Republican Ticket: President - THEODORE ROOSEVELT, Vice-President - CHARLES W. FAIRBANKS.

State Ticket: Governor - J. H. MCKEY, Lieutenant Governor - E. G. McHILTON, Secretary of State - A. GALUSHA.

MOKEY, THE RAILROAD TOOL, RAISED THE RAILROAD ASSESSMENT IN NEBRASKA, 70 PER CENT.

MOKEY THE ENEMY OF THE PEOPLE OF NEBRASKA, RAISED THE ASSESSMENT OF THE PEOPLE'S PROPERTY, 44 PER CENT.

Where, O where, is Coal Oil John? We are still waiting for participants in the matter of Railroad Jobs.

The man who thinks Roosevelt can't carry Platte county ought to talk to some of the German farmers.

The election of a democratic congress this year will be followed by another reign of cheap products such as we had from 1893 to 1897, and the cheapest of these products will be labor.

The democratic party belongs, body and branch, to the trusts in no fault of the democratic voter.

The democratic papers are gradually dropping the question of the coalbed hidden by Mr. Parker.

THAT CROW. The editor of the Telegraph has had another crow. He has named it 'The County Debt'.

There is the 'no deficit' crow, just as it looked when our brother swallowed it. This photograph is taken from the records:

The assessed valuation of Platte county in 1903 was \$2,754,630. The levy for 1903 was 13 mills for county purposes.

The Telegram charges the Lord with the 'annual' expenses of Platte county, but does not itemize the account.

The Telegram seems to think there is a copartnership in state affairs between the Lord and the 'republican machine'.

There is an itemized account of the annual expenses of the state from 1901 to 1903 that go into the debt charged to the 'railroad machine'.

Do not those 'annual' expenses from the state debt as the Telegram would from the county debt and the republican state administration would show a gain of a half million?

Look at this record as taxpayers and not as partisans and ask yourselves which party has the best railroad record.

Go to the county treasurer's office. Mr. Becker is an honest man. Ask him if the Journal's statements agree with his records.

Platte county republicans will meet in convention tomorrow. The Journal believes this will be a notable meeting.

And all we know yet about Judge Parker's financial views is that he voted twice for free silver and now admits the sound currency standard has been firmly fixed by republican legislation.

ROOSEVELT'S ENEMIES. The money power is opposed to Roosevelt for the sole reason that he insists on enforcing the law.

It is not a matter of great wonder that the charges made against Roosevelt by the opposition are of the most far-fetched and ridiculous nature.

It is beyond question that the wages of the organized workers have increased, and in many instances the hours of labor reduced or at least maintained.

REPUBLICAN DUTY. A month ago we had the nerve to predict that Roosevelt would carry Nebraska by fifty thousand and Platte county by five hundred.

There is no other argument that will convince our Jacksonian brethren of Roosevelt's ability to carry Platte county, we must wait for the election returns.

Parke's Acceptance. Judge Parker, in his speech of acceptance, did not add to the sum total of human knowledge concerning his position as a democrat who is better and more courageous than his party.

The Telegram believes the new Nebraska revenue law was created by the railroads, for their own benefit, and that the law has been interpreted by Governor Mickey and his associates in harmony with the wishes of the railroad attorneys.

Mark this! The Telegram believes that railroads of Nebraska are so generous that they had Gov. Mickey and his associates raise the valuation of their property 70 per cent whereas they insisted that other property should be raised only 24 per cent.

Judge Parker's speech of acceptance advocated mild revision of the tariff. It was the voice of Jacob but the hand of Esau.

President Roosevelt took a strong point when he forced acquiescence of the sultan in the demands of the United States for the privileges to be enjoyed by American educational institutions and citizens in Turkey.

President Roosevelt had been the bothed his political adversaries hold him to be, he would have employed the arts of war long before he did, and the result might have been rather unpleasant.

Free Trade and Union. It is absolutely impossible to reconcile free trade with trade unionism.

The fact that the baly sin of Governor Mickey to which the convention could attract attention was not his sin at all proves rather conclusively that he is a very satisfactory official.

The Omaha News sees a rocky road between Governor Mickey and a reelection. The News says the railroads are against him, having found that he is not subservient to their interests.

"I have nothing to take back, I have nothing to withdraw of the things that I have said against the methods pursued to advance his candidacy. It was a plain and deliberate attempt to divide the party.

Now Mr. Tibbles has taken a leaf out of Mr. Bryan's book and like the latter will give four reasons why he will support his party's candidates.

The habit of putting rich old fossils on the national ticket for second place in consideration of a generous subscription to the campaign fund is growing on the democrats.

The respective percentages of increase of manufactures and trade during twenty years have been as follows: England, 8 per cent; Germany, 41 per cent; United States, 200 per cent.

If Judge Parker's nomination was secured by 'crooked and indefensible methods' as Mr. Bryan has said, it would be interesting to know how, in addition to the nomination, he secured Mr. Bryan's support.

You can paste it in your old hat that Bryan democrats will not bother about voting for Parker. It will be either a scratch or no vote.

A vote for Congressman McCarthy will be a vote for President Roosevelt and his policy. Put a peg there.

Judge Parker estimates that the existing anti-trust laws are sufficient, but when the democratic party was in power the Sherman law was declared as a force and no attempt made to enforce its enforcement although the trusts flourished then as never before or since.

FROM THE STATE PRESS. The late business democratic convention increased the fund of humor on this reading club by endorsing Governor Mickey for 'refusing to sign the bill which provided for the creation of a status of Abraham Lincoln on the capital grounds.'

Mr. Good, the fusion candidate for legislature in Webster county, fully deserves his surname. Mr. Good occupies a unique position in the political history of Nebraska: he enjoys the distinction of being the first member of the opposition party to stand before an assembly of his partisans and tell the truth about a republican measure.

Mr. Good, in his speech of acceptance: 'This new revenue law has no record against those who framed it. The railroads gain this pitfall and now they have fallen into it themselves and are being compelled to pay far more than their just proportion of taxes.'

The Omaha News sees a rocky road between Governor Mickey and a reelection. The News says the railroads are against him, having found that he is not subservient to their interests.
