SLAVS AT MUKDEN

DO NOT ANTICIPATE ATTACK ON THE PLACE.

JAP FORCES BEING INCREASED

Many Convolescents Returning to Duty—Russian Forces at Mukden Considered to Be Very Large and More Troops Being Added.

ST. PETERSBURG—The reports that General Kuroki is pushing on northeast of Mukden are not borne out by official telegrams that have been received here. According to the latest advices the Japanese forces continue to increase at Blangpuz and Yentai. A decisive advance in the direction of Mukden is therefore not expected to occur for some days.

Meanwhile, indications increase of the probability of the Japanese meeting with resistance. The Russian forces at Mukden are undoubtedly very large and every day's delay enables the commander-in-chief to perfect his defenses. A private dispatch from Mukden reports the arrival of an immense train filled with convalescents returning to duty. This may be regarded as good evidence of a large concentration of troops at Mukden.

The same correspondent, describing the scenes at Tie Pass, notes extraordinary animation there. The great excitement of victory here and the occurrence of theatrical performances and open air concerts are of daily occurrence, hardly indicate that the town is expecting an immediate attack.

Dispatches from Vladivostok and Sakhalin make no mention of developments there. The citizens of Vladivostok seem to be of the opinion that the Russian army is returning from their country villas. The long promised Japanese operations against Sakhalin and Vladivostok, which were expected to act as a diversion for General Kuroki's advance, are not yet in sight.

Neither the admiralty nor the foreign office is inclined to attach importance to charges of a breach of neutrality over the supply of Welsh coal by German steamers to Vice Admiral Rojestvensky's squadron and to the Russian cruisers in the Baltic.

It is declared that there is no breach of neutrality in coaling Russian war ships outside of Russian territorial waters. This whole question was thoroughly discussed by eminent jurists at an earlier stage of the war and resulted in the admiralty's decision not to seek coaling facilities in neutral ports which might lead to complications, but to adopt the independent course of coaling war ships at sea. This course does not by either Great Britain or Germany open to the occasion in question, the responsibility of the German government was not involved, as is shown by the semi-official note in the Allgemeine Zeitung and obviously Great Britain is unable to follow up any departing collier. If Japan feels aggrieved, officials here say, she has the remedy in her own hands and can send out war ships to intercept the colliers.

The repair ship Kamchatka has left Cronstadt to join the fleet of Vice Admiral Rojestvensky at Libau.

A JUMP IN WHEAT.

Wheat Operators See a Chance For Higher Prices.

CHICAGO—Wheat at \$2 a bushel before last May, was raised by the bulls on Monday on the market. At the opening of the market there was an excited demand for wheat with few traders venturing to sell. The price for May delivery was for the present month from \$1.0575 to \$1.08. Those who wished to buy the wheat at the opening of the market at the prices prevailing at the close Saturday and the quantity that one would sell even at such a tempting advance was extremely limited.

The agricultural bureau at Washington issued a report Saturday afternoon that, according to the bulls, confirmed the wheat fears regarding the lamentable loss to the spring wheat crop by the black rust. Of winter and spring wheat produced this year in the United States it was contended there was barely enough for bread and feed if every bushel of it was available and that is not possible; and the country is therefore face to face with the necessity of bringing in foreign wheat to help keep the wolf from the door until another harvest shall have been raised.

At the high point of the day all deliveries showed a gain of 4 cents or more, as compared with Saturday's final quotations. The sensational strength was maintained to the end, the market closing almost at the highest point. Final figures on May delivery showed a gain of 4 cents at \$1.0975 and December at \$1.1275.

NEW YORK—Before a combination of sensational bullish crop report figures from the government and a big frost scare in the northwest, wheat prices shot up 4 cents a bushel Monday and closed within five-eighths of 1 cent of the season's highest record.

PRINCE BISMARCK IS DEAD.

Son of Famous Iron Chancellor Passed Away Sunday Morning.

FRIEDRICHSHAGEN—Prince Herbert Bismarck died Sunday morning at 10:15 o'clock. The end was painless. Since he ceased to be foreign minister on retirement of his father in 1890 Prince Herbert Bismarck had taken part in public affairs only as a member of the Reichstag. His attitude had been that of a man not waiting in the background for an opportunity to resume his career.

From 1884 to 1887 the deceased was a member of the German Reichstag and also from 1893 to the time of his death. He was married in 1892 to Countess Margaret Hoyes of the Hungarian nobility and after the death of his father he inherited the title of prince. The deceased had only one sister, who is the wife of Count von Rosenau. His brother William died in 1901.

NEWS IN NEBRASKA

CONFESS TO KILLING WATCHMAN

Each of Accused Tried to Shift Blame on the Other.

SIDNEY—The preliminary hearing of Tom McIntyre, James J. Miles and Harry Neville, alias Tom Flynn, charged with the murder of Watchman Frank Wiser, was held here today. Judge McCreary presided over the hearing by County Attorney Spangole all the defendants plead not guilty. They each in turn, however, took the witness stand and accused one another of the crime, alleging that they did not intend to kill Wiser. Their statements were conflicting. McIntyre claims that the watch and chain and revolver were hidden under the coal chutes at Pine Bluffs.

His description of the death of Wiser was harrowing in its details. They sat alongside of his body, smoking cigarettes, watching him die. Flynn is about 30, Miles about 32 and McIntyre 29 years old. They were bound over to the district court with one ball and the two witnesses for the state, Jenkins and Redding, were held under \$2,000 bail for their appearance. It is currently reported that this trio will ask a speedy trial, plead guilty and accept a life sentence.

Later the three men plead guilty to manslaughter and were sentenced to the penitentiary for life.

SUSPECTS UNDER ARREST.

Charged With Blowing the Safe of the Palmyra Bank.

LINCOLN—George Dowd and Frank Todd arrested by the police on suspicion of having blown open the bank at Palmyra, were taken to Otoe county by Sheriff Strader. The police have strong evidence against the suspected men, and believe they will have no trouble in securing a conviction. Both are ex-convicts and each was paroled before on conviction with the Skinner Todd was sent to the penitentiary from Boone county on one occasion for cattle stealing and once for blowing. Dowd was sent up for forgery, and his sentence expired about two weeks ago. Todd has been employed by S. M. Melick up recently, when he went to work at the Skinner liver barn while Dowd has been the engineer at the Windsor hotel since his release from prison.

Protests Against Fast Running. GRAND ISLAND—It is reported in railroad circles that Engineer Wood White of North Platte has just been notified of his suspension from his position as a result of a "cut-out" order for making too good time on the Union Pacific. The story goes that the dispatcher's train sheet, which ought to be the best evidence, showed the train pulled by White recently from Gothenburg to Grand Island in 126 minutes, including the minutes and as the distance is six and two-tenths miles, showing a speed of about 100 miles per hour, it called forth vigorous protests. It is learned that the trip from North Platte to this point on this occasion, 132 miles, was made in 126 minutes, including the stops. White had the fast train in the time, which was several hours late.

Auburn Cannery Closing Season. AUBURN—The Auburn cannery factory is just about to close a most successful season. Four carloads of its corn product has been rapidly put in readiness for shipping. The capacity of the plant was doubled for the season's work and an average of 65,000 cans of corn daily, were put up since the opening. An average of 200 persons have been on the pay roll of the company. The opening of the cannery was celebrated on Tuesday last in readiness for shipping.
