The Life of Bread

Good yeast is the life of bread—without yeast bread is cold, dead dough. You never tasted finer, whiter, sweeter, all-round better bread than that raised with Yeast Foam. It tastes good, does good, and stays fresh and moist until the last crust disappears.

YEAST FOAM

contains the energizing principle of leaven in its purest form. It is made from healthful vegetable ingredients, malt, hops, corn, etc., in the largest, cleanest, yeast factory in the world.

The secret is in the yeast. All grocers sell it in 5 cent packages—enough to make 40 loaves of bread. With proper care it never grows stale. Keep it on hand all the time. Send for our book "How to Make Bread," free.

WESTERN YEAST CO., Chicago.

CORRESPONDENCE

Route 1.—(Correspondence.)—The shock thrashing is all done except the corn and the farmers are all busy haying and plowing.

Fred Ostro was on the south side of our route three days last week shelling corn.

D. G. Bartels has the materials on the ground for an addition to his home.

Arnold Shaid is building quite a large granary.

E. Bus marketed a carload of hogs this week.

Chas. Taylor, the cattle buyer, was driving over this route one day this week.

What makes William Ernst wear that broad smile? Ask the little baby girl about it.

The first section of route one was about an hour late last Friday morning, owing to an accident. No serious results, only a broken wagon tongue.

Kiwin Fiedler went to look over his farm three miles west of Platte Center last Friday. He has a bumper crop of corn and oats.

W. G. Brommer and family who have been visiting the family of A. W. Freese, returned to their home at Omaha last Tuesday.

R. F. D. No. 3.

Columbus, R. F. D. No. 3.—(Correspondence.)—Mrs. A. M. Mahaffey has returned from her visit in Seward.

Mr. Pine expects to leave soon for Colorado where he will spend the winter.

Fred Hargmann marketed his fat cattle Monday forenoon.

John Kamm, feeling somewhat indisposed last week, found it necessary to take a few days vacation from his duties as engineer with a thrashing crew.

William Mencke is building quite a good sized combined corn crib and granary.

Tom Adams was busy thrashing his oats Saturday and Monday, an outfit from Syracuse, Neb. doing the work.

W. T. Ernst finished cutting his big meadow of hay this week.

D. Bollen is arranging to seed nearly 30 acres to winter wheat this fall. These cool nights make the popular discussion as to how soon corn will be out of the way of a frost.

The folks at Fred Windrup's house remembered that the carrier was fond of plums last week. Those found in their mail box were delightful to us indeed. The beautiful flowers, the luscious apples, peaches, and the cool drinks of lemonade we received from the generous hands of our patrons the past week during those warm days made the drive of their letter carrier a whole lot shorter and more agreeable. And we hope that we may be spared to carry their mail continuously like the Sierphus who, according to my theology, was given a job of rolling a stone up a hill. But the difference between us and Sierphus is that he wanted to strike and we can't.

Route 4.

Columbus, Route 4.—(Correspondence.)—The school house in district 24 has been rehinged and plastered and put in first-class condition for school.

D. F. Donoghue has some of the finest apples we have seen. Ye scribble and the pleasure of putting his teeth into several of these lately and can vouch for their good flavor.

H. J. Eggleston has some tame plums that for size and flavor put the California varieties in the shade. Some of them measure two inches in diameter.

Miss Maggie Hawk of Iowa stopped off here for a few days visit with her brother, J. F. Hawk, on her way to Idaho where she will teach school the coming year.

Chas. Chapin is building quite an extensive wire hog pasture.

Ed Rositer and his brother from Omaha called on J. C. Dineen last Monday.

William Will's new home is enclosed and will soon be ready for the plastering.

Miss Lena Pharrman has returned to Henry Hoffmann's after a two weeks vacation.

Frank Hillmer has gone to South Dakota where he will stay a couple of months.

J. T. Hawk is nursing a lame leg this week. Last Thursday Mr. Hawk went to Boyd Dawson's to telephone for a doctor and a vicious dog attacked him, biting him in the ankle. A physician dressed the wound and it is thought there will be no serious results.

Robert Blorr of Oconee was visiting friends in Columbus this week.

Mrs. Maud Shaffer was shopping in the county seat last Thursday.

Parties are circulating a petition praying to have some much needed grading on the roads west of Columbus. Let the good work go on.

Star Route.

Henry Welch of Shell Creek was in Columbus Monday.

R. F. D. No. 3 writes of the arrival of a bright eyed boy baby and a sweet girl baby like one with authority, owing to Mr. Barron's previous declaration of the stand that he had taken on the subject of babies, it would be in order for him to call No. 3 down.

Deward Davis has gone to Bohest. He expects to remain about one week. Some unkind persons who appeared to be a doubting Thomas in not the least reserved manner declared to a group of companions on the street one evening recently that he doubted the veracity of Mr. Barron's statement about the sun flowers upon a certain street in town; now we are in possession of all kinds of evidence to substantiate Mr. Barron's statement. All along our route are fine specimens of just such sunflowers as Mr. Barron told you about but the farmers are waging war on them in some localities, one man in particular, Peter Tumbel Dora, whose name is with hold from publication has been working on one of these matters for nearly a week, and has succeeded in chopping it fully half way through on one side and has warned the passer-by to be on the alert as he expects it to fall the first still day we have from the northwest. Mr. Tumbel Dora hails from the coal fields of Penn. and knows how to wield an ax.

