INSISTS ON A CHANGE.

The President Committed to Railroad Legislation.

WASHINGTON-President Roosevelt discussed with several callers the proposed legislation regarding the question of railroad freight rebates SO SAYS CARFIELD'S REPORT and the question of empowering the interstate commerce commission with authority to adjust freight rates where found to be excessive. Among those who talked with the president were Secretary Morton and E. P. Bacon, chairman of the executive

committee of the interstate commerce

The president is anxious that legislation in the interest of shippers be enacted at the earliest possible date and the matter has been considered by him with many of his recent callers. It was stated by one of the president's callers that Attorney General Moody now was engaged in the preparation of a hill which, substantially, would embody the views of the administration on the question, and that the measure would be presented to congress probably soon after the holiday recess. The president has announced that the bill he is willing to support must be fair to both the railroads and the people. He believes that the initial steps toward the desired legislation should be taken at the present session of congress, and, if possible, that the legislation proposed should be crystalized into law at this time.

Senator Heyburn of Idaho had an extended talk with the president on the subject of federal charters for corporations doing an interstate com- or license. merce business. The senator indicated his intention to introduce in the senate after the holiday recess a measure providing for the incorporation under United States laws of all corporations. The bill as prepared by Senator Heyburn will provide that corporations now in existence must take out federal charters and that such corporations as may be organized thereafter shall incorporate under federal laws. All such corporations will be under the supervision of the department of commerce and labor through the bureau of corporations. The bill has not been matured thoroughly yet, but Senator Heyburn hopes to have it ready for introduction immediately after the holidays.

WASHINGTON-The first annual repeated of the commissioner of corporacois was submitted to congress Wedne-'ay by Commissioner Garfield. He says no satisfactory reform is to be expected under the state system of incorporation; that the federal government eas at its command sufficient power to remedy existing conditions in its control of interstate commerce. He therefore suggests that congress consider the advisability of enacting a law for the legislative regulation of interstate and foreign commerce under a license of franchise, which in general should provide as follows:

"The granting of a federal franchise or license to engage in interstate com-"The imposition of all necessary re
