A Columbus man who recently returned from the St. Louis Exposition had this to say in regard to the Columbus school exhibit there: "I went to the educational building and asked a guide to take me to the exhibit of the schools of Columbus, Nebraska. Messrs. Kern and Britell and other Columbus teachers will be pardoned if they go to the hat dealers of Columbus and order new hats a size or two larger.

In our last week's issue we reported a warrant that had been issued for John Wardman on a charge of assaulting Walter Knab. It turned out later that the warrant had been made against the wrong man, it being intended for John Zaleski. Mr. Wardman feels that a correction of the error is due him. The mistake was made by the officer who issued the warrant, and our item was copied from the warrant as it was in the hands of the sheriff. However, we are glad to make the correction, as Mr. Wardman is an old and highly respected citizen of this county, and the error was an unfortunate one.

District Court.

Douglas Slater, guardian of Roy and Ernest Slater, has filed a petition in the district court asking that a license be granted to permit the sale of the estate to which his wards are heirs.

Suit was filed in district court last Monday by Samuel Anderson whose post office is in Genoa, in which Inger Anderson, Olaf Hansen and Anna Hansen are made defendants. The complaint alleges that in 1904 he resided together with his wife, Inger, on certain land in township 15, range 3, near Westville P. O. That said land was plaintiff's homestead and that he had no other land; that the land was worth not above \$3500 and that it was encumbered by a mortgage of \$1,500. That in 1904 execution was issued upon a judgment rendered for \$142.35, Mayer Bros. being plaintiffs; that the sheriff levied an execution upon the undivided half interest in said homestead, advertising and sold the same at public auction, Mary Sullivan bidding in the same, paying no consideration therefor; that said sale was confirmed by the court and a sheriff's deed delivered to Mary Sullivan therefor. That in 1905 Mary Sullivan commenced a partition suit and the court appointed referees to make partition of said premises; that upon the undivided half interest in said homestead, advertising and sold the same at public auction, Mary Sullivan bidding in the same, paying no consideration therefor; that said sale was confirmed by the court and a sheriff's deed delivered to Mary Sullivan therefor. Mr. Sam S. Harris, wife and family of Jolley, Ia. arrived at J. C. Dawson's Wednesday. Mr. and Mrs. Dawson and Mr. and Mrs. Harris and family visited the Graceland Indian school Saturday. Mr. Harris is an old schoolmate of Mr. Dawson's. He left Monday with his family for his home.

A Letter From California. The Journal is in receipt of a letter from W. D. Hanchett, Clovis, Calif., formerly a resident of Platte county. Mr. Hanchett bought a raisin ranch at Clovis. He is pleased with the outlook although he says the "ranch" is too new yet to bear much and that his returns so far are small. Mr. Hanchett's ranch, he says, is in a valley fifty miles wide which was at one time the bed of an inland sea. Raisins is the sole crop there. "When there is a light sale of raisins east," writes Mr. Hanchett, "it has the same effect on us here, as a low price for hops and corn has in Nebraska."

"The peach crop is light and peaches will bring a good price this season."

C. M. Gruenther and Blake Maher returned from the St. Louis convention Monday. G. W. Phillips and the rest of the Columbus representatives to the convention are expected home Friday. Mr. Gruenther says it was a great convention and he is a greater Bryan admirer than ever. In his opinion Bryan is a stronger factor in the democratic party than he was before the convention. He says the Bryan's speech championing the minority report on the seceding of the Illinois delegation was one of Bryan's greatest speeches; that the majority of the delegates were in sympathy with Bryan because he was right, but that they were tied to Parker and did not dare vote with Bryan. Mr. Gruenther says the climax of Bryan enthusiasm came when Walter Phillips waved the Nebraska banner.

Platte county sportsmen will be interested in the following clipping from the Central City Nonpareil: Charlie Stitzer went to Eriecon Tuesday afternoon on a mission, which if successful, will mean much to sportsmen and others interested in an outdoor resort. It is his purpose to leave or purchase the land on the Eriecon dam was formerly located, rebuild the dam and make the improvements necessary for a complete summer resort. Until the dam was washed out last summer, Eriecon was a popular place for fishing parties. It is favorably located and so situated that a large lake can be formed with but comparatively small expense. It is to be hoped that Mr. Stitzer will be successful in his negotiations. He took along some fishing tackle and will fish while the dam is hatching."

Richland Again.

