WHY NOT MAKE EVERYBODY RICH?

The first plank of the recognized populist party, champion the Omaha Era, declares in favor of a money, whether stamped on gold, silver or paper, to be coined and issued exclusively by the government...

It stamped paper will perform all the functions of money: buy and sell, pay and receive, measure and compare values, and serve as a medium of exchange...

If the fiat of the government creates value, why can't the government make us all rich and put an end to the over-luxuriant and turmoil between labor and capital? Why can't every man, woman and child be made a bloated capitalist by the stamp of the government...

Uncle Sam can really buy us all a farm and transform it into the cottage of the mechanic into a palace, is it not really criminal for him to keep so many thousands of his citizens who have done him good service...
