ALLIES ASK ROOSEVELT TO SCT-TLE MATTERS.

HOT KNOWN THAT HE WILL ACT

There Will Be No Further Negotiation with Castro's American Representaand Germany.

WASHINGTON.-Irritated by Mr. Bowen's note refusing their proposal for preferential payments, the allied powers have instructed their representatives to resubmit the question to President Roosevelt for settlement. In the event of his refusal to act, this question is to go to The Hague. These instructions finally break off all negotiations with Mr. Bowen.

At 10 o'clock Friday there will be a conference of the representatives of the allies at the British legation at | ized. 316,668. which Sir Michael Herbert will preside. In the meantime he expects to have an interview with the secretary of state, whom he will sound as to the probability of the president's acceptance of the allies' request.

of the militia of the country, which The Matter Will Accordingly Go to The Hague-Protocols for Submission to the Tribunal Will Be Taken Up Without Delay.

> WASHINGTON.-President Roosevelt has declined the invitation of the allied powers to arbitrate the question of preferential treatment in the settlement of their claims against Venezuela. Secretary Hay has been instructed to advise the British embassy at once to that effect. The matter will now be referred to The Hague tribunal, which will result in the immediate raising of the blockade.

> The administration, it is stated in an official quarter, was unwilling to approve the effort of the British government to eliminate Mr. Bowen from the negotiations, and moreover the president could not have accepted the invitation of the allies, even had he been so disposed, without the consent of the other negotiator, Mr. Bowen. Saturday preliminaries will be considered with reference to the signing

The Hague. Immediately on receipt of Secretary Hay's note announcing the decision, the British ambassa for addressed a communication to Mr. Bowen saying the arrival of his protocol, which he was prepared to submit to Mr. Bowen a joint policy. for signature. Later the German minister, Baron von Sternberg, called on Mr. Bowen and announced the arrival

of his protocol. It has developed that two protocols are to be signed by Mr. Bowen with the Italian ambassador, Signor Mayor Des Planches, two with the British ambassador and two with the German minister. The first in each case will provide for the reference of the allies' contention for preferential treatment to The Hague, and the raising of the blockade simultaneously with the sign-

ing of the convention. It is doubtful whether the initial protocols between Mr. Bowen and the three allies will contain the same conditions, though all the negotiations are working to that end.

In these protocols the condition precedent to the raising of the blockade will be clearly settled, namely, that 30 per cent of the customs receipts of the ports of La Guayra and Puerto Cabello are to be set aside by Venezuela for the satisfaction of its creditors and that the question as to whether the allied powers shall receive preferential treatment, or, as Great Britain terms it, "separate" treatment, in the settlement, shall be

referred to The Hague. They will also provide that Venezuela shall pay down to each of the the Associated Press: three allied powers £5,500 as an

Tuesday passed without objection or discussion the Elkins bill to further regulate railroad transportation. It is one of a number of measures presented in this concerning corporations and has particular reference to railroads. The army appropriation bill which

went over Monday at the reques; of Mr. Pettus (Ala.) was passed after the provision establishing a general staff had been eliminated. Later the independent measure, identical in its provisions with the general staff section of the general army bill, was passed after being amended so as to place the chief of staff exclusively under the direction of the president. The bill now goes to conference.

Mr. Quarles (Wis.) continued his remarks in opposition to the statehood bill.

Upon the conclusion of the morning business a bill was passed to allow national banks to keep their reserves in cities of 30,000 population, instead of 50,000 population, as at present. A house bill was also passed for
