LET US EXPLAIN TO YOU WHEREIN

EXCEL

Climate and soil have everything to do in the production of fruits and vegetables of the highest quality. One state will produce the best corn, another the best tomatoes.

THE MONARGH GOODS

Are prepared and put up in the different localities wherein they attain the highest degree of excellence. For instance New York produces the best apples and pears, Maine the best corn, Wisconsin the best peas, New Jersey the best tomatoes. All are put up fresh from the vines or trees instead of being shipped to some central point for canning or preserving. All we ask is a trial and you will detect the difference between the Monarch and other packs. Remember the Lion's head is on every package : : : : Telephone 27.

FURNISHIO

The City

We have made the most careful preparations to be able to offer the very best goods for the lowest prices. We buy for cash and give our customers the benefit.

Another Advantage we have over those dealers that sell "everything" (all kinds of merchandise and no assortment of "anything") we buy in big quantities and it stands to reason at a lower price than being bought in small lots.

It would please us to show what we can do for you. For instance, with a Ten Dol-Far Bill of yours. Bring your boy along and let us dress him from head to foot for little money. Would you buy the best repairing neatly and promptly done. Well, get our prices and be convinced.
