Ceremony Occurs in Secretary Hay's Office.-Full Text of the Treaty Cannot be Made Public at the Present Time for Two Reasons.

WASHINGTON-Secretary Hay and M. Phillippe Banau-Varilla, the min ister from the Republic of Panama, at 6.40 o'clock Wednesday evening signed the Hay-Banau-Varilla treaty providing for the construction of the Panama canal by the United States. The ceremony occurred in Secretary Hay's study. The Panama minister arrived at Mr. Hay's house promptly at 6 o'clock, having made an appoint ment for the conferences at that hour He was surprised to find that the secretary had before him the treaty engrossed in duplicate. The secretary informed M. Bunau-Varilla that he was ready to sign the treaty. The minister read the document carefully and then he and Secretary Hay attached their signatures to it.

Hearty congratulations were changed and it was agreed that the news of the signing of the treaty should be kept from the public for the present. President Roosevelt was immediately advised of the signing of the agreement and M. Bunau-Varilla sent a confidential cablegram to his government stating that the treaty had been signed. This evening the minister refused to comment on the ceremony. The only official admission that can be had is that the terms

of the treaty are practically settled. The treaty in its text cannot be made public at this time for two reasons. First, because of the unwritten law which obliges the State desenate in the matter of publicity, and among the sons of that country. second, because the president has not Minister of government, Esteban Jara- Washington and is now under examyet determined when the convention shall be submitted to the senate for ratification
