Thomas Lipton was in an automobile accident while coming to town today from his country house. His twelve-horse power car, which he was driving himself, skidded on the street car rails at Woodgreen and crashed violently into the iron railing bordering the road. The car was wrecked and the railing was smashed for a considerable distance, but Sir Thomas escaped with a shock and a few bruises.

### Hollow Plugs in His Noes.

SAN FRANCISCO, Aug. 25.—An accidental blow on Henry Miller's nose, inflicted by William Courtleigh during the performance of "Camille" at a local theater on Wednesday night, caused the blood to flow, but at the time no serious damage was supposed to have resulted. A careful examination, however, has shown that the nose was fractured in three places and Mr. Miller is now obliged to wear hollow plugs in each nostril.

## SCHOOL LAND LEASE CONTRACTS

### Holders Are Anxious to Obtain Full Possession.

### GOES FOUR AND A THIRD CENTS OVER FORMER FIGURES.

LINCOLN, Neb., Aug. 25.—Recent comment regarding the applications for the transformation of lease contracts on school land into sale contracts has had the effect of greatly increasing the correspondence of the land commissioner's office, for lease holders all over the state are anxious to obtain full possession and ownership of their land.

Under the law which remained on the statute books of the state from 1873 till 1897 a lease holder was entitled to purchase the land he occupied, provided he fulfilled all the obligations of the contract and would pay the state the full appraised value of the land. The legislature of 1897 repealed this law. Former Land Commissioner Wolfe held that the repeal of the law invalidated the contracts and therefore he rejected all applications for the purchase of land. Mr. Folmer regrets that he is forced to take a different stand, for he would prefer to have the state keep all of the school land, but he recognizes the fact that the contracts entered into by the state under the old law cannot be repudiated. Holders of leases given prior to 1879 have also asked to buy their rented land, but all of their applications have by both commissioners been rejected, for the law under which their lease contracts were given made no provision by which they could buy the land, as was expressly provided in the subsequent act.

Any person desiring to purchase land under a lease contract given between 1879 and 1897 must pay all expenses of appraisal, review or reappraisal, and they must be willing to pay the full market value of the land. This will be determined by the value of land in the neighborhood vicinity. If land in the neighborhood is worth \$25 per acre on the market, the lease holder must pay that amount or else be satisfied with his lease contract.

### IT IS ESTIMATED THAT THERE ARE UPWARD OF 1,000,000 ACRES OF LAND NOW OCCUPIED UNDER LEASES GIVEN BETWEEN THE YEARS 1879 AND 1897.

## CORNTAKES JUMP

### GOES FOUR AND A THIRD CENTS OVER FORMER FIGURES.

### SEPT. CLOSES AT FIFTY-SEVEN

Accends Excitedly, but Appears to Be Standing Firm—Shorts in Peck of Trouble—Attempts to Cover September Contracts Fall.

CHICAGO, Aug. 25.—Shorts in the corn pit were squeezed badly today and raised a tumult that closely resembled the recent scurrilous when John W. Gates and his clique had July corn cornered.

The action in the pit today was largely the result of the earlier manipulations. When the Gates crowd was pushing prices skyward the farmer took a hand in the business by sweeping his bins clean of corn and flooding the market with millions of bushels. As a result, the corner collapsed and prices fell headlong until September corn recently sold at 50 cents.

From rampant bulls, the crowd had turned bears to a man and sold short many bushels. Now, the corn to fill September contracts is not in sight. The bad weather has retarded the maturing of corn crops until there has been talk that crops may not be harvested until hurt by frosts. Under such conditions shorts want to cover their contract, but holders of the grain are loth to sell.

At the opening of trade everybody turned bulls. English markets were advancing strongly. Cash markets were leaving the market at a good premium over September options. Stocks of contract corn on hand were rapidly diminishing. There seemed no relief for the shorts other than getting stiff in the pit at the best figure. As a result almost 5 cents was added to the price during the morning. September started 1/2 to 1 1/4 cents higher than yesterday's closing price at 53 1/2 to 54 cents and in leaps and jumps rose to 57 1/2 cents.

