From one lot of sows numbering thirteen he raised one hundred and thirty-two little rooters of the Duroc-Jersey breed. Equipped as he is with the best farrowing pen he was able to save the entire lot. Of another lot of thirty old sows he succeeded in saving sixty pigs from two litters each. With pork at \$7 per hundred in South Omaha this looks like a better proposition than owning a National bank.
—"The Darkest Hour," Lincoln J. Carter's spectacular melodrama, will be produced for the first time in this city at North opera house this Wednesday evening. —A farmer says that old people go out too thinly clad when they go about their feeding and other chores. They leave a warm room after eating a warm meal, and then cold winds them and pneumonia sets in. We cannot be too careful. The world will not fall to pieces if we do not get our work done in a hurry. I would rather be a little slow than pay a big doctor bill, let alone the suffering. I once built a fence in a drizzle-drozzle of rain, caught cold and was bedfast for two months and paid the doctors enough to build a score of such fences.
—One of the handsomest calendars of the new year reached us last week from the Butler Paper Co. of Chicago, a firm which has been established for 60 years. As the Fine Arts Journal expresses it, in reference to this calendar, "Art and commerce have linked interests in America, in a stronger and more practical way than anything of the kind in the past. Success commercially signifies greater advancement in the Arts." The time money and thought great advertising matter of all kinds the past few years has been a decided impetus to art, and the different lines of art work are almost as varied as there are professions or trades. The calendar advertising is one of the foremost to appeal to the merchant of today.
—Ellery's Royal Italian band was greeted by an unusually small audience last Thursday evening. The band, which is composed of 55 trained musicians, were all artists in their line. Considering the recommendations with which the band was heralded, it is surprising that there was not a larger crowd present, especially when Columbus has always been classed a musical town. The expenses of the organization amount to \$250 a day, and they were all Italians, scarcely any of them being able to speak or understand a word of English. Mr. Ellery was inclined to return the money to the purchasers of tickets and cancel the engagement for the evening, but upon the solicitation of Mr. Selay, manager of the opera house, the program was rendered, to the enjoyment of those present.
—Monday evening about 8:30 o'clock an alarm of fire called the firemen to the home of F. W. Herriek, across the street south of the M. E. church. An electric fan had been occupied by G. T. Everett had in some way caught fire, it is supposed, from a joint of the stove pipe falling to the floor. The firemen responded promptly and extinguished the flames before much damage was done to either building or contents. The loss, however, from fire and water is thought to be perhaps \$250. The building is owned by L. Gerrard. Mr. Everett carries no insurance, Mr. Herriek has \$200 insurance and Mr. Gerrard \$1,000. This (Tuesday) morning a small blaze was started from a defective stove pipe in the harness shop of Victor Turman at Eleventh street, but was extinguished in short order.

near Columbus. Our supply of old sorghum molasses has run out, and the neighbors' sorghum ditto. If there is anything more wholesome than new sorghum molasses, what is it?

Fred Lincey and George Engel each loaded what cattle they have been feeding and shipped them Sunday night of last week to Omaha, and we suppose they were on the market early Monday morning. We do not know what success they had; the bunch consisted of a mixed lot of steers, cows and heifers. The cattle market does not keep pace with the hog market this winter.
