GOOD THREE DOLLAR WALL CHART FREE!

**JOURNAL Subscribers,
TAKE ADVANTAGE**

of this offer and tell your friends about it

By special arrangement with the Geographical Publishing Co. of Chicago we have obtained the exclusive control for Platte County, of their new \$3.00 wall Chart. This wall chart is a very fine atlas of the world in a wall form and consists of the following: 1st page, a handsome multi-colored map of the world, varnished, the first and only map of its kind published, giving in detail all of the towns, rivers, lakes, oceans, railroads, etc., of the entire world, distances between the principal points of the world and our foreign possessions—on this page the flags and coat-of-arms of all nations are shown, in color. This page is 36x26 inches and alone retails for \$1.25. The 2nd page contains a large and complete map of Nebraska. This map is a new plate and shows every town in the state regardless of size, with an index showing how to locate each county and town, also giving the population of both town and county. In addition to this, invaluable statistical matter pertaining to crops, mineral production, and the average temperature and rainfall of the country (Items of particular interest to the farmer.) This page is also 36x26 inches and has sold in the past for 75c. A good state map is something that you must have and this is positively the best and latest map of Nebraska published. The third and last page is the same size as the first and second pages and contains a large and very fine map of the United States. This map plate was completed just recently and shows 40 per cent more of the smaller towns than is usually shown in a U. S. map. The electoral vote is printed in red figures on each state. Above this map is a statistical table pertaining to the states, territories of the Greater United States, facts as to the capitals, areas, population, legislatures, etc. Below this map fine half-tone pictures of all the presidents of the United States (from Washington to Roosevelt) are shown with their autographs. On the back of this page the population of all towns of 3,000 and over is shown for the census years 1880, 1890 and 1900. This page alone would cost you \$1.25 at a stationary store. All of the maps contained in the chart were engraved by Geo. F. Cress of Chicago, which means that they are the very best published.

Any person sending in a year's subscription (\$1.50 cash in advance) to **The Columbus Journal.**

will receive one of these handsome and valuable **\$3.00 Wall Charts absolutely FREE. Think of it!** Platte County's oldest, largest and newest newspaper for one year and a \$3.00 Wall Chart for \$1.50. Can you beat this offer?