Excitement continued throughout the session. The old bull crowd was buying and the shorts had little or nothing offered to help them out in their plight. Bears tried to comfort each other with the talk that there are 2,500,000,000 bushels of corn slowly ripening in the fields—one of the biggest yields in history—but this had no influence. At top prices some of the longs let go in dribble lots for profits and prices sided a little. September, however, closed strong and excited, 4 1/2 cents higher than yesterday at 57 cents.

Other markets on wheat responded to the flurry in corn. Wheat had a good bulge. September selling as high as 72 cents and 7 1/4 cents. September oats sold at 34 1/2 cents and closed 1 cent to 1 1/4 cents higher at 34 1/2 to 34 3/4 cents. September provisions fell the corn strength materially. Hogs were higher on the prospect of higher fodder prices and September pork closed 70 cents higher at \$7.85. September lard 40 cents up at \$19.97 and September ribs 2 1/2 cents higher at \$10.12.

### WATER DOCTOR THOUGHT SAFE.

Friends of Captain Ryan Believe Him Acquitted.

WASHINGTON, Aug. 25.—The papers in the case of Captain James A. Ryan, Fifteenth cavalry, who was tried by general court-martial by order of the president on charges of administering the water cure to natives in the Philippines, have been received at the War department and when considered by Judge Advocate General Davis will be forwarded to the president. Captain Ryan did not deny administering the water cure, but insisted that it was necessary in order to accomplish results. He had some trouble with the civil authorities and made a very tart remark regarding one of the judges of the civil government. This was a basis of the trial. On account of the preponderance of the testimony in favor of Captain Ryan it is understood that the court acquitted him.

### Woman Omelet a Mutiny.

DES MOINES, Ia., Aug. 25.—A telephone message from Centerville states that a mutiny occurred in the county jail early this morning, resulting in the serious wounding of Sheriff Davis. The sheriff's wife seized an axe and with the assistance of Deputy Berington, who had a revolver, forced the prisoners back into their cells. The mutiny follows a series of attempts to break jail within the last week, two of which were successful.

### SCHWAB SAILS FOR EUROPE.

Says He is Not in Bad Health and is Taking Vacation.

NEW YORK, Aug. 25.—President Schwab of the United States Steel corporation sailed for Europe today on the steamship La Lorraine. He appeared to be in good health except for the fact that he leaned heavily on a cane which he held in his right hand.

"My arrangements for my trip abroad," he said to a reporter, "were made so hurriedly that until I arrive I don't know where I shall go or what I shall do. You can say, however, that I have not resigned and also that I am not in bad health. The reason for my hurried departure is not because of ill health, but because I want and need a vacation like everybody else. I must go away now if I want to go at all, because if I should wait much longer winter would be here and it would be too late. Business will not enter into my trip abroad at all."

### RETIRED ARMY OFFICER SHOT.

Major George A. Ames Wounded by Former Tenant at Home.

WASHINGTON, Aug. 25.—Major George A. Ames, a retired army officer, was shot, but not seriously injured, at his home, a few miles outside of this city, today by J. Doland Johnson. According to Major Ames' account, Johnson was formerly one of his tenants, with whom he had some difficulty, and who threatened to shoot him.

Major Ames says he was sitting on the porch of his house when Johnson approached and fired two shots, the first taking effect in the right breast. The second shot went wild.

### Chicago Fears Coal Famine.

CHICAGO, Aug. 25.—An immediate hard coal famine threatens Chicago. In the entire city there was not more than 50,000 tons on hand and as one-half of that has already been contracted for or bought outright, the public has only 25,000 tons of the hard fuel available for purchase. Usually at this time of year there are 30,000 tons of hard coal within the corporate limits. Heretofore unlimited quantities could be purchased at \$7.25 a ton, but today the majority of the dealers were asking \$8.50 a ton, and some of them wanted \$9.