There has been strange stillness about Shell Creek postoffice for the past three weeks that is not generally prevalent under similar circumstances. Robert Welch has during this time kept very much in hiding and only when taken by surprise could we barely get a glimpse of him but aside from thinking it just a little strange, paid no more attention to it until Saturday morning when an auntie came into the postoffice and holding up a sweet little bright eyed baby girl of two weeks told the writer to look at Robert's baby, well we finally came too, or at least sufficiently to speak a determination to see Robert and find out all about how it happened we staid out doors but there was no Robert in sight. All was as still as death out doors, but on driving away we caught sight of Grandpa Welch peeping through a crack in the old blacksmith shop, just as though he thought he might be to blame in some way. Now, we don't want to accuse Robert of being ashamed of his baby, for he might well feel proud of her. Perhaps it is just a slight embarrassment that he will have overcome sooner or later, as the case may be.

Last Saturday morning the fast mail on the Star Route slipped an eccentric, going down the hill pull just at the corner of the Johnson farm, and had to go on the repair track. Mr. Johnson came out and seeing how badly we felt said he would give us a couple loads of cabbage to cheer us up, saying that he would rather give them to a man than have the worms eat them, and hinted that he would pick a pocketful of plums for us while we put in a new brass. Of course we were as fast as we could for fear he would think we were intentionally slow, but Mr. Johnson went off at picking plums, for he had a flour sack full of them loaded into the wagon before we could possibly get started. But we will try and not let it happen again at Mr. Johnson's.

We met J. E. Dischner coming to town with a load of hogs. He renewed his subscription to the Journal, and said he was an old line democrat but liked to read the Journal.

Among those who subscribed for the Journal during the past week, we were August Kerkman and Carl Korte. The latter expressed himself as being very much pleased with the wall chart.

We are under obligations to Mr. Gerhard Rosche for a sack of fine apples found at his mail box Monday.

Sidney Eastman returned the end of last week from Okoboji, Iowa where he had been for his vacation for the past ten days. He reports a very enjoyable time fishing and boating. He says that a resident of Lake Okoboji tells a story about catching a fish last season that weighed two hundred and forty pounds. S. E. thinks it must have been a whale.

We hear that J. H. Evans has been appointed Second Lieutenant of company F. Madison National Guards. He is now at David City attending the encampment. Jake might get to be Colonel yet, one can't tell, strange things do happen.

The K. P. of Oreston had a rip-roaring meeting on the 9th of this month. Jim Nichols, the enthusiastic, was over from Madison and gave the boys a talk that we will long remember. He talked on Pythianism for forty minutes, but his spirit and

ready flow of speech is always so interesting that the time did not seem to exceed five minutes. At eleven o'clock a nice lunch was served and cigars coming after, we all vowed we had had a very enjoyable time.

Mr. and Mrs. E. T. Graham returned from Wisconsin last Saturday night. Herman Carlson who had his arm broken two weeks ago, by falling off a load of lumber is getting along nicely, but will not be able to use that arm for some weeks to come. Sunday night was so cold that it was not very many degrees removed from a frost.

Twenty miles in a long distance for one to come and then have to use his muscles to pry open the door of the Lord's house, as was stated by our Free Lance reporter. In John Westey's time the preacher drove Stans out, but not so now.

You should begin to plan to send that boy or girl to school. The summer will soon be past with its season of toil, and the day for the opening of the business college at Columbus, and also of the Fremont Normal, will be here. No bank on earth pays so well as deposits made by our schools. Every dollar paid by a father to educate his son or daughter will yield a hundred fold more than money paid in lands and bequeathed to them as their sole stock in trade.

Tom and Will Higgins, Clarence Brocklesby and Robert Keller are among those from here who intend entering college soon.

Humphrey.

Humphrey, Neb.—(Correspondence.)—The case of E. A. Brodell, wherein Ed Fitzsimmons had him arrested for molesting and threatening assault, was tried before County Judge Masterson last Friday, and resulted in the finding of said Brodell guilty as charged. Both parties had a large number of witnesses who drove to this place from Lindsay and took the train for Columbus. I presume the Telegram will call this the Banker and Doctor matter, but I have never heard that Ed Fitzsimmons ever had a diploma. However, the banker and Ed. have had some cattle deals which at this time seem to have been uneventful. Lindsay seems to be a lively town, and every effort apparently is used to keep its people law abiding. Lindsay is entitled to have the court house: they are furnishing the business.

Attorney Oookinghaus was transacting legal business in Columbus Friday and Saturday last.

John Johnson and wife, now of Seattle, who formerly lived on the farm which they still own here, are visiting their many friends.

The ball game, Humphrey vs Howells, on the 21st was well attended. Result, Humphrey 3, Howells 2. Our home team has not been beaten now for several successive games. Howells has overcome this, this being their first defeat. They came on a special train with their brass band, and demonstrated that what they were short in ball playing they made good in music.

Chas. Oharquist, Albert Carlson and Joe Korth of Lindsay attended the ball game and other sights, taking in the Indian ball game in the evening.

Dr. Walker of Lindsay passed through here Saturday evening on his way from Columbus where he had been called as a witness in the case of State vs Brodell.

John W. and Joseph Bender were in town taking in the ball game. It is said that J. W. tried to induce the Indians to come back election day, as he might need their votes. He also will run well in Howells.

Chris Schoenig moved last week into his new house on upper Main street.

Mrs. J. C. Graves returned from a two weeks visit, and Jay is now smiling and happy.

Our Humphrey base ball team met their first defeat Sunday night. They attempted to play the Sioux Indians in a game of their own after night. Soft ball, short bases, owl lights. Our boys are generally in bad at the hour they played, and are used to regular ball, bases and the light of day. On Monday morning some of the ball nine could tell the score. An outsider said it was 18 to 3 in favor of the Night Hawks or Sioux. It was a novelty game, however, and enjoyed by the crowd that assembled.
