That Telegram will prove a "boomerang" to McKillip, if the editor of the Telegram tells the truth when he mys that it was a "school boys joke."

First, it is not only an insult to D. M. Newman, who sent the challenge as secretary of the republican county central committee, but it is a direct slap at every republican in this county. And a man who would resort to such "fun," whether at the expense of friend or foe, would be unsafe in any public position. His proclivities for cheap "fun" might break cut if he were in congress, and the people would pay for his jokes the same as Dave Newman did. He would prove more expensive than the revenue law complained of by the office seekers of the demo-pops. We think Howard must be mistaken. It would look better if he would excuse McKillip by saying that he was trying to get ahead of W. V. Allen who spoke for 16 hours without eating, sleeping or thinking. Or that it required 600 words for McKillip to say, "No, I will not, I am afraid." But however they explain it, it will turn away from McKillip those republican votes that would have been cast as complimentary for a home man. Too much fun is not appreciated, although a little nonsense is relished by the best of men.

## \* COLE'S HOT BLAST

## A Stove that is Imitated—Get the Original

TMITATIONS of the original Hot Blast are many. None of them have the absolutely air-tight and gas-tight construction throughout which Cole's Hot Blast has by reason of its numerous patents. A patented steel collar connects the elbow draft to the stove body and cannot open by action of the fiercest heat. The patented compound hinge on the lower draft cannot warp, and the ash door closes airtight by its own weight. The patented smoke-proof feed door prevents smoke, dust or gas escaping when fuel is put in the stove. Perfect results, therefore, from soft coal. The heavy fire box protects the points where other stoves burn out first, and insures great durability.

Remember imitations lack the special features because these are fully patented and protected. All imitations soon open up seams and cracks which make them fuel eaters rather than fuel savers.

The name "Cole's Hot Blast from Chicago" will be found on the feed door of each stove. Be sure that you get the "Original Hot Blast." The most economical stove in the world for hard coal, soft coal, wood or cobs. Requires no change for hard coal, wood or soft coal.

## SOME PAINT FACTS-

The general prejudice against Ready-Mixed Paints is based a fact that most of them are adulterated with interior oil. 2. All point is first ground into a THICE PASTE, and the Remiy-Mined point easher then dilutes every pation of this paste with a gallon of "off"—you have to take his word for its parity. 4. When you buy Ready Mixed Point, you pay the Ready Mixed Paint price for this enuned "oil" or from 12 1/2703 filmes the market price for the fresh, pure raw oil in your local dealer's laterel. 6. There is a print whose realizes STOP, when the peste is completed; content with the profit on the paint alone and knowing that my 14 year old boy can rely this paste and the pure raw off, both bought separately from the local dealer. Simply stir together, gallon for gallon, no thore, no less, and nothing else, and FOI know you have an absolutely pure lineast oil paint that has east you at least 25%, less than any "High drade" Ready-Mixed Paint. An honest price for both paint and of and your own personal knowledge of its purity and durability.