### Rumors of the End.

CHEYENNE, Wyo., Aug. 25.—There is a growing belief among local strikers and their friends that the Union Pacific strike will be settled inside of two weeks. The men say that President Burt of the Union Pacific will ask for a conference with strike leaders in a few days. They get their information, they say, from a state official who received a letter from Mr. Burt, in which he intimated that he would meet with the strikers as soon as he completed plans now being formed.

## LOOKS FOR BATES

### MANILA HEARS THAT HE WILL SUCCEED CHAFFEE.

### HIS KNOWLEDGE OF MOROS

He Knows Them Well, and if Present Campaign Drags Too Much He May Be Again Called Upon to Negotiate with Dusky Sultans.

WASHINGTON, Aug. 21.—According to Manila papers received at the war department today there was a report current that General George W. Bates would succeed General Chaffee in command of the division, that General Bates would not serve very long, but after a few months would return to the United States and be succeeded by General Bates, who is now in command of the Department of the Missouri. It is stated that Bates' excellent knowledge of the Moros and his acquaintance with many of the leading sultans and datos would be of great value in the campaign against the Moros should continue any length of time.

The same paper gives an account of the ravages of smallpox at Apari, in northern Luzon, and reports that out of 1,700 cases eleven deaths have occurred. The ravages did not extend to the troops stationed in that vicinity.

Between June 25 and July 19 seventy-two deaths occurred among the enlisted men of the division of the Philippines. Of the total number of deaths thirty-five were due to Asiatic cholera. The war department today received the information from General Chaffee at Manila, together with a list of those soldiers who had died. In addition to the thirty-five who died of cholera, seventeen died of dysentery, six of malarial fever and the remainder of various other diseases. Of those who died of cholera nine were Philippine scouts and natives.

The war department is advised of the sailing of the transport Kilpatrick from Manila, P. I., August 17 for San Francisco with 518 casuals.

MANILA, Aug. 21.—General Chaffee reached the island of Cebu yesterday on the transport Ingalls and received from Washington instructions regarding the course to be pursued in Mindanao island. Pershing of the Fifteenth cavalry is in command of a column of American troops.

Financier Returns to New York, but Has Nothing to Make Public.

Griscom of Philadelphia, president of the International Navigation company; P. A. B. Widener of Philadelphia and Mrs. Patrick Campbell, the English actress. Mr. Morgan declined to be interviewed, saying he had nothing to give out for publication.

Bishop Potter said he had a delightful trip abroad, but was glad to get home.

"I am surprised and sadly disappointed to find the coal strike still unsettled," he continued. "It is certainly too bad that it has not been settled long since. I supposed it was all over, and the news of its continuation, which greets me here, is the one dark spot on a most joyous home-coming. The anthracite coal operators have all along maintained a false position. They take the stand that they will not deal with the organizations, but insist on dealing with the men as individuals. Now this is all wrong. Any body of men whose interests are common have the right to organize into an association for mutual protection and are entitled to recognition as an organization in matters which affect their individual and combined interests."

### Peaceful at Tamaqua.

### NEBRASKA CROP CONDITIONS.

General Conditions Still Favor an Increase Yield of Corn.

The last week was wet and cool in the northern counties and warm and dry in southern and western. The daily mean temperature has averaged about normal in the eastern part of the state and 2 degrees above normal in the western.

The rainfall has exceeded an inch in some of the northern counties; in other parts of the state it has been generally less than a quarter of an inch.

The cloudy, moist and rainy weather in the northern counties the last week retarded haying and threshing in the southern and western counties threshing progressed rapidly. The soil is so dry in the southern part of the state that little progress was made with fall plowing. The general received notice this afternoon that the military maneuvers of the regular army will be held at Fort Riley from September 23 to October 8. It is the intention of the Nebraska military authorities to have the state troops in camp at the fort during these maneuvers. No orders will be issued, however, until more definite information is received from the war department.
