At Columbus where a firm's foreman is in progress, they met the incoming delegates with a string of mountain jacks and compelled the foreign fire fighters to ride them up town. Some crank turned in a fire alarm about one o'clock Wednesday morning, and got all the firemen in the city out, before they had their beds warm. Farmers' Institute.
Mr. O. Hull of Alma, Nebraska, will be present and speak on the subjects of Economic Pork Production, Alfalfa Culture, and Soil Tillage. Mr. O. Hull is a practical farmer and a man of wide experience. He has been in the Farmers' Institute work previous to this year but was not on the force last season. His knowledge of the subjects that he discusses has been acquired by following the plow, feeding the hogs, and sowing alfalfa seed that cost almost its weight in coin. In all these lines of farming Mr. Hull has been very successful, largely because he has been quick to profit by his own experience and the experience of others and ready to receive instructions from any reliable source. We are fortunate in having Mr. Hull with us again.

Grocery Department. BAKER'S CHOCOLATE.

Does It Sound Familiar?

The good housewives of Columbus have had quite a schooling the past six months as to the merits and demerits of this product, and some of you have been summoned to appear before the High Tribunal to find out whether you had been using or whether you knew you had been using "Bitter Chocolate," "Baking Chocolate," "Baker's Chocolate," "Wm. H. Baker's Chocolate," "W. H. Baker's Chocolate," or "Walter Baker & Co's Chocolate."

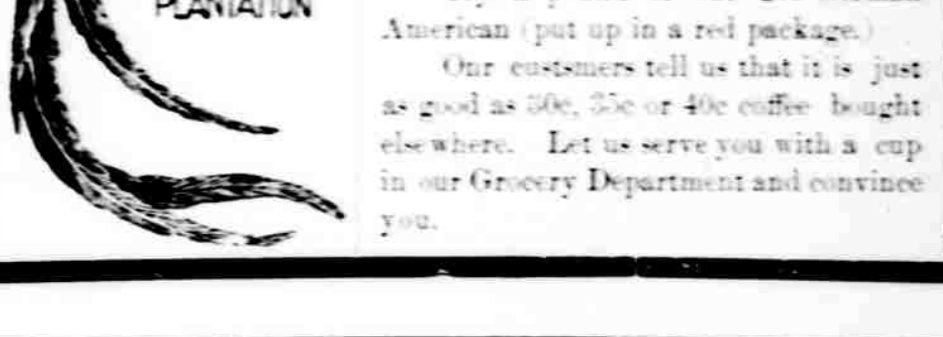

All this fuss originated because we cut the price of chocolate from 20c per cake to 15c per cake about 6 months ago.

We are still selling all kinds of Chocolate, no matter what the brand, for 15c per cake.

Only two more weeks of the piano contest remain. It is needless to say that each contestant is striving her utmost to land the \$500 piano, for each one realizes that the prize is worth some very strenuous work. That the finish will be very close cannot be doubted as each contestant has many friends doing effective work for her. The most gratifying feature of the

contest to the Journal management is the fact that the contestants, the most of them, are getting the most of their votes from new subscribers, which is adding materially to our subscription list. Of course the printed vote gives no suggestion of the real number of votes, as each contestant has the privilege of holding back as many as she desires.
