MEDICAL EXAMINER

Of the United States Treasury Recommends Pe-ru-na.

Another Prominent Physician Uses and Enderses Pe-ru-na.

DR. LLEWELLYN JORDAN, Medical Examiner of the U. S. Treasary Department, graduate of Columbia College, and who served three years at West Point, has the following to say of Peruna:

"Allow me to express my gratitude to you for the benefit derived from your wonderful remedy. One short month has brought forth a vast change and I now consider myself a well man after months of suffering. Fellow sufferers, Peruna will cure you."

A constantly increasing number of physicians prescribe Peruna in their practice. It has proven its merits so thoroughly that even the doctors have overcome their prejudice against socalled patent medicines and recommend it to their patients.

Peruna occupies a unique position in medical science. It is the only internal systemic catarrh remedy known to the medical profession today. Catarrh, as everyone will admit, is the cause of one-half the diseases which afflict mankind. Catarrh and catarrhal diseases afflict one-half of the people of United States.

............... Robert R. Roberts, M. D., Washington, D. C., writes:

"Through my own experience as well as that of many of my friends and acqualptances who have been cured or relieved of catarrh by the use of Hartman's Peruna, I can confidently recommend it to those suffering from such disorders, and have no hesitation in prescribing it to my patients," Robert R. Roberts.

........... Catarrh is a systemic disease curable only by systemic treatment. A remedy that cures catarrh must aim directly at the depressed nerve centers. This is what Peruna does.

Peruna immediately invigorates the nerve-centers which give vitality to the mucous membranes. Then catarrh | Ohio.

The eating of raw fish is by no means confined to the Esquimaux Fairly well smoked salmon, cod and trout are eaten raw by Indians and Canadians alike, and are both palatable and easily digested when cut with a sharp knife into the thinnest possible slices, much as old woodsmen like to shave off the chippings of a well smoked but uncooked caribou bam.

Happiness in Poetry.

There are so many holy and tender motions flying about in our inward world, which, like angels, can never assume the body of an outward act; so many rich and lovely flowers spring up which bear no seed, that it is a happiness poetry was invented, which receives into its limbers all these incorporeal spirits, and the perfume of all these flowers .- Jean Paul Richter.

Modern Surgical Methods.

The use of the needle and thread in closing wounds has come to be a fine art. In former days the surgeons were mere bunglers, and most wounds left hideous scars. But at the present day the manner in which arteries are ligatured, tendons spliced, intestines sutured and wounds closed is the foundation of success, no skilled use of the scalpel taking its place.
