—One of the enterprises which Columbus seems certain of securing in the near future is a brick and tile manufacturing plant. The promoters are J. —Use a long-handled brush to dust pictures and high places, a stiff paint-brush for dusting cabinet furniture, and a small round paint-brush for greasing bread and cake tins. A new tooth-brush is fine for cleaning strainers and celery. A scrubbing-brush with rather stiff bristles may be used to clean pressed and out glass dishes and to wash all seasonal tinware. A fiber brush will clean the lemon and horse-radish graters and remove the skin from new potatoes. Another useful article is a cheap whisk-broom, bought for the sole purpose of furnishing splints for trying cakes. It should be kept in a paper bag, will last for years, and has the virtue of cleanliness.—March Women's Home Companion.