To the Editor of The Columbus Journal: In your issue of June 15, 1904, your correspondent from Richland made a statement that the three lodges deliberately pried open the door of the Methodist Episcopal church, west in and desecrated the church and held their memorial services without the consent of the board of trustees, on account of hard feeling between the local lodges and church. We feel as though your correspondent misrepresented the case and would like to make a true statement in the matter and let the public judge for themselves. The Orders appointed a committee of One to see about getting the minister for the occasion and also secure the use of the church by getting the consent of the church trustees, this committee being a steward of the church. Our committee secured the service of the pastor of the church here and so reported but failed to see the trustees at that time and was absent at our meeting just prior to memorial day, we thinking of course our committee had done his duty. We never expected any objections as we have always held our memorial services in the church since the lodges were organized here. There is no objection now excepting from one of the trustees. The Orders were unintentionally in the wrong, none of them being aware but what the consent of the board had been secured until that Sunday eve. One of the members of our order explained the true state of affairs as we have stated and apologized for their error or rather the error of the committee. Your correspondent states there is an unfriendly feeling between the Orders and the church here. The fraternal orders secured the service of the pastor of this church who lives at Monroe and paid him \$7.50 for his trouble, in that an unfriendly act? We absolutely deny the fact that we are unfriendly to this church or any other church. He further asks how did they get in if they did not pry open the door. Now we ask how come the door open when we have a heavy wind from the west? Citizens of this village have closed their doors more than once after a windstorm. Our committee on decoration day went there, opened the door without any effort or prying, none of the committee knowing but what our committee had secured the key and opened the door.

A. B. Oddy, Master Workman. Fred Klack, Chas. E. H. H. Henry Hansen, Sec'y of A. O. U. W. Scribe of T. B. H.

NOTE.—The Journal desires to be fair with patrons and correspondents in the discussion of all persons or subjects. We therefore are glad to publish the above statement from the officers of the A. O. U. W. at Richland. As both sides of this unfortunate matter have been given space, the Journal will consider it closed. The is doubtless a misunderstanding at the bottom of it all and neither party is at fault.

The citizens of every community take pride in their young people, especially those who graduate from the local high school and go on to schools of higher learning. Albert Brugger is one of the Columbus high school graduates who is at least starting right. Albert is planning to make a mining engineer of himself, and with that end in view is taking a complete engineering course at Ann Arbor. Instead of spending his vacation as most wealthy men's sons do, Albert asked his father's permission to work in a mine that he might learn the elementary part of his profession. Going to the great Calumet copper mine at Lake Superior, he secured a job as helper in a construction gang and was set to work at two dollars a day, 1200 feet below the surface. When Mr. Brugger was asked about the progress of his son he made this sensible remark: "It is more important that a boy learn how to dig a ditch or hoe potatoes than to learn how to be a bank president."

SHOOTING STARS. They Are Simply Falling Masses of Stony or Metallic Matter.

Falling stars are masses of stony or metallic matter which, moving freely through space, approach so near to the earth as to penetrate and traverse the upper regions of our atmosphere. Raised to white heat by friction with the air, owing to their immense velocity, which averages thirty-five miles a second, they become luminous and often leave a trail of light.

Several well defined groups or swarms of these bodies revolve around the sun in elliptic orbits, which are periodically encountered by the earth. Such are the Lyrids (April 19-22), the Leonids (Nov. 14-16) and the Andromedids (Nov. 22-24), so called because they seem to radiate from a point within the constellations after which they are respectively named.

It is computed that no fewer than twenty millions of these bodies enter the earth's atmosphere daily, each one of which, under favorable conditions, would be distinctly visible. Occasionally they reach the earth in solid form, but showing signs of recent fusion of an outer layer. They vary in weight from some hundreds of pounds to a single grain. Their principal chemical constituents are iron, magnesium, silicon, oxygen, nickel and cobalt.

LOVE IN LAPLAND. Things a Suitor Must Do Before He Wins His Bride.

When a lad is in love with a girl in Lapland they run a race—not a fair race, but he is to be heavily handicapped that if he wishes the girl can get first to the goal, but if she cares for the young man who is trying to win she lets him overtake her, because if she outruns him he cannot propose again.

But even if he wins the race and the girl at the same time the young lovers cannot be married until they have the consent of the girl's parents. At one time if a man married a girl without this he was liable to receive capital punishment.

Besides an engagement ring, the young Laplander sends his future bride a girdle and a quantity of brandy. He goes as far as the door of her hut, but remains outside until invited to enter, when a bumper of brandy is offered to the girl's father. If he drinks it, it means that he gives his consent to the marriage, and the happy lover then pays the father a sum of money and promises to give the girl some clothes.
